INJURED IN AUTO WRECK

ROSMAN, Oct. 24—Quite a serious accident on the Pickens highway occurred about two miles from Rosman Sunday afternoon when a model-A Ford roadster failed to make a curve near the home of H. E. Guyer, J. C. Grant of near Pickens suffered a fractured skull and other injuries. He was removed to Six Mile hospital. The other two occupants were only slightly injured.

"Hey, Ma!

WHERE'S THE BULB FOR THIS SOCKET?"

EMPTY sockets any place in the house cause inconvenience. Empty sockets in the cellar, attic or on stairways may cause danger. Empty sockets anywhere often result in eye strain.

There's only one thing to do about it. Fill up the empty sockets with good, dependable lamps of the correct size. Then you will be sure of plenty of light when and where you want it.

To get lamps that will give you good light at low cost, look for the name or mark of a reputable manufacturer on the end of each lamp.

Our annual Special Offer on Mazda Lamps is now on. If our representative has not called upon you telephone No. 116 and we will gladly deliver your lamps.

Vast Power in Air

Electrical energy sufficient to provide 100,000,000 horse power for every person on earth is said by scientists to exist between the atmosphere and stratosphere. The world is like a dynamo, with its negative electrical field in the earth and earth's atmosphere, and its positive field in the high thin part of the stratosphere.

Handicap to Mt. Everest Ascent
The conquering of Mt. Everest is hindered because the peak, called in Tibetan Chomo-lung-ma, Goddess Mother of the World, is an object of sacred worship. The Rongbuk valley that leads to the glaciers of the mountain is reserved as the retreat of the Holy Hermits alone. The area is one of complete seclusion from the outer world.
