TELL FOLK ABOUT CONNESTEE FALLS

From all sections come howls about the mercenary spirit that has taken hold of Blowing Rock...

WATCH OUT FOR OLD GOLD BUYERS Just because a sleek, suave, "government license" man calls on people...

TIMELY ADVICE FROM HAYWOOD Without comment, we pass on an editorial, taken from The Waynesville Mountaineer...

BLACKBERRIES VS. CHARITY The thrifty, hustling people of this community are not hanging around the relief office pouring out tales of woe...

Those that refuse to do a little work for themselves, if we were handling the relief, would be faced with the problem of digging for themselves or doing without.

A good friend of this newspaper "hopped all over" the editor tother day because we insist that people use Jordan street between Caldwell and Broad as an artery for east-going traffic only.

Montana Makes Ready Helena, Mont. — Montanans are dusting off the old "Welcome" mat and preparing to give President Franklin D. Roosevelt a warm reception.

MacFADDEN'S IDEA ON DEBT COLLECTION IS WORTH LOOKING INTO Bernarr MacFadden, physical culturist, believer in strength of the body to overcome obstacles...

This country reminds the writer of a huge fat man with a world of hidden vitality—mighty strength stowed away within his big body.

We want to collect our foreign debts, and our attitude is, "Please, Mr. Foreigner, will you not give us some money on the debt you owe us?"

We have the colossal force, the means to collect these debts, right at hand. All we need is the intelligence and the determination to act with precision and courage.

We have the money to build an air and naval fleet that could destroy the combined fleets of the world.

It is silly beyond all description. We have the power. Why not use it effectively? Why waddle around into foreign complications when we could strip for action with a colossal armament that would make every warlike nation return to peaceful pursuits?

Why destroy the spirit of workers with charity when profitable employment necessary to defend the nation can be furnished them?

Suppose we were to equip an aerial navy of one hundred airplane carriers with ten thousand planes; and suppose we were to adopt Mussolini's plan, who sent his flying boats to visit us, and we should send ten of these airplane carriers with a thousand planes on a round-the-world cruise, visiting every important nation.

Do you think we would have any trouble collecting our debts from such a country after making such a demonstration?

At the request of J. R. Alexander of Brevard R-2 we ask the question—what happened about the county-wide regulation set up by the county board of health in regard to keeping dogs up during the months of July and August.
