## CARD OF THANKS

We wish to thank our many friends and kind neighbors for their kindness and sympathy shown us during the illness and death of our loved one, A. C. Landreth.  
The Family.

**THE HUMAN CRICKET**  
BEATS OLYMPIC RECORD!

**ILLUSION:**  
Josie, the lovely trapeze artist, stands upon a small platform. At the will of the magician she leaps twenty feet into the air to reach her trapeze. She uses no ropes, no ladder! A phenomenal leap for a woman... or a man!

**EXPLANATION:**  
Josie didn't jump... she was sprung! The twenty-foot leap is not dependent on Josie's ability, but on a powerful spring mechanism hidden beneath the stage which propels the artist upward through the air. The force is so violent that the lady wears a light steel jacket which protects her from injury as she starts her astonishing leap.

**IT'S FUN TO BE FOOLED**  
...IT'S MORE FUN TO KNOW

Magic has its place...but not in cigarette advertising.  
Consider the illusion that there is a mysterious way to give cigarettes a superior "flavor."  
**EXPLANATION:** Cigarette flavor can be controlled by adding artificial flavorings. By blending. And by the quality of tobaccos used.  
Cheap, raw tobacco can be "built up" or "fortified" by the lavish use of artificial flavorings.

Such magic, however, seldom holds the audience. Your taste finally tells you the truth.  
The cigarette flavor that never stales, never varies, never loses its fresh appeal, comes from mild, ripe, fragrant, more expensive tobaccos...blended to bring out the full, round flavor of each type of leaf. It's the quality of the tobacco that counts!  
It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Because Camel actually pays millions more every year for choice tobaccos, you find in Camels an appealing mildness, a better flavor.  
And Camels taste cooler because the welded Humidor Pack of three-ply, MOISTURE-PROOF cellophane keeps them fresh.

**NO TRICKS**  
**..JUST COSTLIER TOBACCOS**  
IN A MATCHLESS BLEND
