IT'S YOUR FAIR—SO BE THERE
 In a number of advertisements being carried in this issue of The Times will be seen the words—"It's Your Fair—So Be There"—and your fair it is, the first county fair that has been attempted in years, and deserves the cooperation of all people of the county.

As a matter of cooperation, majority of the people of the county are assisting in the work of putting on the fair, and as a matter of interest and something worthwhile that who have not had the opportunity of helping do the large amount of work necessary to stage this two-day event, will be well repaid for their visit.

Field in Brevard this year, the Fair Association hopes to be able to make the fair an annual event to be staged at the County Farm which is a more central location. The interest shown by the people of the county will largely determine future fairs, hence it is to the interest of all to take whatever part possible in making the two-day fair here Friday and Saturday a complete success.

ANOTHER NORTHERN CHAIN GANG "VICTIM"
 A poor little Northern boy about 20 years old is getting plenty of newspaper publicity before trying for a job on the stage or in the movies, the poor fellow claiming that he was badly mistreated in a South Carolina chain gang camp.

Give advice to the "poor little fellows" from the North is: either stay at home or keep the law when they come South. Arrested and tried for vagrancy, this particular man was given thirty days on the gang, and just because he was not given a feather pillow to sleep on, ice water to drink, and chicken pie to eat three times a day, he goes back to his New York home and raises the cry that he is "another fugitive from the chain gang."

Wait for his book, or the play he will be starred in....it'll show up the poor "ignorant South" to a fine advantage.

CUT THE PETS OFF THE PAYROLL
 If one were to analyze the facts as set out in findings of Senator Black of Alabama, reason for great deficits each year in the federal government would be easily seen. Four pounds of mail carried by the Export Steamship corporation cost poor Uncle Sam the sum of \$300,000, or \$75,000 per pound.

Then there was another contract with this company that evidently had some favor with the powers of governmental spending, totaling for \$66,000 per pound for a mail carried. It must have been valuable mail, and we believe owners of the steamship line were like lots of other people who get fancy governmental jobs—fine at politics.

We hope the government keeps fellows like Senator Black in Washington from now on, and that he continues to earn his expense account by turning up more of the rascals who feed on public treasury funds.

LIARS ARE A NECESSITY
 Did you know that it is necessary to have liars in a community? Well, it's a fact. They are necessary in order to make people appreciate honest folks.

But there are two kinds of liars, one kind that tells just ordinary lies that no one will believe, because people in general know who this type of liar is. The kind that are the hurtful liars, are those who take an imaginary offense at a man or his place of business and run around peddling hurtful lies. Ordinarily this kind of a liar is counted as a pretty decent fellow so there is a little credence given his story until the truth of the matter is found out. But a liar is a liar, and the goody-goody kind of liar is next thing to an imp of hell, and should be treated as such when the truth is found out.

Goldenrods cause only a small percentage of hay fever suffering; trees, animal hair, glue, horn-rimmed spectacles, molds and dust also bring it about.

FIRE PREVENTION SHOULD BE STRESSED
 Fire Prevention Week, October 8 to 14, should have the hearty cooperation of every citizen of Transylvania county and should be stressed daily during the entire week in all schools.

Transylvania county has lost vast wealth in the last few years by fires that were needless, caused in most instances by ignorance and unthoughtfulness. How to properly extinguish camp fires, methods of burning brush, careful handling of cigarettes and matches are a few of the things that should be brought to attention of all people during the coming week especially, and at other times as well.

GLANCING BACK AT BREVARD

Taken from the files of The Sylvan Valley News, beginning 1895, through the courtesy of Mrs. W. B. F. Wright.

(From the file of Sept 24, 1897)
 Mrs. S. W. Dixon and children of Florence, S. C., who have been stopping for a month at the home of J. A. Forsythe, left for Florence, S. C., last Monday.

Miss Nita Gash made a fine display of new millinery goods at her fall opening yesterday.

W. L. Carmichael and family have moved into the house of Mrs. James Duckworth on Main street.

Pastor Falls, assisted by Rev. Wilbur LeGette, of Acton, N. C., will begin a series of meetings at the Methodist church in Brevard next Sunday. Everybody is cordially invited to attend these services and asked to assist in any way to make them a blessing to the town.

The valuable Caesar's Head property of 2,231 acres, will belong to Furman University within a few days, the owners, Dr. and Mrs. F. A. Miles, having declared their intention of giving it to that institution. The trustees of the university have agreed to accept it upon the conditions prescribed by Dr. Miles and the papers will be executed at once.

A new first class tin shop has been established here owned and conducted by Wm. Freston, of Philadelphia, who is a fine workman. His shop is in the McGaha building where he is ready to wait upon you at all times.

Des Young, Joe Pickelsimer and Leon English went to Asheville this week and tackled the civil service humber, but they have not learned yet what their average is.

Misses Gash and Maxwell have secured residence room at the home of Rev. I. T. Newton.

Col. W. L. Hume returned home Wednesday morning after an absence of several days on business at Asheville.

Ten pounds of green coffee for one dollar, or one pound for 10 cents, at the Racket store.

E. P. McQueen a prominent lawyer of London, Tenn., is visiting his sister, Mrs. T. J. Neely, near Brevard.

On last Friday morning James Hoeker, a young man living with his widowed mother at Cedar Mountain, shouldered his gun and left the house ostensibly for the purpose of hunting. A Mr. Bishop was in town last Sunday in search of the young man, stating that he had not returned home and that his mother was very uneasy about him. Hoeker is about 21 years of age. His absence could not be accounted for.

An organization of the board of trustees of the H & B railroad was

MASONIC LECTURER HERE NEXT WEEK

Jeff Nelson, lecturer for the Grand Lodge of Masons in this district, will be in Brevard next week, Oct. 9 to 14, lecturing to members of Dunn's Rock Lodge.

Mr. Nelson, regarded as one of the outstanding lecturers of the Grand Lodge, will be in the hall on Broad street each day and evening during the week. He will stop while here at the home of Judge and Mrs. D. L. English.

effected at a meeting in Hendersonville on Monday by the election of T. J. Rickman as chairman. T. S. Boswell was elected general superintendent to take charge as soon as accounts of the late receiver were paid. There were present at the meeting W. A. Gash, T. J. Rickman and W. E. Shuford, who had power of attorney to act for Judge Shuford. The settlement with Receiver Shuford occurred on Tuesday and the road was turned over to the trustees. It is hoped that it can be run at a saving over its former record and that the creditors may be paid what they have waited so patiently to receive for nearly two years.

Scholars desiring to attend the day sessions of the Brevard Epworth School and who live too far away to come and go each day to their homes can make arrangements for reasonable board with parties living near the school, or rooms can be rented in which parties can board themselves. This will bring the school within reach of many who heretofore could not avail themselves of the advantages of the school. For terms of tuition and information in regard to homes apply to Fitch Taylor, Principal.

Mr. Ashworth and family in company with Perry Merrill and family, G. A. Williams and others went mountain climbing to Mr. Ashworth's extensive apple and peach orchards on the Black Knob. A grand feast and enjoyable time was reported.

In the matter of seeking and securing a market for farm products abroad, Brevard is coming to the front. Messrs. Allen & Davenport, of Horse Shoe, have bought and shipped within the past week two car loads of cabbage and one of Irish potatoes. This is the first effort that has been made to utilize the railroad for the benefit of Transylvania people and will give an impetus to the vegetable industry here. In fat cattle Transylvania has stood at the head, but owing to the reduction of her mountain range by withdrawing the Vanderbilt purchase she has not kept her position for a number of years. J. A. Galloway started a car load of 55 cattle to Richmond Wednesday, and many more will follow if the railroad continues to be run in the interest of shippers from this county.

WANT ADS

DOGWOOD WANTED—4 1/2 inches at small end—16 inches and up to 4 ft. in length. Clear of knots, defects and red heart. \$12.50 per cord delivered in Brevard. H. S. Townsend, Cantrell Blacksmith Shop, near Depot, Brevard. Sept 28 tfe

WE CAN do a perfect job on thinning thick bushy hair. We specialize in Ladies and Children's hair cuts. Smith's Barber Shop.

STEADY WORK—GOOD PAY RELIABLE MAN WANTED to call on farmers in Transylvania County. No experience or capital needed. Write today. McNESS CO., Dept. S, Freeport, Illinois. 1tp

Petition Asks That Football Ruling Be Changed By Local School Board

Promise Made By Boys To Do Their Best In School If Boon Given

OUTCOME OF PETITION IS STILL UNSETTLED

Ask That Games Be Allowed On Friday—Many Sign Paper

A petition, asking for revision of the football ruling made by Brevard high school officials at the beginning of the term, was presented to Professor J. B. Jones Monday afternoon by a group of Brevard football fans.

Rules announced at the beginning of the school term are to the effect that boys who failed to pass three subjects last year could not be allowed to play on the Brevard high football squad, thus eliminating some players who are deemed valuable to the team's winning power.

Further ruling was made to the effect that no more Friday games would be allowed, games to be played on Saturdays or holidays. This regulation was made, officials state, with so many absences on Friday mornings and afternoons and unprepared lessons on the following Monday.

Majority of the first squad players who were eligible to play under the ruling have failed to come out for football, claiming that they cannot hope to have a winning team unless they have more experienced men and a heavier team than would be possible under the scholastic ruling made by the officials.

A petition was circulated here last week, and a number of names of citizens procured, this being the petition set out below. No action had been taken by the school officials at the time of going to press Tuesday afternoon in regard to the matter. However, a statement is expected to be made by the local committee, composed of Mrs. G. H. Lyday, A. E. England and Fred Miller and Professor Jones within a few days. What their reaction to the petition will be, is, of course, problematical, but it is believed from statements made by members of the board unofficially, that the petition in its entirety will not be accepted.

Following is copy of the petition: We the undersigned citizens of Brevard and Transylvania county hereby petition the school officials to reconsider the ruling in regard to eligibility of football players.

We realize and appreciate the position that the school authorities are in and that you are justified in taking the action that you have, but we ask that you give these boys another chance in view of the fact that they have signed the following pledge:

"We the undersigned do hereby pledge our willingness and do hereby promise that if allowed to play football we will: 1. Attend school regularly.

2. Attend the entire year.
3. Cooperate with the school and teachers in every way possible.
4. Do our best to pass our work.
5. Not to cut classes and to obey all rules and regulations.

Further more we agree and promise that if any member of the team refuses to cooperate or violate this pledge at any time, we are willing for the old rule to go into effect."

If possible will you consider changing the games from Saturday to Friday?

We the undersigned promise to cooperate in every way possible to make the above program effective and satisfactory to every one concerned.

DISTRICT P. T. A. TO MEET IN ASHEVILLE TUESDAY

Western District Parent-Teacher Association will meet in Asheville next Tuesday Oct. 10 in a one day meeting, a program of much interest being announced.

Among the speakers to be present are Mrs. C. S. Freed, president of the district; Mrs. J. L. Henderson, state president; Mrs. W. W. Martin, state field secretary and Dr. Albert Coates, founder of the Institute of Government. Several people from this community expect to attend.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep you constipated as long as you keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. Member N. R. A.

THREE PUPILS MAKE PERFECT RECORDS

Twenty-eight pupils made the requirements for "Honor Roll" at Brevard high school during the first month, four of them having the distinction of making A on each subject.

Arbutus Aiken, 8th grade, Sandy McLeod, 9th grade, Louise Alexander and Mabel Gillespie of the 11th grade, each made A on all subjects. The following pupils have attained Second Honors by making either A or B on each subject:

Eighth grade—Nina Lou Rustin. Ninth grade—Dorothy Allison, Pauline Hartsell, Ora Holt Long, Essie Mull, Nell Scruggs, Dorothy Talley, Malva Tharp, Lucien Deaver, Lewis Hamlin, Bill Huggins, Henry Miller.

Tenth grade—Ruth Fulton, Mary Sue Jennings, Virginia Justus, Blanche Scruggs, Oscar Deyton.

Eleventh grade—Dora Aiken, Sarah Bishop, Elizabeth McCoy, Charlotte Patton, Walter Clayton, James Deaver, Richard Grimshaw.

Burt To Preach

Rev. J. E. Burt will fill his regular appointment at Oak Grove, Quebec, next Sunday at 11 o'clock, this also being Home Coming day at that church. A large crowd is expected to attend.

The Rev. Mr. Burt will assist Rev. Mr. Rogers in revival work at Mt. Moriah Cherryfield, this week.

"The Boon of Indirect Lighting."

In the Marshall Field store in Chicago is an installation of wholly indirect lighting which is causing comment, not only among illuminating engineers, but among laymen as well. Customers, long familiar with the store, entering for the first time since the new lighting was turned on, are conscious of something different. Then they realize that the store seems larger, the ceiling higher, and that the reason for these impressions is the absence of lighting fixtures. But where is the light coming from? Unless they ask, many of them leave the store with the mystery still unsolved.

The light sources are easy enough to find if one knows where to look for them or has enough experience to deduce their locations. But they are not apparent, they are just unobtrusively there, doing their work.

Artificial light has two functions. One, the more important, is illumination. The other is decoration. In neither is it necessary that the eye be attracted to, or even be conscious of the light source. The light source may, of course, be an element in the decorative scheme, but there is nothing about its utilitarian function that requires its presence to be advertised or even apparent.

Probably if an excellent example of just lighting, such as this in Marshall Field's, could have been held up before the electrical industry thirty years ago the monkey tail style of fixture that even in this present day infests too many of our homes and stores would never have spread its curlicues so widely over the land. And wouldn't that have been a blessing? Even a lot of modern fixture and lighting unit design might happily be abolished from the sight of man if a proper appreciation of indirect illumination from concealed light sources could be brought home to illuminating engineers as well as to the public at large.
