

**GLANCING
BACK AT
BREVARD**

(From the file of July 15, 1898)

A beautiful catalogue of the State Normal and Industrial college at Greensboro has found its way to our table. This institution seems to be in a thoroughly prosperous condition with 625 students receiving instruction during the past year. Among Brevard students we notice Misses Chester and Lizzie B. Bell.

A little child of Silas McCrary of Cedar Mountain had its arm broken by a fall last Saturday. The new telephone line demonstrated its usefulness on this occasion, as a message to Dr. King saved the little fellow some hours of suffering.

Mrs. Reuben Ballard, who has been quite seriously ill at her home near Rocky Hill, is reported much improved. Dr. M. M. King is in attendance.

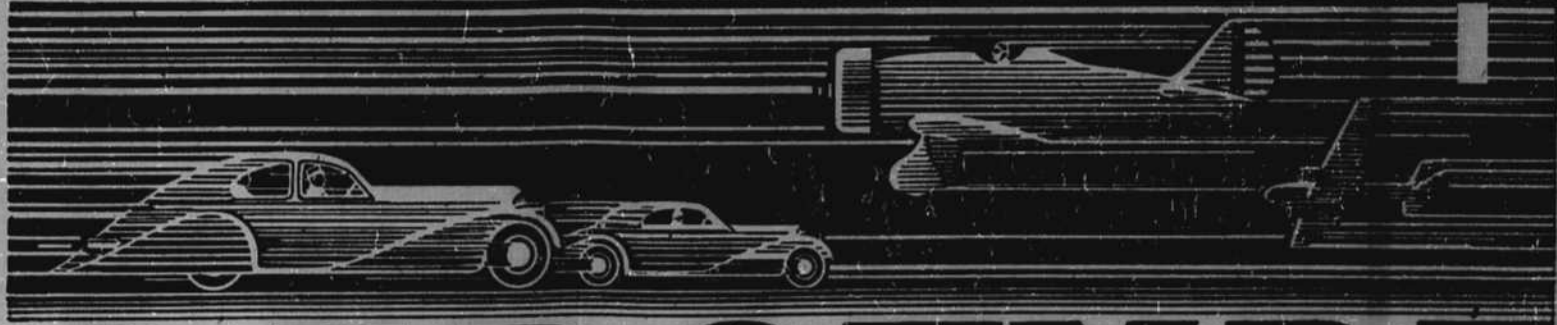

Last week everybody was certain the crops would all be burned up and destroyed by drouth; this week they are equally certain that everything will be drowned out and destroyed. The fact is Transylvania county has never had a famine caused by a crop failure and those who borrow trouble on this account will have it to pay back without interest. A disposition to find fault with the weather seems to be inherent in some people.

Mrs. Knowles and Miss Gertrude Knowles of Atlanta, who lost their lives on the ill-fated French steamship Bourgone, were the wife and daughter of a brother of W. H. Knowles of Tampa, Fla., who is stopping with his family at Lynhurst, the beautiful home of Hon. Thos. S. Wood. It would seem impossible that any irony of fate could connect Brevard, 400 miles from the sea and on top of a mountain, with this horrible disaster in any way.

A prominent wedding occurred last Thursday, July 8, 1898, when Miss Nettie Loftis and Charles B. Deaver were united in marriage by Rev. J. L. Wicker. A. T. Cooper acted as best man and Miss Nina Deaver as maid of honor. The day will long be remembered by many of our citizens for various reasons, the main one being that it rained and the waters of Nicholson creek spread over the bottom lands, forming a barrier which separated the waiting guests and impatient bride from the principal actor in the drama—the groom. The time set for the wedding was 8 p. m. but the creek became impassable and it was 9:30 before the presence of the groom relieved the anxiety of the bride and invited guests. But "All's well that ends well," and the delayed ceremony was happily consummated in due time. Mr. Deaver is the storekeeper and gauger at Cooper's Laurel Valley distillery. He is the son of W. M. Deaver, Esq., of Asheville, and he has made many friends during his sojourn among us. Miss Loftis has been reared among our people, and for a year or more has been an ornament to Brevard society. Among the invited guests at the wedding the following were present to take part in the enjoyment of the occasion: Major Wm. E. Breese and daughter Bessie; Robert, T. W. and Van Whitmire with their wives; Mrs. Dr. Horton, Mrs. W. P. Whitmire, Misses Mattie Floyd, Agnes and Alice Wood, Rena Moore, Hassie McCarrrell, Mamie Cooper, Judith and Aileen Whitmire; Messrs. John and Nat McMinn, Asa England, T. L. Walters, Gra Morris, J. E. Merrill, Jas. Trantham, John Walters, Ome Young, Walter Wood and Clyde Duckworth.

. . . .
The world's leading petroleum organization stands squarely behind that guarantee!

Give Aerotype ESSO a chance to prove—
. . . .
.. that it is the "fastest firing," quickest-starting motor car fuel you've ever used!
. . . .
.. that it attains peak performance efficiency in less time and with less "warm up"!
. . . .
.. that sub-zero weather does not haze it . . nor do sudden changes of temperature or altitude!
. . . .
.. that it has more power . . more "anti-knock" . . not even the slightest "ping" under the hardest pull!
. . . .
.. that its acceleration and get-away excel anything you've previously experienced!
. . . .
IN SHORT, that for luxury, comfort, and trouble-free operation Aerotype ESSO surpasses any other motor car fuel you've ever used!

Aerotype ESSO is sold with the understanding that it will **OUTPERFORM** any other representative motor car fuel on the market . . regardless of price!
. . . .
You alone are to judge and determine its merits . . your word is final!
. . . .
All we ask is that you test Aerotype ESSO and convince yourself of its ability . . that you base your opinion on facts, not claims!
