Parkway Delegation Returns Feeling That Chances For N. C. Route Good

Transylvania county's delegation to the national parkway hearing before Secretary Ickes in Washington on Tuesday returned home Wednesday morning feeling that the trip was a success and that the part Transylvanians played in the hearing was worthwhile.

Members of the Transylvania party as well as many others of the group of nearly four hundred from Western North Carolina believe that this section has a 50-50, or better, chance to secure the routing of the Southern Appalachian Parkway from Blowing Rock south to the Great Smoky Mountains National Park.

It was generally conceded that North Carolina's earnest presentation of facts and figures supporting the claim for the routing of the Southern end of the parkway through the Mount Mitchell and Craggy section after leaving Blowing Rock instead of swinging over into Tennessee, made a distinct impression on both Secretary Ickes and the spectators who had gathered for the hearing.

North Carolina's and Tennessee's claims were both presented to Secretary Ickes Monday afternoon in a series of arguments by representatives of the two states. The hearing was held in the auditorium of the Interior building with R. G. Brown, Jr., location engineer of the state highway commission and an expert on every phase of the parkway dis-
