

# FORESTRY FOR FARMS STUDIED

Farm forestry, like any field crop, concerns the farmer chiefly as a matter of dollars. Growing timber on lands not suitable for crops or pasture is now widely recognized as profitable by farmers in the southern states. Since timber and wood are required in the operation of the farm, the handling of the woodlot becomes a part of farm work.

According to the U. S. Forests Products laboratory, Madison, Wis., more than one-half the entire forest land in the southern states is owned by farmers. Slightly more than one-half of the timber cut on this land is sold in the shape of logs, and other cut products, and as standing timber, while the remainder is used on the farms. To make farming pay better by showing the way to the more profitable marketing of farm timber, is one of the principal objects of farm forestry.

The following suggestions by the Forest Products laboratory show how farm timber may be disposed of to the best advantage. High grade logs of white oak, yellow poplar, red gum, ash, cherry, black walnut, etc., can in most cases be sold direct to manufacturing plants in carload lots, at good prices, even though they be located at considerable distances away. Local wood-using plants usually buy in small quantities. Clear logs of white oak and yellow poplar 16 inches or more in diameter, should be sold to sawmills especially equipped for quartering and veneering woods. High prices at loading points make it wasteful to put such logs to ordinary farm use.

Some owners use timbers that should be sold, while others sell timber that should be used on the farm. In either case, money is apt to be lost. The main purpose of woodlands is to furnish firewood, posts, poles and rough timbers for the maintenance and improvement of the farm, while the better class of logs is sold.

Failure to properly use farm timber is one form of farm mismanagement. Millions of young pine, in old field stands, have been shaded out and have gone to waste, that would have made excellent fence posts and given 10 to 15 years of service if they had been properly treated with creosote. Choice white oak butts have been made into posts, when less than a mile away was a sawmill that would have paid good prices for logs of this quality for quarter-sawing.

# LOWER BLANTYRE

Miss Fred Maxwell gave a tacky party Friday night. Several guests were present and all reported a nice time. Miss Sarah Nesbitt and Claud Davis received the prize for being the tackiest.

Mrs. Rose Deaver and John Deaver visited Mrs. J. M. Knight Sunday afternoon.

Miss Virginia Justus spent Thursday night with friends in Brevard.

Mrs. Pearl Rickman spent several days last week in Brevard, where she is employed.

A. W. Davis and Lou Davis were dinner guests of J. N. Alexander in Boylston Sunday afternoon.

Mrs. J. M. Knight visited Mrs. J. S. Maxwell one day last week.

Mrs. A. E. Justus was a caller at the home of Mrs. A. W. Davis Thursday.

Mrs. J. S. Maxwell and Fred Maxwell and Irene Davis called on Mrs. Owens Sunday afternoon.

Leonard Nesbitt was supper guest of Claud Davis Sunday.

Mr. and Mrs. C. F. Baldwin left Sunday for Asheville, where they expect to spend a few months.

Claud Davis spent Thursday night with Howard Galloway on Turkey Creek.

Miss Mary Holden was guest Sunday of Miss Ernestine Rahm.

Mr. and Mrs. Bobo Hollingsworth were recent visitors of Mrs. J. E. Talley.

Small sized trees are being cut for ties, poles, posts and cordwood, that should have been left for mature growth. Much valuable timber has been used for railroad ties and gate-boards. In one case, a black walnut log scaling 360 board feet, commanding fancy prices for airplane material or furniture stock, was waiting at a local mill to be sawed into farm gate-boards. Yellow poplar, white oak, white ash, cherry, and black walnut, are being used for different purposes on farms where satisfactory cheaper woods could be used and a saving made by selling these better woods for the manufacture of furniture and other like purposes.

Often in thick stands of pine many fence posts could be cut from the smaller trees and thus by proper thinning give room for the remaining trees to develop into valuable timber. Frequently, large high stumps are left in cutting, which contain the choicest grade of lumber that would have greatly increased the farmer's profits, had the trees been cut nearer the ground. Stumps should not be higher than 6 to 8 inches above the ground.

Hogs, rooting and foraging in the woodlot, cause another money loss to the owner by feeding on the lower stems and roots of long-leaf pine and on the mast of hardwood trees, thus preventing seedlings from coming in. The grazing of cattle and horses in the timber has the same effect, only to a lesser degree. They also help break up the protecting leaf mulch which retards evaporation and thus helps to keep trees growing during long dry spells.

Lack of proper thinning and cutting is a common cause of the woodlot being unprofitable. Trees should have sufficient light and soil moisture if they are to thrive and be profitable. An acre of land will grow a certain amount of wood and by controlling the number of trees, it is possible to influence their rate of growth and size, and therefore their value. It is more profitable to have fewer large mature trees than a lot of smaller ones. The average farmer does not realize how promptly following proper cutting and thinning, the woodlot is increased in value. It is unprofitable to cut trees less than 12 to 14 inches in diameter for lumber.

Steep slopes, poor soil, rocky land, unused corners, worn out fields, are prospective places for growing timber profitably.

In 1924 Daniel Webster was re-elected to congress by a vote of 4,990 out of a total of 5,000 votes cast.

# YEAR PREDICTED

"Ford dealers throughout the country are optimistic over the prospects for the coming year, when the Ford Motor company is to produce one million cars and trucks," said W. C. Patterson, branch manager of the Ford Motor company, at Charlotte, yesterday. Mr. Patterson last week returned from a branch managers' meeting at Dearborn, Michigan, headquarters of the company.

"Four years have passed since the Ford Motor company had a production of one million units. However, Henry Ford said when asked about his 1935 production: 'Make it one million or better. Our experience during the past six months and what we see in the future tell us a year of improved business is ahead.'

"Not only Ford dealers," continued Mr. Patterson, "but men handling practically every other make of automobile are elated over Ford's reassuring statement. The general opinion is that if Ford will build one million cars in 1935 business will be good for other manufacturers and their dealers.

"Proving that Ford's announcement of a projected million-year for 1935 is more than an optimistic statement, Ford dealers throughout the country point to the fact that for several weeks commitments have been going out from Ford headquarters at Dearborn on a buying and production program that will entail a total expenditure of more than 415 million dollars. This vast amount is to be spent among 6,008 suppliers scattered throughout the United States."

Manchukuo plans to lend two million dollars to its farmers.

## NOTICE OF FORECLOSURE

Under and by virtue of the Power of Sale contained in that certain Deed in Trust from

Henry Alexander and his wife to the undersigned Trustee said Deed in trust bearing date of September 3rd, 1930, and which Deed in Trust is of Record in Book No. 23, page 139 of the Record of Deeds in Trust for Transylvania County, N. C., and the same securing certain indebtedness therein described, and default having been made in the payment of said indebtedness, whereby the Power of Sale therein contained has become operative and all notices required as to said default having been given and said default has not been made good, and the holder of the note evidencing said indebtedness having requested the said Trustee to foreclose said Deed in Trust;

Now therefore said Trustee, will, on Saturday, Jan. 12th, 1935, at 12 o'clock M., at the Court House Door in the Town of Brevard, N. C., offer for sale and sell to the highest bidder for cash the following described property, to wit:

All that tract of land adjoining the lands of W. H. Summey and others, and being the same lands fully described in the deed in trust aforesaid, reference being hereby made to said Deed in Trust and the Record thereof for a description of said lands by metes and bounds.

The proceeds of said sale to be applied upon said indebtedness, costs of sale, etc., as provided in said Deed in Trust.

This the 8th day of December, 1934.

D. L. ENGLISH, Trustee.  
Dec. 13-20, Jan 3-10.

## Notice of Re-Sale Of Land

Whereas the undersigned Trustee sold the lands herein advertised after due advertisement at the Court House door on Saturday, the 24th day of November, 1934, and duly made report of such sale to the Clerk of the Superior Court of Transylvania County on said date as by law provided;

Whereas, before the expiration of ten days the sale period or price of sale land was raised ten per cent and the Clerk of the Superior Court ordered and directed the undersigned Trustee to re-advertise said land for fifteen days and re-sell said land according to law;

Now, therefore, under and by virtue of power of sale contained in Deed of Trust, dated September 14th, 1929, executed by A. E. Hampton, and wife, Lina D. Hampton, which Deed of Trust is recorded in Book 24, at page 294, of records of mortgages and Deeds of Trust of Transylvania County, on Saturday, 29th day of December, 1934, at noon at the Court House door in Brevard, North Carolina, I will offer for sale and sell to the highest bidder for cash

the following described property:

Lying in Cathey's Creek Township, and being the lands owned by the late G. E. Duckworth, at the time of his death, the interest of the parties of the first part which interest herein advertised to be sold being one-half of an undivided one-sixteenth interest, purchased by A. E. Hampton and Frank Jenkins and the undivided one-sixteenth interest formerly owned by Span Duckworth.

Sale made to satisfy said debt, interest and cost and expenses of sale, surplus if any, to be paid to said A. E. Hampton and wife, Lina D. Hampton, or their assigns.

This the 11th day of December, 1934.

R. L. GASH, Trustee.  
Dec. 13-20.
