Items of interest gleaned during the past week

Soviet Charges Japan

Moscow—Charges indicating a virtual reign of terror on the Chinese Eastern railroad in Manchukuo have been made public here in the form of two letters of protest written to the road's Manchukuo president.

Plan Extended Airlines

Washington—A race between the United States and Japan for establishment of a network of regular airlines over the western Pacific has developed as the latest phase of the rivalry between these two countries for military and naval supremacy.

Japan's plans to organize a web of airlines attaching Japan proper to the most important of her mandated islands in the Pacific were matched with plans by American companies to extend regular air service from the Pacific coast to China and the Philippines. The two networks would cross somewhere in the vicinity of Guam.

Public Enemy No. One

Chicago—Diminutive Helen Gillis has become unofficially the nation's first woman public enemy.

Hundreds of federal agents, police, sheriffs and their deputies are scouring the highways and byways to ferret out the widow of Baby Face Nelson, killer of three federal agents, who fell mortally wounded by bullets from guns of two dying agents.

With her in the dash away from authorities was believed to be John Hamilton, last lieutenant of the crime-crazed Dillinger mob.

Public Enemy In Jail

Albany, N. Y.—Public enemy Dutch Schultz, unshaven and scowling, looked on silently Friday while the federal government strengthened its campaign to retire him to prison on an allegation he and his mob leaders neglected to pay a tax on an income of a million dollars.

Expect Quick Action

Administration officials have sent the word to congressional leaders that quick action is desired on forthcoming NRA legislation in order to assure business about its future under the Blue Eagle.

carded pines of the naval stores industry in Southeast Georgia alone to supply two-thirds of the annual needs for paper of the newspapers of the United States.

The report is made by the Southern Forest Survey staff, under charge of I. F. Eldredge, regional director of the Southern Forest Experiment Station at New Orleans. It covers the supply of pulpwood in 35 counties of Georgia.

Chaco War Continues

Buenos Aires—Paraguay, confident that the political upheaval at La Paz has demoralized Bolivian troops, pushed her advance up the Pilcomayo river in what observers here believed might be the decisive campaign of the Chaco war.

A Paraguayan claim that her troops had noted slackening in the Bolivian morale was accompanied by reports from the front asserting that numerous Bolivians had been taken prisoners as the drive towards Fort Cururenda and Fort Dorbigny continues.

Says Jobless Increasing

Washington—On the eve of a significant administration decision as to its future relief policy, the American Federation of Labor has reported that a half million more men and women were unemployed than in October a year ago.

William Green, president of the federation, interpreted this to mean that the relief program over the coming winter was "the most serious this nation has ever faced."

"We are entering the winter of 1934," he said, "with 550,000 more out of work than we had at this time a year ago."

Royal Wedding

London—In the grandest, most gorgeous show London has seen in many years, beautiful Princess Marina of Greece Thursday became the bride of the Duke of Kent, King George's handsome youngest son.

A half million persons that packed this said old city to the chimneys roared cheer after cheer as the young couple, parading in glittering processions from Buckingham Palace to Westminster Abbey and back, plighted their troth in two separate ceremonies.

Shipbuilding Race Looms

Washington—In unvarnished words the congressional leader on naval legislation warned last week that if existing treaties are scrapped, he will insist, in any ensuing naval race, upon American construction of "five ships for each three laid down by Japan."

The Japanese already have given notice unofficially that they intend to withdraw from the Washington treaty because the United States and Great Britain will not set aside the existing 5-5-3 ratio and grant Japan actual equality on the seas.

Hurricane Returns

Manila—Another swath of devastation was cut through the east central Philippines tonight by a typhoon described as one of the worst in the history of that area.

Plan Housing Program

Warm Springs, Ga.—The government stands committed to a policy of providing adequate housing for the millions of citizens whose low incomes prevent them from obtaining private credit, it has been revealed by President Roosevelt.

The administration, it was explained, recognizes its obligations to better the standards of living of this enormous group, and sees in such a move a definite "lift" to heavy industry and to consuming power.

Baby Face Nelson Killed

Chicago—The naked, bullet-riddled body of George (Baby Face) Nelson was found late Thursday in a ditch, a tribute to the unerring accuracy of the two federal agents who gave their lives to bring down the desperado.

His blanket-draped form was abandoned by his wife and a man believed by government men to be Alvin Karpis, St. Paul gangster wanted for the kidnaping of Edward G. Bremer, after a battle between the outlaw and department of justice men.

Favor Job Insurance

New York—A group of leading industrialists is mustering forces to align with administration officials during the coming session of congress in shaping an unemployment insurance program, it has been learned from authoritative sources.

Dillinger Slayer Killed

Chicago—A federal agent who assertedly killed John Dillinger was slain Tuesday of last week.

Herman E. Hollis, about 30, fell dead under a blast of machine gun bullets fired by George (Baby Face) Nelson as federal agents sought to close in on the Dillinger desperado and public enemy No. 1 near suburban Barrington.

Critically wounded was Samuel P. Cowley, 35, chief assistant to Melvin H. Purvis, of the division of investigation of the department of justice. Cowley later died.

WATCH YOUR KIDNEYS!

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering impurities from the blood stream. But kidneys get functionally disturbed—lag in their work—fail to remove the poisonous body wastes.

Then you may suffer nagging backache, attacks of dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains; feel "all worn out."

Don't delay! For the quicker you get rid of these poisons, the better your chances of good health.

Use Doan's Pills. Doan's are for the kidneys only. They tend to promote normal functioning of the kidneys; should help them pass off the irritating poisons. Doan's are recommended by users the country over. Get them from any druggist.
