

## ROSMAN WINS OVER GLENNVILLE QUINT

ROSMAN, Nov. 15—In the opening game of the double header with Glennville, the Rosman girls came out on the short end of the score 26-5. However, the game was not as one-sided as the score indicated. At the end of the first quarter the score was 2-2; at the end of the half 4-2 in favor of Glennville, and at the end of the third quarter the score was 12-5. Most of the scoring by Glennville came during the last quarter, after Coach Sawyer had sent his second and third teams into the game. Both teams fought hard, with victory going to the best team.

## PENROSE SCHOOL IN ARMISTICE EVENTS

Penrose school had a kind of field day Monday afternoon in celebration of Armistice Day. The program was to have been on Friday, but was hindered by cold weather. The program consisted of Athletic badge tests for the boys and required two hours time. The events consisted of rope climbing, chinuing pole, standing broad jump, 50-yard dash and base-ball throw for distance.

Out of 20 entrants 11 qualified for badges. Those qualifying in the different events were Clyde Davis, Sid Rickman, Herman Rahn, Benny Lee Frady, H. Slatten, Willie Landreth, Bill Owenby, Joe Bythe, Alvin Blythe, John Lyday and Ottis Bryson. Those failing to make the events are to train and practice and take same tests later. The girls are practicing for their tests and will do theirs later.

The boys and girls are purchasing a basket ball this week and expect to have playing by next week. Some of the folks at the community help buy the ball and the children wish to thank them all.

Penrose P. T. A. is expected to hold the regular meeting on Tuesday night Nov. 21. Supt. G. C. Bush has been invited to address the meeting. A short program by the school and community music makers will be given. Remember to be present at this good meeting.

## COLORED WOMAN OFFERS THANKS FOR ASSISTANCE

Ella Bailey, respected colored woman of West Brevard, asks that her white friends be thanked through The Times for their kindness and assistance in getting necessary articles for her crippled child who was taken to the Shriners' Hospital at Greenville Monday for an operation. Ella's child, seven years old, has never been able to walk, due to deformity from infantile paralysis, and after years of hoping the mother was made happy by the great hospital in Greenville when word was sent her to bring the child for an operation and the assurance that it would in a few months be able to walk. However, several articles of clothing were needed for the child, and need for braces and special shoes was also mentioned in the letter of instruction, which the mother was financially unable to provide. It is for provision of these things that the mother wishes to thank her white friends.

## INTEREST SHOWN IN FRENCH BROAD PLAN

(Continued From Page One)

The original proposal of a 125 foot dam on the French Broad would not be considered, due to the fact that a 65-foot draw down would leave great areas exposed as mud flats. It was his opinion that the dam if it is constructed will be at least 200 feet in height, the greater body of water only being drawn down a few feet at any time thereby making the lake more permanent. However, if this 200-foot dam is constructed, the court house at Brevard will be near the water's edge, practically the whole town being wiped out, and water at Rosman completely covering the main section of the town. This last opinion Mr. Burchard explained, in his own, based on knowledge of requirements and facilities afforded.

Walter B. Smith said to be an engineer of some standing in the Henderson section, and now employed by the government in the Mills River CCC camp, really "exploded" when he was called upon to speak, and declared the terrible living conditions that now exist in the French Broad valley with farms being sold out, people being unable to make a living, taxes unpaid, and urged the people to make effort to have the great dam constructed, declaring that the government would pay amply for the land confiscated. He purported to know a great lot about what is in the minds of authorities for this section, but failed to give any information worthwhile in his "explosion."

The discussion then went pro and con, whys for building and wherefores for not building the dam being bantered about by several people. Wm. E. Breese and S. P. Verner of Brevard, urged that the matter be gone into thoroughly and information of an official nature be obtained before any action was taken either way. It was opinion of the Brevard men that if there were advantages offered in building the dam then a concerted and intelligent endeavor should be made to have it built, but on the other hand, if it would be detrimental to the people as a whole, other means should be devised and pointed out to the TVA for procuring the needed reservoir supply.

Another meeting is expected to be held within a few weeks, at which time information will be given by the committee authorized at the meeting.

# 2 about Cigarettes

There are 6 types of home-grown tobaccos that are best for cigarettes

- BRIGHT TOBACCOS**  
U. S. Types 11, 12, 13, 14.
  - BURLEY TOBACCO**  
U. S. Type 31.
  - SOUTHERN MARYLAND TOBACCO**  
U. S. Type 32.
- U. S. Type 11 is produced in the Piedmont Belt of Virginia and part of North Carolina.
- U. S. Type 12 is produced in eastern North Carolina.
- U. S. Type 13 grows in South Carolina.
- U. S. Type 14 is produced mostly in southern Georgia—a few million pounds in northern Florida and Alabama.
- U. S. Type 31 includes what is called White Burley tobacco. It was first produced by George Webb in 1864. It is light in color and body, and is milder than the Burley used for pipes.
- U. S. Type 32, Maryland tobacco, is noted for its "burn". In this respect Maryland excels most other tobaccos.
- These are the kinds of home-grown tobaccos used for making Chesterfield Cigarettes.
- Then Chesterfield adds aromatic Turkish tobacco to give just the right seasoning or spice.
- Chesterfield ages these tobaccos for 30 months — 2½ years — to make sure that they are milder and taste better.*
