The Times is carrying this week, and will very probably, from week to week until the general election in November, carry political advertising of some nature, either from individuals or groups. These political advertisements are carried strictly as paid-in-advance advertising matter and in no case have the sanction or approval of this newspaper other than such sanction or approval as is given to any paid matter carried in these columns. All such notices will be signed either by an individual known to this newspaper or by an organized group or organization, and the signature printed along with the advertisement.

**EUROPE: PLEASE REMIT**

The United States does not expect to act nasty with European nations about their war debts, but word is again going across the waters to the effect that the Hoover moratorium never was intended to be a step towards cancellation and that if France or any other nation continues to ignore its debt to the United States that the lines of private credit and financing will be tightened against that kind of delinquents. The result will be that securities of the foreign governments that ignore their obligations are most apt to find a chilly reception in the United States.

However, Great Britain, Czechoslovakia, Italy, Latvia and Lithuania are not in bad standing with the United States treasury, as those countries have made "token" payments and have furnished evidence of their intentions to pay their war debts. Doubtless they are putting up a "poor mouth" and quite likely they will succeed with the twentieth century scheme of "so much on the dollar."

Professor in Minneapolis advocates return of spanking in order to have a more decent young generation. O. K. by us—how about a red-white-blue whipping post on the court house square to take care of some of the older ones?

Large daily papers can't possibly have time to check into every advertisement that comes to their office for publication, but we fail to see how an advertisement like one carried in a very popular daily on last Sunday managed to get by an intelligent person . . . "information as to old age pension for a stamp." Again we remind our people to pay no attention to such advertisements or to any letter or circular that comes to their hands. There are several proponents of the old age pension movement in the United States Congress and Senate who will "keep on the job" and our own congressmen and senators will, if asked to, look after the interests of our people without either "a dime or stamp." Mr. H. P. Jewel of Brevard R-3 has a letter from Congressman Weaver, Senator Reynolds and Senator Bailey, and if there are those who wish any information on the matter either of the three above named gentlemen will give it without cost.

When ye editor was a kid such an expletive as "I'll be damned" was one sure way of getting a taste of the razor strop, paddle, or what have you. Parents did not use such language around children, and further, they kept their kids away from people who were known to be so inclined. Maybe the order is changing . . . anyway, we heard the expression three times at the "big tent show" in Rosman last Saturday night, and there were more youngsters present than adults. We would very politely suggest to the city fathers of the hustling little town of Rosman that hereafter they refuse to allow such things as shows of the type that was there last week in the town. The jokes (?) we heard at the session attended were of two classes—either stale as Noah's Ark or too suggestive of smuttiness to be told. Advertised as funmakers, the outfit appeared to be more of a pain in the neck, and from viewpoint of this newspaper, the community would have been a lot better off in many respects if the "big show" had spent its week in some other locality.

**X MARKS THE SPOT . . .**  
 Despite the warning that was issued several days ago by the board of county commissioners to the effect that anyone damaging shrubbery about the court house grounds would be punished by law, some thoughtless person has taken a knife and carved a deep X on one of the beautiful maples in front of the court house. Of course the act was done by a thoughtless person, someone who does not realize that the court house lawn will, if properly cared for and properly respected by people of the community, soon be one of the beauty spots of the county. Let's make our X's somewhere else.

"Poison Liquor in Bottles Kills Seven" says daily news headline. Poison liquor in fruit jars and batwings around Brevard makes lots of folk sick.

Mecklenburg county candidates in Charlotte had a wonderful (?) meeting one day last week and all were of the mind (apparently) that there would be no paid poll workers in the primary to be held June 2nd. Very laudable indeed. But came Saturday afternoon when the move was presupposed to be ratified. Nothing doing, according to the newspapers. Meeting was called, but no quorum was present of the executive committee to ratify the movement.

A good friend of this newspaper swore off drinking, joined the church and has been doing excellently until last Sunday when some lousy, degenerate, filthy, low-down, cheap, dastardly . . . bootlegger sold him some booze, and off the water-wagon he went. We know it was not compulsory that he buy the filthy stuff and drink it and we also know that he is old enough to know better, but the man had a weakness for drink, and the fellow who let him have the stuff (oh, yes, he lives in Brevard and sells liquor to boys, girls, or anybody else that has the price—they all do) knew that this particular man "couldn't take it" and get by, and we move that the low-down rascal who sold this man bootleg liquor be taken out, tarred and feathered and ridden out of town on a rail.

**LAKE TOXAWAY**

Mrs. Coleman Owen is visiting her sister, Mrs. Will Owen, in Hendersonville.

*more emphatically true today than it ever was*

**A SIX COSTS LESS TO RUN**

... and the **CHEVROLET OVERHEAD VALVE SIX**

is the most economical car in the world

**CHEVROLET** Engineering facts prove it. Experience in building nearly ten million cars confirms it. And the record of over 3,000,000 Chevrolet Six owners removes any shadow of doubt about it: **The only way to get real economy in a low-priced car is to insist on SIX cylinders and OVERHEAD valves.**

**SIX cylinders—no more!—because, extra cylinders mean extra cost for gas, oil, upkeep and parts. OVERHEAD valves—nothing else!—for the same good reason that airplanes use them. And speedboats. And racing cars. They get the MOST power out of the LEAST gas. That's why overhead valves are the choice of leaders—and champions.**

**CHEVROLET MOTOR CO., DETROIT, MICH.** Compare Chevrolet's low delivered prices and easy G.M.A.C. terms. A General Motors Value.

*Drive it only 5 miles and you'll never be satisfied with any other low priced car*
