

## COLLEGE MEETING IS SET FOR SEPT. 1ST

Great Enrollment Is Already Assured—Buildings Are Practically Ready

All members of the Brevard College faculty will be here Saturday morning of this week when an executive session will be held at the college.

Following the meeting, teachers and officials of the school will begin going over the course of study to be used during the year by the more than three hundred students.

President E. J. Coltrane announced Monday that his biggest worry right now is providing places for pupils who wish to enter Brevard College, majority of whom want to stay in the college dormitories, which is now practically impossible, as there are already more than two hundred fifty pupils registered for the dormitories.

Work is practically complete on the old dormitory building that is being reconditioned by people of the community and friends of the college. Work is also being done on other buildings and grounds by a crew of college boys supervised by teachers.

## JOHN ROCK CAMP IS BEST IN 4TH AREA

Officers and Men Working Toward Goal of Best Unit Entire Corps Area

Camp John Rock, C. C. C. camp N. C. F-1, recently selected as the outstanding camp of district B, was visited Monday by 4th corps area inspectors who are selecting the outstanding camp of the corps area.

The board of inspectors headed by Major S. A. Sandlin, of Major General George V. T. Mcsey's staff, complimented the camp and surrounding territory very highly. Buildings, mess, mess records, camp exchange, personnel and organization records were closely examined.

Recently, Brig. Gen. Robert Van Thoen, commanding general of district B, and Col. Cary J. Crockett, executive officer, selected Camp John Rock as the most outstanding camp of the district which comprises an area covering three states, and includes 29 camps.

Camp John Rock is commanded by Capt. Glen D. Grimke of Charleston, S. C. Capt. Grimke took command in March and two weeks later 2nd Lieut. Thomas E. Anthony of Macon, Ga., was ordered to duty with the camp; Lieut. C. B. Drennon of Covington, Ky., then on duty, has since been relieved. Recently First Lieut. Jas. T. Ellis of Greenville was ordered here for duty.

W. A. Wynn of Washington, D. C., is project superintendent at John Rock, having succeeded William Garrett, of Asheville. Other forestry officials of the camp include John Verner, Edward Cantrell, Lem Daniels and Claude Reid of Brevard; James Whitehouse and Robert Cansler of Waynesville; Mr. Smith and Mr. Garren of Mills River.

Captain Grimke, together with forestry officials and camp personnel officers began five months ago a program destined to make the camp one of the outstanding units in the corps area. Nestled at the foot of Looking Glass and John Rock, two of the most beautiful mountains in Pisgah Forest, the camp grounds were landscaped and flower beds laid out. Rock lined walks were built throughout the camp grounds and all buildings repaired. Cooperation of the camp enrollees in keeping the camp clean and sanitary was easily obtained once the program was begun, and many extra hours of work have been put in by officers, men and forestry foremen in attaining the goal that brought the recognition of first place in the 29-camp area.

Points used by inspectors in naming John Rock outstanding unit were administration and supply of the camp, general cleanliness and sanitation, beauty of setting, work projects, and number of men employed daily by the forestry.

## FINE PEACHES GROWN BY MRS. M. GLAZENER

Mrs. M. E. Glazener brought two nice peaches to The Times office Saturday afternoon that she picked from a tree in her back yard that were as delicious as some that cost \$2.00 per bushel at an Asheville fruit store on the same day, and just as nice in appearance.

The larger of the two peaches, both of which were perfectly formed and beautifully colored, measured nine and one-half by ten inches. The tree from which the peaches were taken grew up voluntarily from seed that had been thrown out several years ago.

## JAIL BUSINESS FINE OVER THE WEEK-END

Brevard's summer tourist business had nothing on the Transylvania county jailer Sunday when no less than 10 men and young men were placed in the county bastille.

Some of the men were just plain drunk, some drunk and disorderly, some intoxicated, others were either sozzled, stewed, high, blind, pickled, half-seas over, washed, full, out, crooked, coked, blotto, stinko, stinking, fried, boiled, stymied, three sheets to the wind, screeched, added, tanked, squiffy, squified, plastered, boozed, stiffer, souped, canood, out like a light, spiffed, comatose, dead, orey-eyed, bleary-eyed, fozzled, under the table, ginned or spifficated.

Which in effect, officers say, amount to practically the same thing, and is result of too much "sugar corn" and other like mixtures and concoctions.

At one place where Sheriff Wood made a call Sunday afternoon he followed some tracks from the house out into a nearby cornfield and after inspection found a gallon jug of whiskey. Wife of the farm owner said that this jug was her husband's before breakfast drink container. Looking further the sheriff found another jug in a potato patch which he said he presumed was for the before lunch drink; looking further he found some copper and other "appurtenances thereunto belonging" which he calculates the man was going to use in preparation of his evening drink.

Hunters Say Squirrels Will All Be Gone Before Law Allows Any Shooting

Dove season opens September first, closing one month later and again opening in November.

County Game Warden E. R. Galloway, of Rosman, has announced that anyone desiring to buy a state-wide combined hunting and fishing license may do so by applying to him or either the following: Clerk of Court Otto Alexander, Osborne Bradley, Farmer Supply, Brevard; D. H. Winchester, Rosman; L. E. Cash, Oakland; Mrs. Robinson, Cedar Mountain. Cost is \$3.

Mr. Galloway said that he had written to the state game commission in an endeavor to have the squirrel season moved up, but that Commissioner J. D. Chalk had replied stating that the law was passed by the 1933 legislature and that it could not be changed until the next session in 1935.

Transylvania county's mountain ballads and hoeslingers may give way to "Git Along Little Doggie" and hard riding cowboys as cattle from the drought-stricken western area continue to pour into this section.

Mr. Wilson requests that all individuals who have feed and who will have feed for sale this fall to communicate with him immediately, giving information as to kind of feed, location, price, and date when it will be available. ## OFFICIAL SIGNS ARE RECEIVED BY BANK

The Transylvania Trust company Wednesday received from the Federal Deposit Insurance Corporation at Washington the official signs which will hang at all receiving windows as visible evidence that the depositors of this institution are insured.

The Transylvania Trust company is one of more than 14,000 licensed banks in the country which are receiving these signs. Insured banks are able to offer protection to their depositors up to \$5,000. Statistical studies have shown that this maximum fully protects more than 97 per cent of all the depositors in insured banks.

A statement by the Federal Deposit Insurance Corporation follows:

"The purpose of the signs is to let depositors know which banks are insured. Heretofore, although 90 per cent of the licensed banks are insured, depositors have had no easy means of identifying them.

"If, by any unforeseen circumstance an insured bank should suspend, the Insurance Corporation would begin paying off the depositors just as soon as a receiver was appointed for the closed institution. The depositors would receive their money in a few days instead of waiting months or years as was the case in the former method of liquidation. This is not only a benefit to the depositors, but it saves the community from a terrific economic and social blow. When the depositors receive their insured accounts they assign their claims to the Insurance Corporation. Thereafter liquidation proceeds on a business-like basis with the maximum chance of the Corporation and other creditors being paid in full."
