## Henderson All-Stars To Play Here Tuesday

One of the best ball games to be played here this season will probably be that of next Tuesday afternoon between the Transylvania Tanners and the Henderson County All-Stars.

The Henderson outfit will be selected from the several teams that comprise the Henderson league, while the usual line-up of the Tanners will play for the local aggregation.

The game will be called on the Brevard high school field at 4 o'clock, and is expected to draw the record attendance of the season due to the stiff competition which is looked forward to.

The Henderson delegation defeated Brevard on the former's field Tuesday afternoon by the close score of 5-4 in the first game of the series. N. Bagwell, M. Bagwell, and Justus were leading sluggers for Brevard at Hendersonville Tuesday with two for four. In addition to turning in a good day at bat, Justus had a good day on the mound after relieving Barley in the first frame. He struck out five men and allowed only seven hits in seven and two-thirds innings.

## BATTERY F REUNION SET FOR AUGUST 22

### Members of Old Hickory Division Will Hold Convention At Breese's Mill

Elaborate plans are being perfected for the annual reunion of Battery "F" 113th Field Artillery of the Thirtieth "Old Hickory" division, to be held at Breese's Mill, near Brevard, on Thursday, August 20.

Present plans call for a barbecue at the Breese barbecue stand in the afternoon, with the business session also to be held there. The program will start about two o'clock in the afternoon, and Captain A. H. (Sandy) Graham, who saw two years' service with the Wildcat, 81st division, has been invited to make the address.

Eck L. Sims of Brevard, is chairman of the Battery F reunion committee, and will be assisted in carrying out his plans by various organizations here. Courtesy of the Brevard swimming pool, will be offered the visiting members of the famous battery, and other courtesies are being arranged. Members of the Brevard Boy Scout troop will act as traffic directors for the occasion, and will direct the soldiers in Brevard and near the Breese Mill site.

The reunion will be only for members of Battery F, according to advices received here this week from President Charles C. Sellers of Charlotte, about fifteen of whom reside in Transylvania county. Between one and two hundred members of the battery are expected to attend.

The battery personnel was recruited largely from the counties of Mecklenburg, Iredell, Cabarrus and Transylvania, with Mooresville as headquarters of the veteran organization. Previous reunions have been held at Statesville, Mooresville and at the Iredell county home of the battery's wartime commander, Capt. Reid R. Morrison.

Surviving members of the North Carolina outfit will have rich food for reminiscence upon the approaching occasion of their annual gathering. They saw service from August, 1917, to March, 1919, a total of 20 months.

After mobilizing in Mooresville, the battery was forwarded to Camp Sevier, Greenville, S. C., for a period of training, and in May, 1917, sailed for France, where it underwent further training at Camp Costquidan. On August 28 of the same year it was entrained in the famous "40 and 8" cars for St. Mihiel, where it participated in the first all-American offensive. The outcome of the famous "St. Mihiel drive" is a matter of history, as is the Meuse-Argonne offensive, immediately following, in which the 113th saw further action. Battery "F" was in the fierce fighting which followed in the Argonne Forest, where so many of the regiment's draught animals were disabled that, with the coming of the armistice, it was necessary to load the "75's" on trucks for the march into Germany, where the regiment spent some two months as a unit of the Army of Occupation. Sailing from St. Nazaire for home on March 6, it was mustered out of the service at Camp Jackson, Columbia, S. C., on March 31.

Present officers of Battery F, 113th Field Artillery association are: Charles C. Sellers, Charlotte, president; Clarence C. Hone, Charlotte, secretary-treasurer; and Eckel L. Sims, Brevard, chairman of the reunion committee.

## Brevard People Know August Brings "Cold"

It was a "cold day in August" here last Saturday when the mercury dropped down to the near-fifty mark for several hours, and overcoats that had been gotten out Friday were still very much in evidence.

Curds of smoke were seen emanating from many chimneys about town, and to see a straw hat topping an overcoat was no novelty at all. The cold snap followed the severe rain which began falling Thursday morning about noon time and continued intermittently through Saturday night.

## Women's Civic Club Is Doing Worthwhile Work In Community

Much work of a worthy and valuable nature is being accomplished by the women's civic club, as was revealed at the regular meeting of this organization held Monday afternoon in the club room.

In addition to the beautification program undertaken in various parts of the town, the club is also doing some outstanding work along the lines of welfare, which are the club's two major purposes.

The most recent work of this nature engaged in by the club is that of adding to the comforts and pleasures of the inmates of the county home by replenishing the furnishings in the living room of the home. New draperies have been hung at the windows, a new couch cover made and placed, new bed linen made, new cushions made for the chairs, some of which have been repaired, and other improvements made, all adding greatly to the attractiveness of the room.

These improvements have been made possible through the financial assistance of the county commissioners and the untiring efforts of ladies of the club. The committee in charge of this department of activities includes: Mrs. Ralph Zachary, chairman; Mrs. W. H. Duckworth and Mrs. J. W. Smith.

Other matters of business transactions at Monday's meeting included the making of final plans for the flower show to be held Friday, and the benefit party held Tuesday night, which was for the purpose of raising funds to defray expenses of the flower show. The meeting was presided over by the president, Mrs. Oliver Orr.

## PRISON CAMP NEAR CALVERT OCCUPIED

### Long-Term Negro Prisoners Sent Here—Will Work On County Roads

The Transylvania county prison camp at Calvert was opened last week and now houses 45 long-term negro prisoners, according to Ernest H. Webb, district engineer for the State Highway and Public Works commission who has charge of prison camps and maintenance work in Transylvania, Polk and Henderson counties.

The modern camp was constructed several months ago, but was left vacant until last week, while lights and other necessary installations were being completed.

The camp is a 75-man capacity, but only 45 have been brought here at this time. Mr. Webb said. The negroes are known as "long-termers" and will be guarded constantly, in camp and while at work by armed guards.

T. H. Leverett is superintendent of the camp, and Fred Johnson who has been at the camp for the past several months, has taken over the road work which Mr. Leverett has been doing.

The men will be used on Transylvania roads, Mr. Webb said, as a part of his maintenance crews.

## Pisgah Forest Girls On Spartanburg Radio

PISGAH FOREST, Aug. 5.—Miss Rebba Nicholson and Miss Lois Sentell were heard over radio station WSPA, Spartanburg, last Saturday afternoon in a program of stringed instruments and mountain ballad singing.

## Brevard Lime Shed Boost for More Lime

(J. A. Glazener, County Agent.)  
The Brevard lime shed which was erected in the early summer on the Purity Products company's siding in Brevard is proving a great boost for the using of more ground limestone. A splendid cooperative spirit was shown in the erecting of the shed and the handling of the lime.

Members of the Brevard chapter of Future Farmers of America built the shed under the leadership of our capable agricultural teacher R. J. Lyday. After we had checked out two cars of lime, W. L. Mull, manager and one of the majority stockholders of Purity Products company, agreed that his company would handle the lime for the farmers on the same low margin that we had worked out, namely \$2.65 off the car of \$3.00 when taken from the shed. These prices include the weighing of the trucks or wagons for the farmers. The third car of lime is now being checked out of the shed and since it was completed about three months ago.

That more farmers will use lime when suitable arrangements can be worked out and lime can be had at a reasonable price is being demonstrated by the number that are coming for miles around to get only a few tons of the lime. Where as before the establishing of the shed and the satisfactory means of checking it, only a few of the smaller farmers used it as the price per ton of bagged lime is almost prohibitive for general farm use. On the other hand the few tons so many would like to have had, kept them from the advantages offered by buying in car lots, which many of the bigger farmers have done. Lime is playing an important part in the development of the soil building and soil conserving program in the county. Farmers are realizing more and more its value in the growing of grasses and legumes. Thanks to Mr. Mull and the Purity Products company for their splendid cooperation in making this project worth while to the farmers of this section. Here is hoping that the same services may be rendered to other sections of the county in a very short time.

## Negro Draws 3 Years For Automobile Death

Eddie Young, Brevard negro youth, was sentenced to not less than three years nor more than 18, in Superior court here Thursday morning for the death of Miss Hazel Harvey, who was killed last Monday morning by an automobile driven by the negro.

Plea of involuntary manslaughter was entered by Ralph H. Ramsey, counsel for Young, and the state accepted the plea. After hearing evidence in the case, Judge Slink gave the sixteen-year-old negro the sentence of three to 18 years.

Walter Smith, Brevard negro youth who was in the car with Young at the time the young lady was killed, was commended by Judge Slink for his part in the affair. The Smith boy stopped the car after the driver had jumped out and fled, and aided in giving every assistance possible.

Evidence brought out at the trial was that Miss Harvey was struck by the rapidly moving car as she walked along the highway near the W. McK. Fetzner home. The negro attempted to pass a truck driven by James Barton and struck the girl who was walking along the side of the road.

Miss Harvey was a daughter of Mr. and Mrs. James Harvey of Savannah, Ga., and had been here for several weeks visiting her aunt, Mrs. E. M. Parker.

Motion docket was heard last Wednesday, and the civil docket consisted of a couple of divorces and a few others.

The Rev. Paul Hartsell, moderator, pastor of the Brevard Baptist church, will preside over the meeting.
