Other talks and reports were made by members of the local society and by representatives of the various societies throughout the county. Special music was rendered by a group of young people.

Make Brevard A Friendly Town, Is Summer Work of Brevard Kiwanians

"Make Brevard a friendly town" is an outstanding need according to sentiment at the Brevard Kiwanis club meeting Wednesday, and a committee was appointed to act as a starter for persuading all business people and residents to work toward the view of making visitors to Brevard feel more welcome here this summer.

Tourist town facilities, magnificent scenery, great climate, fine water, picture show, golf course, swimming pool—all these things are fine in their place, it was pointed out, but the finishing touch, the real friendly spirit that ought to prevail in the community toward the visitor is very often missing.

Two visitors at the club frankly stated that they had noticed a shortage of "friendliness" in the community during the few days that they had been here, and joined in asserting that better recognition of both summer people and casual visitors to the town would be a decided asset.

J. Dale Stenz, Rev. J. H. West and C. M. Douglas were appointed as a committee from the club to confer

Labor will be furnished either by the FERA or by the forest workers camp that is now located at Lake Lure.

Entire expense of the work to be done in the county will be borne by the state and federal agencies, Mr. Beichler said, upon condition that outstanding obligation of the county amounting to \$352.23 is paid at once. The commissioners voted to pay this bill as soon as possible in order to benefit from the work offered by the forestry department.

BOARD VOTES AGAIN GROUPING SCHOOLS

New Teachers Will Be Required To Have Higher Class Certificates

The board of education in session here last Saturday went on record as being opposed to any further consolidation of schools in the county, according to Professor G. C. Bush, superintendent and secretary to the board.

Matters of consolidation were brought to the attention of the board by several people of the county, mainly citizens of the Turkey Creek community, this school having been closed several weeks prior to end of the spring term on account of small attendance said to have been result of measles in the action. The children were transported to another school.

Any new teachers in either Brevard or Rosman schools will be selected from among those holding M. S. or A. B. degrees or holding A grade certificates, the board ruled.

Application is being made by the county superintendent for the same number of teachers employed in the county last year, despite the fact that attendance was materially cut during the near-epidemic of measles. It is expected that teachers will be elected by June 15, Mr. Bush said.

Matter of home economics and vocational agriculture teachers was taken up and the board voted to continue the work in the county, changing the Brevard home economics teacher from the George Reed setup to that of the regular vocational work.

The Clemson Theatre announces that, beginning next week, the show will be operated six days per week, and for the coming week's offering four exceptionally good shows will be given.

Two pictures will be shown on Wednesday and Thursday of next week, with Clive Brook and Diana Maynard appearing in "Where Sinners Meet" and Jimmy Durante and Lupe Velez in "Strictly Dynamite" rounding out a performance that is a gloom chaser.

With comfortable seats, well arranged, and air conditioning that is on a par with the largest theatres, the Clemson is a decided asset to the community.
