BULLETIN!

Raleigh — The calendar committee of the senate Wednesday killed the hotel tax section of the sales tax bill.

nesday morning, with the sales tax, revenue and school legislation out of the way.

Legalization of alcoholic beverages seems to be biggest factor before the legislators, with several bills having been introduced within the past few days for this purpose.

The hotel tax "spite measure" was referred to the senate calendar committee on Tuesday after having been passed by the house on its final reading late Monday night by a 40-21 vote. Representative Henry of Transylvania was one of the lower house men fighting the measure successfully. Opponents of the hotel tax bill feel certain that it will not be called from the calendar committee for action by the senate, and will naturally fail in passage.

All exemptions were taken from the three per cent sales tax measure last week, after opponents of the measure had battled for weeks—first to totally ban sales tax of any sort, and later to take basic foods from under its provisions.

Lethal Gas In Place Of Old Electric Chair

Raleigh, May 8—A man is just as dead when you kill him with lethal gas as if you electrocute him but social leaders say that passage of the Peterson bill to substitute gas for electrocution in capital punishment is a great stride in the right direction. Persons who have seen gas executions say the prisoner displays no sign of pain and that much of the gruesomeness of electrocutions is missing. Capital punishment opponents hail this state's departure in the method of legal killing as a move toward its abolition. The Peterson bill provides that persons sentenced to death after July 1 be put to death by gas. Those sentenced before that date will be electrocuted.

Mothers Day Will Be Observed Sunday

By JAZZY MOORE
The hands that rock the cradle will be the recipients of many gifts Sunday and the hearts of mothers the nation over will be gladdened as sons and daughters unite in praising them on the annual date devoted to their glorification.

Mothers Day in Brevard will be observed with special Sunday school services in the churches of the city and sermons on the sacrifices that are a mother's lot as scheduled as features of many morning services.

Family reunions and family dinners are also booked, and florists report that hundreds intend to wear the buttonhole flower associated with the day.

Ministers explain that a white flower is preferable, whether one's mother is living or dead, since white is the symbol of purity, and the essence of motherhood, but according to the general practice those whose mothers are living wear pink carnations and those who have lost their mothers wear white blossoms.

The idea of Mothers Day was originated about 20 years ago by a Philadelphia nurse. Her mother recovered from a serious accident and the staff of the hospital where the daughter worked united in a special program of praise and thanksgiving.

On the same date next year practically all Philadelphia churches held special services for mothers and since that time the custom has become national.

Mr. Grice said that there were some changes to be made in the routing of 284, and therefore could not be let at the present time, all the way through to the Boylston road.

Chain Letters Being Received In Brevard

Several Brevard residents have been placed on the "sucker list" by the chain-letter writers who started the idea out in the western section of the country some weeks ago.

All one has to do to make \$1,000, according to the letters that have been received, is to send the \$100 name to a group of five a dime, and send a duplicate of the letter to five more a dime. Then, after writing the five letters, and investing the lone dime, there is nothing to do but sit back and wait for the dimes to come in.

Of course all the suckers will send the dime—there is no question of this, (according to the letter) and who is it that would not like \$1,000.00?

Was it Barnum who said "there is one born every minute"?
