

## BIG SQUADS OUT AT ROSMAN HI SCHOOL

ROSMAN, Sept. 27.—Coach Sawyer's first call for candidates for the boys' and girls' basketball teams was answered with the largest number of candidates the school has ever known—twenty-one boys and twenty-four girls being out for the two teams.

Prospects for the boys' team are especially good, there being six letter men among them, E. J. Whitmire, Allen White and Douglas Eldridge, being regulars last year. Whitmire made more points last year than any of his mates. White is the smoothest playing, running guard this school has probably ever had.

Other members of the squad are Earl White, Paul Whitmire, Charles Galloway, Everett Whitmire, Blanton Whitmire, Charles Nelson, Howard Galloway, Charlie Lee, Victor Sigmon, Clarence Chappel, J. E. Burt, Fred Israel, Donald Nelson, Alfred Gillespie, Clinton Greene, Charles Clark, Hall Owen Martin Arrowood.

Prospects for the girls' team are not so bright as those for the boys, although there are a dozen girls out who have had from one to three years' experience, and competition for places on the team is very keen. At present the most outstanding players are Edith Clark, last year's flashy forward, Fannie Morgan, Daisy Galloway and Inez Oates.

Other members of the squad are Ophelia White, Ann Moore, Maxie Moore, Mildred Henderson, Bernice Reid, Laura Pharr, Margaret Glazener, Hazel Moore, Leni Love, Ruby Love, Verona Lyday, Hilda Galloway, Ruth Greer, Margaret White, Dovie White, Inez Pangle, Blanche Petit, Grace Galloway, Louise Galloway, Ruby Glazener, Hattie McCall, Ula Mae Morris.

High school teams wishing games with Rosman should write Ethel Manley, manager of the girls' team.

## When you consider TERMITE TREATMENT

Consider these facts:—

In a recent bulletin issued by the U. S. Department of Agriculture it was said—"State officials and others reporting to the Bureau of Entomology reveal that termite treatment shapers are particularly active in the South and in some of the far west states". The bulletin also states that "Many of these treatments are expensive and are not correspondingly effective".

Terminix treatments are approved by the government and are the only available contracts having met with the requirements of the Treasury Department in accordance with specifications of Termite extermination by the supervising architects.

## HIGHWAY MATTER IS BETWEEN TWO FIRES

(Continued from page one)

dards required by the existing travel. It is now estimated that \$30,000 will complete the grading of this project. As you know, the forest highway programs are worked out and approved by the State Highway Department, Bureau of Public Roads, and the Forest Service. I have recommended that the \$81,326 of North Carolina Forest Highway money be programmed, \$30,000 to complete the grading of the Pisgah Motor Road and the remainder for the construction of a portion of State Highway No. 284 within the Pisgah National Forest. So far this program has not been approved by the North Carolina State Highway and Public Works Commission.

"There has also been allotted to North Carolina \$373,000, under Section 205 B of the "National Industrial Recovery Act" for forest roads, trails etc. This fund is primarily for roads necessary for administration, protection and utilization, or in other words, for the development of the forests. At the present time the need for the improvement of this class of roads in the Nantaha and Pisgah Forests, and in the proposed new forest unit in North Carolina, does not warrant the allocation of any of this money to the Pisgah Motor Road, which is eligible for funds under Section 205 B as recommended.

"Mr. Ramsey, Jr., states in his letter that Mr. Jeffress, Chairman of the North Carolina Highway and Public Works Commission, has advised him that the funds for the construction of this road No. 234 will have to come from the Forestry Department as it is on Federal property. There is, of course, no reason why State Highway funds should not be used for road construction within the boundaries of the National Forests, and in the past such funds have been used in the forests.

"I wish to assure you that the Forest Service is very much interested in the improvement of that portion of State Highway No. 284 within the Pisgah National Forest and will do all that it can to cooperate with the State in the improvement of this project.

"Very sincerely yours,  
Joseph C. Kircher,  
Regional Forester."

**It's Smart TO BUY TIRES NOW...**

Now...

is the time to buy tires. Prices may go higher. If they do, it will actually cost you money to use up old tires. And with fall and winter weather and wet and slippery roads just around the corner, it's a good idea to have the protection of safe new tires all around. And remember this—tire wear is slower in winter than it is in summer—the tires you buy now will give you full protection all winter and you will still have good tires for next spring and summer to withstand the ravages of hot summer roads. We carry the complete line of Goodyear Tires—Speedway, Pathfinder and All-Weather. At the price you wish to pay we have a Goodyear Tire. Why not come in today and talk it over?
