

MANY RENEWALS TO PAPER DURING WEEK

Cards Mailed To All Subscribers In Arrears—Good Response Expected

A total of 28 new and renewals have been received by The Times during the past week, majority of these coming from Brevard and the county, with a good representation from other sections.

Cards have been mailed during the past few days to all subscribers whose time expired October first or before, asking for renewal at an early date and calling attention to the fact that the price will necessarily have to be raised soon.

It was thought necessary by management of The Times that the price would be raised the first of the month but this move has been put off on account of the fact that the National Editorial Association code is being worked out with NRA officials in Washington at this time, with completion expected during the early part of this week, at which time, price of the paper will be based upon cost of production, and for this reason the rate of \$1.00 in the county and \$1.50 outside was not changed by The Times.

The following new and renewals have been received at this office since Wednesday of last week:

C. Y. Patton, Brevard; H. P. Jewell, R-3; T. E. Patton, Brevard; L. D. Gillespie, R-3; Julia Gillespie, Brevard; M. G. Garren, Brevard; Edna Mae Henderson, Cullowhee; Clarence Whitmore, R-3; James Garren, R-3; Duncan MacDougald, Princeton, N. J.; Carl Bryson, Brevard; Chas. G. Simon, Pisgah Forest; J. H. Raxter, R-1; J. E. Glazener, R-1; L. M. Lyda, Lindale, Ga.; C. J. Moltz, Lake Toxaway; Mrs. O. E. Blythe, R-2; T. G. Miller, Pisgah Forest; Glenn Miller, Bristol, Tenn.; Virgil McCrary, Penrose; W. B. Henderson, Lake Toxaway; J. R. Bishop, Cedar Mountain; Mrs. John Wilson, R-2; J. W. Smith, Brevard; Mrs. W. T. Bosse, Brevard; Howard D. Wyatt, Brevard; Dr. H. C. Hardin, Trion, Ga.; J. L. Walchou, R-3.

PENROSE ITEMS OF INTEREST RECORDED

PENROSE Oct. 2.—Penrose school ended the first month with an attendance reported as the largest in over three years. Mrs. Guffy, the state nurse, wondered how such an attendance could be made with so many physical defects found in the children. The enrollment is 91 and attendance was 85, a plenty for two teachers. Mrs. Guffy found many of the handicaps here, such as diseased tonsils, defective teeth and eyesight and underweight. Most of such children are attending but cannot do satisfactory work. The state should go one further and correct these defects. Many parents cannot have corrections made, and the child is left in a pitiable condition.

Mrs. W. W. Martin, of Greensboro, State P. T. A. organizer, visited Penrose school last Tuesday, with Mrs. O. H. Orr of Brevard. Mrs. Martin outlined the work of the P. T. A. in a splendid way. Those present enjoyed her talk very much and set Friday night, October 13th, for a P. T. A. program and organization.

Mrs. Martin's outline follows:
The organization should:
1. Wake up the community.
2. Unify the community.
3. Create public opinion.
4. Formulate plans.
5. Sell the school (not building).
6. Interpret the community.
7. Form a partnership.
8. Prevent misunderstandings.
9. Provide needs of children and school.
10. Look after attendance.
11. Look after health.
12. Develop parent education.

So one can see that raising money for a school is only one of the small functions of a P. T. A. Looking after health and consequently attendance should be a large item. Why not P. T. A. work to make any community the best for the children. Penrose needs a library for the children and all the community. This can be had. We expect a good attendance at the P. T. A.

WHIRL AT THE WORLD OF NEWS

Items of interest gleaned during the past week

To Settle Luke Lee Case
Asheville—Word has been received here by Solicitor Zeb. V. Nettles that the Tennessee state supreme court will rule on the Luke Lee habeas corpus proceedings October 7.

Gangsters In North Carolina

New York Takes First Game
New York—The Giants defeated Washington Senators here Tuesday afternoon 4-2 in the first game of the world's series.

Testing Jordan's Mentality
Columbia, S. C.—Three or four

FAKE DOCTOR SAID TO BE IN COUNTY

Women's Civic Club Taking Steps To Stop Malpractice of Such Folk

Featuring the meeting of the Women's Civic club held Monday afternoon at the U. D. C. library was a program of unusual interest and information presented by Mrs. Frank Jenkins on the subject of American Citizenship, with particular emphasis on good citizenship and the duties of women in the matter of voting. Mrs. Jenkins traced the development of the word citizen from the time of the ancient Greeks and Romans to the meaning of the word in present day terms, in a concise and intelligent manner.

Mrs. L. B. Haynes spoke a few words on the necessity of the club members going to the polls and voting according to their own individual convictions and made reference to several articles in current magazines on the general subject of citizenship and voting.

Discussion was made of the matter of an alleged fake "three-day doctor" going about this county and by means of extortion getting money from people in the outlying districts of the county for so-called medical treatment and medicines, which he apparently feared to send through the mails. Cases of this man's malpractice through the upper end of the county especially, were cited by some of the club members. Miss Katherine Griffin and Mrs. Frank Jenkins were appointed on a committee to confer with the county health officer or other proper authorities in an effort to check further disturbance of this nature throughout the county.

Reports from committee chairmen present were given, and other matters of business transacted pertaining to the welfare of the club and the community, with the president, Miss Florence Kern, presiding.

weeks," a report from the state hospital here Tuesday said, will be required to determine whether or not C. C. Jordan, of Anderson, S. C. and Brevard, N. C., is insane. He is being held on an extortion charge.

After telling the story of your adventure ten or twelve times, you believe it happened just as you tell it.

—about Cigarettes

Of all the ways in which tobacco is used the cigarette is the mildest form

YOU know, ever since the Indians found out the pleasure of smoking tobacco, there have been many ways of enjoying it.

But of all the ways in which tobacco is used, the cigarette is the mildest form.

Another thing—cigarettes are about the most convenient smoke. All you have to do is strike a match.

Everything that money can buy and everything that science knows about is used to make Chesterfields.

The right home-grown tobaccos—seasoned with just

enough aromatic Turkish—are blended and cross-blended the Chesterfield way.

Then the cigarettes are made right—firm, well-filled. Chesterfield uses the right kind of pure cigarette paper.

There are other good cigarettes, of course, but Chesterfield is

the cigarette that's milder, the cigarette that tastes better. Chesterfields satisfy—we ask you to try them.

Chesterfield

the cigarette that's Milder

the cigarette that TASTES BETTER
