

ALBERT BROWN DIES FROM SUICIDE DRINK

Albert M. Brown 22, died by his own hand at the home of his brother, Norman Brown east of Brevard last Friday morning, death being due to a dose of carbolic acid and whiskey, according to the coroner's jury which was summoned by Sheriff Tom Wood immediately after the death was reported to him.

According to evidence given at the coroner's hearing young Brown had on several prior occasions threatened to take his own life, and had attempted to do so, a long scar on his throat attesting mutely to this fact.

Witnesses said that Brown had procured an ounce of carbolic acid on Thursday afternoon before his death, and had poured it into a small amount of whiskey, possibly half an ounce and it was this mixture that he is believed to have taken as he sat before an open fireplace in the Norman Brown home Friday

morning. He is said to have first offered Charlie Holt a drink of the concoction, Holt refusing. "Don't you believe I'll drink it?" he asked Holt, who replied "I guess you will."

The young man is said to have then turned the bottle to his lips and practically drained it, screwed the cap back on the bottle, walked into the yard and threw the bottle out into a field.

Walking into the kitchen he told Mrs. Velma Brown that "I've taken poison" and showed her his mouth which was burned white from effects of the acid. He died in about 40 minutes witnesses said, before medical aid could be secured.

His father, J. A. Brown and his stepmother, together with several brothers and sisters survive. Burial was made in Oak Grove cemetery at North Brevard.

Grady C. Kilpatrick, coroner, had the following men as jurors on the case: Wood, Paxton, Frank King, Herman Jordan, Alvin Owen, Span Tinsley, Nathan Norton.

AAA WANTS TO HELP BEAUTIFY HIGHWAYS

R. W. Koch of the Carolina Motor Club, was in Brevard Tuesday in interest of a highway beautification program for this county, and expects to be back here within a few days to take the matter up with the Women's Civic club or other organizations.

Mr. Koch said that the Carolina Motor club is furnishing experts in this line of work without any cost whatever to the counties who wish to go into the work, and are helping in the organization and actual work being done and to be done.

While here the AAA man commented upon the fact that this county is the only one in Western North Carolina that has its school buses painted the regulation state color and said this ought to cut down on any accidents that might happen to children by motorists. He called attention to the fact that the state law requires all automobiles to stop not less than fifty feet from any school bus which is loading or unloading passengers.

The boy patrol, to be instituted with the Boy Scouts and public officials of the town and county has been postponed on account of the measles quarantine, but will be taken up within a short time, Mr. Koch said.

MISS WHITMIRE SAYS ROAD NEEDS WORK

(Continued from page one)

ness she has to walk one mile through mud to the highway. If that isn't a shame to the county let me know. So, Mrs. Gravely, we people are just as sore about our road as you East Fork folks can ever be. The above mentioned incidents are only a few of such happenings. A girl living on this road had to give up her position as music teacher in Rosman High school because she could not drive over the road and was not making enough to pay board. Then a few years ago a man who lived on this road died and the neighbors had to work on the road all day in order to get his body out for burial. Yet it is a disgrace to tell all this on the country but it is a worse disgrace that it has and is actually happening in the county.

Mrs. Gravely is right—this is election year and before long the candidates will be coming around with a grin a yard long, wide and an inch thick on their faces telling the same old tale we've heard for five years. "If you will just vote for me I'll see that your road is fixed." We, like fools, have bit, but we are far from Missouri now. There will have to be some real road fixing first.

Now we would like to ask the road officials a question or two: Why has this particular road of about two miles not been fixed? When to my certain knowledge two residents of this road have offered to give plenty of sand and rock to gravel the full two miles, and other roads of no more importance have been graveled and the rock hauled for miles.

Well, Mrs. Gravely, if we can keep our faith a while longer God will give us the only road help we ever get—through the March winds and the hot summer sun. (Amen).

Jessie Elizabeth Whitmire
Brevard R-3.

CASH PRIZES TO BE GIVEN TO STUDENTS

Cash prizes will be awarded to high school and elementary school pupils by the Transylvania Dahlia club for merit in a poster contest that is to be conducted in all schools of the county.

First prize in the high school pupil contest will be \$1.00 cash, while the second prize will be fifty cents cash. Same prizes will be awarded in the elementary school contest.

All posters are to be done by hand lettering, minimum size to be 11x14 inches. The posters are to be left at the office of the Transylvania Times and will become the property of the Dahlia club. Working to be placed on the posters is: Dahlia Show, Brevard, August 18—arranged in such style as the contestant wishes. Names are to be written on a slip of paper, inserted in an envelope and pasted on the back of the poster submitted. After judging, names will be read, and prizes awarded at closing day of school.

It is expected that several entries will be made from every school in the county.

EMPLOYMENT HELP OFFERED BY OFFICE

According to instructions received here by Dewey Gravely, manager of the re-employment office, any ex-soldier of the state of Pennsylvania now residing in this county is entitled to a pension of ten dollars per month. Veterans of the World War, the Spanish-American war, Boxer Uprising or the Philippine Insurrection come under this rule and should communicate with the local re-employment office.

Mr. Gravely handed the following to this paper for publication:

The Re-employment service being a free service financed by the government for the benefit of the unemployed and to aid the Recovery Program in placing unemployment. This office would be glad to aid any employer in finding workers, skilled or unskilled, when they find it necessary to hire more help. Our service has some of the best skilled workers as well as unskilled, registered at our office and we feel sure that we can furnish efficient help.

The next time you have a job for some good Transylvania worker see the manager of the local employment service. It's Free—use it!

FLOWER SHOW WILL BE HELD JULY 27TH

(Continued From Page One)

sonal experience in flower culture. She brought out the facts concerning acid soil beds and alkali beds, and the kinds of flowers best adapted to growth in each variety of soil.

For the benefit of those interested in flower culture who were not able to attend the meeting and hear Miss Boswell's discussion, an outline of her talk is given below:

ACID SOIL BEDS—Preparation sand, oak leaves, pine needles, ample drainage. Preservation, acid leaves, acid water. Exposure, west and north. Flowers needing acid soil—Azaleas, rhododendrons, anemones, astilbe, columbine, dicentra (bleeding heart), digitalis, ferns, hibiscus, iris (beardless variety). Many varieties of hybrid lilies succeed best in acid soils, thriving in rhododendron plantings.

ALKALI SOIL BEDS—Preparation, wood ashes, lime. Flowers suitable to alkali soil—Asters, daisies, chrysanthemum, phlox, delphinium, iris Germanica, annuals in variety. Garden planting, deep cultivation: dahlias, gladiolus, roses.

SCHOOLS EXPECTED TO START UP NEXT WEEK

While it is not known definitely it is expected that schools of the county will resume their work on Thursday of next week after being closed for two weeks on account of measles.

Professor G. C. Bush stated Wednesday that no definite statement could be made at this time, but that a check up would in all probability be made the first of next week by the county board of health and school officials.

DOES NOT LIKE CWA HANDLING IN COUNTY

(Continued from page one)

job with the CWA and what about these fellows that gave up their business to get in as bosses etc. on the CWA projects that were intended for the needy and unemployed.

Who is to blame for it? Another thing I hear a lot of kick about is employing the same bosses and supervisors in the CWA project as were employed in the community cannery here, which was opened early last summer. Now these are fine folks and have done splendid work and their intentions are good. Yet in the meantime there are lots of others that are competent and need food and clothing. Why couldn't it be divided up? What's wrong? What's it all about? Do we not know the meaning of the CWA? Is it to be used for the benefit of the needy and unemployed, or a few to make money? Or, is it supposed to be used politically? I think it would have been a good idea if some one had gone to a training school and found out.

There's no use to try to undo the wrongs that have been done. But I hope the people of our town and county will open their eyes and never allow the hand of injustice to wave over our heads again, but will find out who is to blame.

Mrs. J. L. Sultz,
Brevard, N. C.

March 6, 1934

Air crops reserve officers and special reserve officers having army air ratings and flying on an inactive status are credited with three hours for each hour spent piloting an army plane.

American automobiles equipped with radios are taxed \$2 when entering Canada. The tax is not imposed generally on cars entering Canada for short tours or week-end trips.

JOE CLAYTON MADE COMPANY MANAGER

Joe Clayton, who has been connected with the Equitable Life Insurance company at Clarkburg, W. Va., for the past several years, has recently been promoted to the position of manager of this company. His new headquarters will be in Western, W. Va.

This honor conferred upon Mr. Clayton is especially notable, not only for his merit in the promotion but also because of the fact that he is said to be the youngest manager in the state connected with this company.

Mr. and Mrs. Clayton moved last week to their new location where Mr. Clayton has assumed his new duties. Mr. Clayton is the oldest son of Mrs. J. E. and the late Mr. Clayton.

Indians of both eastern America and the South west cultivated the sunflower for its seeds, which were ground into meal.
