LOCAL EMPLOYMENT **OFFICE WILL TAKE APPLICATIONS 13TH**

Registrants Asked To Call At Court House Wednesday Of Next Week

The local employment office will only be open two days per month. according to advices received by The Transylvania Times on Wednesday from the district director, P. Lane Gaston, of Ashevilla.

Next date for the office to be open for receiving applications for work and for re-registration will be Wednesday, January 13, between the hours of 10 a. m. and 4 p. m.

And, unless the schedule is changed, next date for opening of the office will be Wednesday, January 27.

All records and other business pertaining to the office will be kept in the Asheville district office, Mr. Gaston said, and requisitions for workmen will come from that office, with notification being made by mail.

Major works project which will be handled through the employment office in the immediate future is the highway work in Pisgah National Forest, and Mr. Gaston said Wednesday that a small crew would be worked on that job lowhee: Alfred Buchanan, Cullowhee by the contractor until the weather cleared up, after which he expected the job to employ 75 to 125 men.

The local office has been in charge of Frank King for some time, and Mr. King said that he offered to take care of the work during the registration for the Pisgah National Forest job, or for another two weeks' period, without pay, but that orders had been received by the district office to close the office with the exception of the second and fourth Wednesdays, and that his services could not be used, even though he had offered to nasium at eight o'clock. Kimzey Expects Long Session Of Assembly

Representative Pat Kimzey left here Tuesday morning for Raleigh where he will asume his place in the lower house of the general assembly which convenes at 11 o'clock Thursday.

Mr. Kimzey stated that he did not look for the session to be over before April first, and possibly May first would be more in keeping with closing date of the legislature.

After conferring with the county commissioners and the board of aldermen here Monday and Monday night, Mr Kimzey said that there was very little local legislation to be proposed in the 1937 session for Transylvania county, as matters now stand.

Biggest fight in the law-making body he said, would in his opinion, be over the liquor laws and the sales tax ques-A state-wide liquor control act tion. will very probably be submitted early in the session, and castern counties which already have havor stores under a "county option" plan are expected to muster all the strength possible to mainare expected to seek a state-wide uni-

Business Mcn Look Forward To Increase In All Lines During 1937

Business in Transylvania county was decidedly better in 1936 than it was in 1935, and prospects for a still greater increase for 1937 is confidently looked forward to, according to a survey made by Mark T. Orr. who interviewed nearly all business houses and leaders here last week.

"Best business since 1929" was the general consensus expressed to Mr. Orr, who spent three days interviewing all type business leaders as well as farmers.

Statistics given The Times representative by employers showed that a decided gain had been made in payrolls during the year, and that production of manufacturing plants was materially increased.

Farmers received better prices for their products, and a fairly good crop in most instances added to the cash income on the farm, plus payments of the soil conservation bureau which will have puid nearly \$10,000 to local farmers by the end of this month.

Addition of the A. W. Wheeler & Son oslery plant is expected to add to the Brevard payrolls, and work starting on the Pisgah National Forest road-284will also take up considerable slack in the unemployment situation here for the next several months.

Real estate dealers who were interviewed furnished the most conclusive barometer of general conditions, in the statement that bona fide land sales were more numerous during 1936, with much unemcumbered property changing: hands.

Altogether, Mr. Orr reports that business was decidedly better during the past year, and that a better year will be had during 1937.

Makes Plea For Care Of Forests In County

Paper and pencils, houses and hoops, desks and doors, soap and shoes, airplanes and automobiles, baseball bats and boats, all these and hundreds more depend upon forests.

We would be alarmed if we were told that there was no wheat crop this year. We need a timber crop every year, just as we need a wheat or corn crop. Our forests are going faster than they are being replenished. This is due to cutting for our needs and to destruction by forest fire, insect pests, and diseases, A people without children would face a hopeless future; a country without trees is almost as helpless.

The loss of timber caused by forest fires each year is enormous. In the year 1934 there were nearly one hundred seventy thousand forest fires in the United States. This was at the rate of four hundred and sixty-five every day. Victim Of Pneumonia A large percent were caused by careseness of tourists and campers and

Excessive Rain Here

With an average of a little over 65 eems to be stocking up in advance. A total of 3.69 inches of rain fell here on January 2 and 3, according to the official bureau.

In December a total of 10.42 inches was recorded by City Clerk Harry Patton, and with a seeming new start Tuesday, January bid fair to outdistance December.

The French Broad river has been out of its banks for several days, and while no serious damage has been reported. roads over the county are becoming Baptists Issue Call nearly impassable.

District Highway Engineer Ernest Webb reports that all through lines have been kept open, although several slides have occurred in his district. The largest slide in this county was on the Gloucester road when an estimated slide of 300 yards of stone and soil slid into the highway. However, highway employes and all prisoners from the Duried December 26 Calvert camp soon had the road open.

License Tag Sales **Increase Over 1936**

ahead of the same period last year, ac cording to checkup made by Mrs. Mary Jane McCrary, Transylvania county liense bureau operator. On January 6, 1937, a total of 583 tags had been placed, while one year ago only 495 had been sold, a gain of 88 for

this year. State Motor Vehicle officials issued the statement several days ago that no extension of time would be granted for motorists in purchasing tags, but so far no arrests have been made in this county.

men who set fire to forests Forests help control floods, they act like a big sponge. The thick mat of leaves will absorb lots of water. In times

of long heavy rains, if the forest soil is: unable to soak up any more, the water that runs away is clearer and purer than water that flows over unforested land. That is because the forests are

tightly holding the soil in place, instead of letting it be washed away by rain. Each year lots of the best and most fertile soil is washed away. A child realize that these blessings may be made perpetual if cared for in time

North Carolina has about twenty-two million acres that are either producing timber or best adapted for timber production. About fifteen million is under forest fire protection. It is an undisputed fact that the forests in North Carolina is one of her greatest assets, and that forest fires are the greatest enemy.

Through the cooperation of Transylvania county the state and government. we are improving and making it possible to locate and extinguish fires before they have done much damage. Needed In County

Transylvania county has been without a highway patrolman for a number of months, and leaders here are beginning to wonder if this is not one of the "lost colonies' insofar as the state patrol syscem is concerned.

Leaders here point out that traffic regulations over the county are being disregarded in increasing number of instances, and that reckless driving is being noted, especially at night, since the patrolmen have failed to make their rounds here.
