

FOOTBALL GAME TO BE PLAYED FRIDAY

Brevard College Meets Boiling Springs Here At Three-Thirty

Ralph James' squad is working hard in anticipation of a game here Friday afternoon at 3:30 with Boiling Springs.

A shifted lineup will probably start Friday's fracas, with Prentice out of the backfield from a two week's illness and Harris out of the line with a bum knee.

Probable starting lineup will be: Garren, left end; Harmon, left tackle; Campbell, left guard; Proffitt, center; Frady, right guard; A. Kilpatrick, right tackle; Gaston, right end; Griffin, quarterback; E. Clayton and Echerd halfbacks; W. Clayton, fullback.

Other boys who will probably see action in the Friday game are Shuford, Wisenhunt and Lowe in the backfield, and H. Kilpatrick, Wagonick, Neill, Grey and Brooks in the line.

Frady, a new linesman who has fought his way up from the third string during the past few weeks, while only tipping the scales at 140, is going great and "getting his man out" on every play. Echerd, light but fast backfield man, is showing up fine as a blocking back and side-stepping sprinter. The entire team is taking on a more late-season appearance.

The Brevard band will play before and during the game, while other efforts are being made to make Friday's game one of the best this season from point of attendance. Many of the business houses of Brevard will close their doors from 3:30 to 5:30.

Dry Leader Says Tuesday's Election Important To Those Opposing Liquor

Editor of Transylvania Times: The most important thing to consider about a candidate in the election five days from today is not his politics but his character; not his party but his principle. There has probably never been a more important election in North Carolina than the one we are facing right now.

It seems from reports that there will be an effort made in the next general assembly to put North Carolina's stamp of approval on the manufacture and sale of beverage alcohol, and that too, in the face of the well known fact that the results of the repeal of the eighteenth amendment have been directly opposite to that which the advocates of repeal promised us.

It has not helped the temperance cause or created temperance in youth; it has not brought in the revenue; it has not stopped or even diminished bootlegging activities; it has not lessened the percentage of crime.

Some who favored repeal are honest enough to confess these facts, and express their disappointment.
