FINE LETTUCE GROWN BY JIM HAYES HERE

Jim Hayes, one time railroad man, but now a truck farmer, brought a fine bunch of Iceberg lettuce to The Times office last Saturday, the first head lettuce to be reported to this office. The luscious cluster was 12 or 15 inches across and was "just as good" or better than that brought in from warmer climes.

Mr. Hayes said the plants came up late last fall from a stalk that had been allowed to go to seed, and that he transplanted them on the south side of a building where they have grown throughout the past several months. He is planning to try a large plot next winter.

It was with regret we learned of the death of Mrs. George W. Hall, which occurred last Tuesday in Humphrey, Arkansas. The deceased was a resident of this section before moving to Arkansas about six years ago. She was about 60 years of age, and had been in poor health for about a year.

About three weeks ago she grew worse and continued so until the end. As one who knew and loved her I can say that for "Mammy Hall" (as she was called) there was no task too great for her to do. She was always forgetful of self, ever ready to do all she could, not only for her family, but for all with whom she came in contact.

She was buried in Arkansas last Wednesday. Surviving are her husband, three daughters, Maggie of

Arkansas, Mrs. Myrtle Warren of Brevard, and Mrs. Y. J. McCrary of North Brevard, and three sons, Harven of Arkansas, Jess of Brevard and Clarence of New Mexico besides a host of friends here and on Little River near Cedar Mountain.

Quite a bit of work has been done on the lawn of the Baptist church. Some beautiful shrubbery and flowers have been put out and other improvements are being made.

Another Suspect in Lindbergh Case

BOSTON—Relentless search by the federal government of the Lindbergh kidnaping Thursday brought forth the request of U. S. Marshal John J. Murphy that Dr. John F. "Jafsie" Condon, intermediary in the case, come here to view a photograph of a man suspected to be the one who received the \$50,000 ransom money.

Murphy was secretive regarding the photograph and would divulge no information beyond the fact that he had asked the U. S. Marshal at New York to communicate his wish to Dr. Condon.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right dose of a liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels back to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child.
