R. F. Tharp, who has had a decorated Christmas tree in front of his place on Broad street for the past several days, makes the request that the persons who stole the colored lights off his tree, come back and get the wiring and the tree, as the lights will not be effective without the wiring, and without both the wiring and lights, his tree will be of little value, so he invites the thief who stole his lights to come back and get the balance of the outfit.

Cement Blocks Placed At Street Crossings

Cement markers have been placed at the uptown street intersections in Brevard, calling attention to the fact that U-turns are in violation of the law.

The blocks, measuring about fifteen inches in height and weighing around two hundred pounds, are also mute reminders that motorists are to steer clear. Avery Case, who built the blocks for the town, asserts that one trial at knocking over the new blocks will convince a motorist that the attempt is futile, and very probably disastrous—to the motorist.

GOAL IN SIGHT FOR BREVARD SEAL SALE

The annual Tuberculosis Christmas Seal sale in Brevard and Transylvania county came to a close Friday, with the belief by officials of the P. T. A., sponsors of the sale, that the goal of \$100 was very nearly reached, if not exceeding that amount.

Reports from all the civic and church organizations assisting in the campaign have not yet been turned in, hence it is impossible at this early stage to determine the exact results of the sale. The P. T. A. president, Mrs. J. B. Pickelsimer, and officials of the organization have expressed gratification over the splendid response from the public in the sale.

The proceeds will be used mainly for promotion of the school lunch rooms in Brevard and the county, and also for fighting tuberculosis and other dread diseases among the indigent of the county.

FEW ATTEND MEET OF SCHOOL BOARD

Dark Outlook For Buildings In Brevard—Suggestions Are Asked For

Eight people were in attendance at a meeting called for last Saturday afternoon at the court house for discussion of ways and means for repair and rebuilding of the school buildings in Brevard.

Professor G. C. Bush presided over the meeting and stated that the board of education was in a quandary as to financing the work must be done, and reading the following letter, signed by several clubs of the town: The board of Education of Transylvania County, and Superintendent G. C. Bush, Gentlemen:

The undersigned officers of the local Parent Teachers Association, Citizens of Brevard and of Transylvania county and teachers in the local schools respectfully wish to suggest to you the desirability of using the occasion provided by the condemnation of certain portions of our elementary school buildings to effect a more complete and permanent transformation of these buildings into structures which would serve the purposes of our schools. The temporary repairs which we understand may be in contemplation.

The primary building is in urgent need of immediate attention. The upper story has been completely unsafe and the lower floor has been rendered practically unusable since the tearing off of the outer brick walls has made it impossible to heat it adequately.

The auditorium of the grammar grade building is of radically bad design, in place, and undesirable for public use. It has been a veritable fire-trap from the day of its completion, on the upper story, with long, narrow and turning steps, inadequate exits, and dangerous conditions. We need better designed and constructed of this type have led to the death of scores—in several cases of more than a hundred on one occasion—of children either cremated or trampled to death on the occasion of an alarm.

The auditorium ought to be on the ground floor, with ample exits, in the same manner as that of the Korman high school.

The increasing attendance which may result from the business improvement we believe to be imminent in this section as the result of several large public improvements now pending ought to be taken into consideration in the design of any building in the near future.

There are a number of ways of financing this project which we are sure your honorable body is aware of, and we shall be glad to appear before you or otherwise cooperate with you in securing the solution of this phase of the problem. At present we desire merely to record our earnest conviction that this matter should receive early and energetic action.

Very respectfully,
P. T. A.,
WEDNESDAY CLUB,
FORTNIGHTLY CLUB,
MATHATASIAN CLUB,
W. M. HENRY.

Several suggestions were made, and decision was made to bring a state architect here and find out just how much would be required to put the buildings in fit shape.

Over half the automobile owners in Transylvania county are still without 1935 tags, and this in face of the positive statement issued Thursday by L. S. Harris, director of the state motor vehicle bureau to the effect that auto owners will be subject to prosecution unless they have their 1935 tags on their vehicles by midnight, December 31.

Harris stated that applying for the tag does not mean that an automobile owner has complied with the law. They must have the plates on their cars by January 1. Every violation, the director said, will be prosecuted and fines of from \$10 to \$50 or jail sentences may be imposed.
