Spring Football Now In Swing at Brevard

Due to the shortness of the season and also to lack of playing equipment, Coach Ernest Tilson has decided that he will not try to have baseball at Brevard high school this season.

Instead of baseball, Coach Tilson is giving his boys a round of spring football and has a sizeable squad of leather toters out now for next year's squad.

Brevard fans were well pleased with Coach Tilson's eleven last fall, and have expressed themselves as highly in favor of the present plans of football instead of baseball.

Declines To Run

MAYOR J. C. WIKE

Mayor J. C. Wike has definitely decided that he will not be a candidate for re-election in the coming town of Brevard primary. The mayor stated Wednesday that business connections made it impossible to give the time that he should feel called on to devote to the town's affairs were he to again be elected to the post which he has filled for the past two years.

In announcing that he would not again seek the place, Mayor Wike declared that he was deeply grateful to the people of Brevard and the board of aldermen for the fine cooperation that had been given him during his term as mayor.

In reviewing the past two years, the mayor was proud of the fact that Brevard's greatest asset, Brevard College, had been located here during his term as head of the city government, as well as establishment of the park to park highway. "Brevard has progressed, and will continue to progress," the mayor asserted, "and every citizen, whether an official or not, should feel it a duty and an honor to lend every effort toward a greater Brevard."

FERE WANTS TO END ALL CATTLE CLAIMS

Seeks To Rid County of Relief Animals—Fear Spread of Serious Disease

The government is endeavoring to close its cattle program in Transylvania county by disposing of all the cattle, for which it is offering rewards, and by settling with those whose claims have not been adjusted, said Neah Hollowell, administrator for this district.

Dr. M. M. Leonard, representing the government as veterinary inspector is conducting a crew of men searching for cattle which were placed in open pastures, and these men have been instructed to bring in the cattle, dead or alive. The government fears that these cattle may convey to native cattle the scabies and is, therefore, trying to make a clean-up.

Persons having information about any of these cattle which have strayed into the mountains would confer a favor on cattle owners by reporting any information they may have to relief offices in Brevard.

Mr. Hollowell stated that there were a few outstanding claims which had not been adjusted. He said that anyone having a just claim or an unpaid contract should present the details to F. H. Holden, who was in charge of the cattle in Transylvania county for the relief organization. Mr. Hollowell stated that he had evidence of some who had tried to "chisel" in on the government by obtaining pay for which no damages had been done or for which there was no contract or written agreement. He said he was not interested in this type of claim but would be anxious to hear of any legitimate claims because the government is anxious to clean up this cattle program.

"That it shall be unlawful and constitute a misdemeanor to sell squirrel for the market or otherwise, or to sell the same to any hotel or restaurant, or to any person or persons, in said counties.

"That any person or persons violating the provisions of section three of this act shall be fined not more than \$50.00 or imprisoned not more than 30 days, in the discretion of the court.

"That all laws and clauses of laws in conflict with the provisions of this act are hereby repealed.

"That this act shall be in full force and effect from and after its ratification."

A. H. HARRIS

The name of A. H. Harris is being presented in The Times this week for nomination as mayor of Brevard in the primary to be held here on April 29. Mayor Wike will not be a candidate for re-election.

With presentation of the name of Mr. Harris, is also announcement by Ralph J. Duckworth, R. P. Kilpatrick, S. M. Macfie and Anthony A. Trantham, members of the present board of aldermen, that they will seek re-election on the "Harris ticket" along with Fred E. Babe Left At Home of Former Brevard Folk

Friends here of Mr. and Mrs. Ed Duclor, of Fort Worth, Texas, both former residents of Brevard, will be interested in a somewhat unusual incident that took place in their lives last week.

While sitting in their home at a rather late hour on the evening of March 12, Mr. and Mrs. Duclor heard a light tap on the window. On opening the front door a few minutes later to investigate the source of the noise, they saw to their amazement on the porch a basket in which was a tiny baby girl. They brought the basket and contents into the house and found pinned to the baby's dress a note asking the finder to rear the child and be good to it, and stating that the birth of the baby was February 19.

No other information or clues as to the baby's parentage have been learned by Mr. and Mrs. Duclor, who express delight with their new-found baby daughter, whom they have named Velma Roe. They expect to institute legal proceedings for adoption of the child.

Mr. and Mrs. Duclor have no children of their own and are said to be most happy in the possession of their adopted daughter.

NEW CLEANING PROCESS FOR HOUSEHOLD GOODS

Charles Moore and Robert Scruggs of the Southern Public Utilities company have recently returned from an electrical appliance school in Spartanburg where they were shown inexpensive and thorough ways for cleaning cooking utensils such as coffee percolators, waffle irons and other appliances.

Messrs Moore and Scruggs will explain the process to any lady of the community, and state that they "have nothing to sell," the idea being only to be of assistance to housewives.

Dr. Messick Visits Here

Among the guests at Pierce-Moore hotel this week was Dr. S. D. Messick of Spencer. Dr. Messick, it will be remembered, was given serious consideration last year for the presidency of Brevard College. He is at present superintendent of Spencer city schools and this summer will teach at the Asheville Normal.

Later he was selected by the board as mayor pro tem.

Mr. Duckworth is at present cashier of the Transylvania Trust company, in addition to being a member of the board of aldermen, which place he has filled for the past two years.

Mr. Kilpatrick has served several terms as a member of the board of aldermen, and has been actively identified with progress of the community for years in his profession of contractor and builder. Dr. Macfie is now rounding out his sixth year as member of the board, and has always been active in town and county affairs. He has served as director of the Chamber of Commerce for years, and is owner of the Macfie Drug company.

Mr. Trantham is one of the younger business men of the town, he having been in the department store business here for the past six or eight years. He was elected to the board of aldermen two years ago. Mr. and Mrs. Pickelimer are now in Brevard where they have again opened their home. Mr. Fisher arrived Wednesday, and expects Mrs. Fisher within a few days from Virginia where she has been visiting relatives.

Coltrane Speaker At Kiwanis Meeting

E. J. Coltrane, president of Brevard College, was speaker at the Kiwanis meeting last Thursday and told members of the club some of the aims of the institution, and methods of procedure.

President Coltrane stressed the fact that Brevard College was doing its part by the community, in providing college facilities for 75 to 80 students of this immediate section, many of whom would very probably not have the chance for a college education were it not for his institution.

Following President Coltrane's interesting discourse, a vote was taken to endorse a recent resolution of the board of aldermen, which requested the legislature to repeal the absentee ballot law as pertains to the town of Brevard elections. Copies of the resolution were ordered mailed to Representative Henry and Senator Ramsey.

It was also expressed consensus of opinion of the club members that another meeting similar to the "Civic Booster" meeting held two weeks past, be held, at which time organization of a trade body should be perfected. The secretary was ordered to write Mrs. Oliver Orr, president of the Women's Civic club, and ask that organization to sponsor the meeting.

BASEBALL OUTLOOK GOOD AT COLLEGE

Prospects now are that Coach Ralph James will have several swatters on his Brevard College baseball nine that will stick around the 400 mark or better.

Pre-season form of some of the boys who have been working out regularly for the past few days, is excellent, and as the days become warmer more interest is being shown by both players and fans.

Coach James will easily have four teams on the college diamond provided sufficient equipment can be secured. This seems to be his most serious trouble now. Effort is being made to secure necessities for playing through sale of season tickets which can now be secured at the nominal price of \$2.00 for nine home games.

An excellent playing field is being gotten into shape on the football field, corner of North Broad and Cascade, and with the crack players who have reported for practice the college nine should have a good season. First scheduled game here will be April 20 with Davidson college freshmen.
