Brevard College Football Game Scheduled For Friday Afternoon

Brevard College football season will open here Friday afternoon when the Ransom-men play the Wofford Frosh on the high school field.

With an untried aggregation, Coach Ransom said Wednesday that he did not make any predictions as to outcome of the game, but that even though he had some rather inexperienced men in his string, and some of them are more or less in the featherweight division, he would promise to "play four quarters."

Four of last year's men, two of them regulars, will be in the starting line-up, backed by two others who played some last year, and seven new-comers.

Clayton, last year's quarter, will be at his post, and Ferguson, left guard, Odum, looked on last year as an excellent guard, will be in the same position.

Edwards, at left end, saw action in all games last year, and is counted on this year to assist in passing attacks.

Probable starting line-up will include Edwards, LE; Boyd, LT; Ferguson, LG; Hicks, center; Odum, RG; Edmondson, RT; McMinna, RE; Clayton, QB; Taggart, LH; Love, RH; Hendricks, FB.

Other men who will probably see action in the Friday game are Lee Maize, Andrews, Belk, Moore, Wilson, Tothrow and Patton, line; McLeod, Houts, and DeShaw, backs. Heatherly will be out of the lineup from injuries.

Taggart, 128-pounder, is looked upon as a triple threat who will see plenty of action in the game. The lightweight is fast, carries the ball well, boots pretty good, and passes accurately.

Pisgah Forest To Be Opened To Squirrel Hunters, Oct. 12-18

Sportsmen will have an opportunity to try their luck under choice conditions this fall when the Pisgah National Forest officials will open the 20,000-acre Davidson River Watershed area near Brevard for squirrel hunting, October 12 to 18.

In making the announcement, H. E. Ochsner, of Asheville, supervisor of the Pisgah Forest, said that the squirrel hunt, is the first attempt to permit the public to participate in the benefits of small-game management on portions of this forest which have been under protection for over 20 years.

If the supervised squirrel hunt proves practical from a forest management standpoint, Supervisor Ochsner said greater opportunities for hunting small game will be permitted next year. The opening of protected National Forest lands for public hunting under proper conditions is in line with the established policy of the United States Forest Service to manage the national forests not only to produce timber and protect watersheds but also for other benefits to the public, such as game production, recreation, and similar activities that do not interfere with the primary use of a national forest.

The regulations governing the proposed hunt follow:

- 1. Open to all citizens 18 years of age or over, but limited to 50 hunters a day.
- 2. The fee will be one dollar (\$1.00) a day, but no person will be permitted to hunt over 4 days. This money will be spent for forest game improvements.
- 3. Daily bag limit will be 10 squirrels.
- 4. Application for hunting should be made to the office of the District Ranger, Pisgah Forest, N. C., by mail, or in person. Applications will be given preference in accordance with the time they are received.
- 5. Applications made in person will be given consideration only during regular office hours, between 8 a. m. and 5 p. m.
- 6. When an application received by mail is accepted, the applicant will be so notified immediately by mail. If it cannot be accepted, he will not be notified.
- 7. Upon notification of acceptance the applicant must draw a money order covering his fees, to the Regional Fiscal Agent, U. S. Forest Service, Atlanta, Ga. This must be submitted by mail or in person to the office of the District Ranger, Pisgah Forest, N. C., before a permit will be issued to him. Forest officers will not accept cash for payment for a permit.
- 8. Firearms will be restricted to standard .22 calibre rifles, and standard velocity .22 calibre ammunition having solid lead bullets. Shotguns, pistols, hand-guns, high-powered .22's or rifles of other calibres will be barred from the hunt, nor will high velocity or hollow ammunition be permitted. Dogs will not be permitted.
