Mrs. C. E. The club voted to donate \$5 from the treasury as an initial fund for supplies to be used in the class work.

As result of a membership drive in progress the meeting was well attended by new and old members.

## Board Commissioners Refuse To Call Transylvania Liquor Store Election

Transylvania county board of commissioners by unanimous vote Monday, declared that their offices would not be used to call an election on the liquor question.

With very little discussion, the motion was made by E. Carl Allison, of Cherryfield, and seconded by John L. Wilson, of Enon. Chairman A. B. Galloway, of Brevard, who had already publicly expressed himself in the matter voted with the other two members, making the motion unanimous.

"If there are enough people in the county who want liquor stores set up, let them secure petitions to call for an election," the commissioners said in discussing the question.

The law provides that if the commissioners do not see fit to order the board of elections to call a referendum, then the way is left open by which 15 per cent of the qualified voters signing a petition to the board of elections requesting that a vote be taken.

## Lyday Hospital Now Member Association For Mutual Patrons

Final arrangements have been made by the Lyday Memorial hospital of Brevard whereby the local institution becomes a member of the Hospital Care Association, and has been qualified to receive patients who are members of the hospital care association.

Under the plans of the mutual non-profit corporation which operates the hospital care setup, all hospital bills will be paid to the hospital for such members of the mutual association who use the Lyday Memorial, or any other member hospital.

The plan is being used in principal hospitals all over the state, and the association reports that membership in the "mutual insurance plan" is increasing by leaps and bounds.

## Easter Seal Sales To Aid Crippled Children

The sale of Easter seals for the fund for crippled children in this county is to start this week. The Girl Scouts are selling them and the Wednesday club is sponsoring the sale for the local organization which is to be affiliated with the State League for Crippled Children. The Child Welfare committee is acting as the local representative of the League and will have charge of disbursement of funds, through the office of the child welfare worker, Miss Grace Williams.

The League was organized in this county about a year ago and seals were sold for the first time last year. Transylvania county has not participated in the program before. The League is a private organization made up of interested citizens in the state, and its objectives include the education of the general public as to the needs of crippled children in the state; the extension of services to crippled persons in the form of clinics, appliances, or any other service not provided by some other source; filling in of gaps in the program of the state and other agencies for the care and treatment of crippled persons; prevention of crippling conditions by the dissemination of knowledge and services to all groups in the state; securing of a census and reporting of crippled children; bringing as early in life as possible all crippled children into contact with modern medical and surgical services now available.

It is the purpose of the League to work with all other agencies both public and private in a comprehensive program for physically handicapped persons, filling in wherever the gaps in their program appear.

Fifty per cent of the funds raised from the sale of Easter seals will go to the State League and fifty per cent will be used in this county for the care of handicapped persons. The Girl Scouts plan to work through the schools in making the sale of seals county wide.

The welfare committee, which is also in charge of the Easter seal sale includes, in addition to Miss Williams: Mrs. Henry N. Carrier, Ralph H. Ramsey, Rev. Harry Perry, Brown Carr and Dr. J. E. Osborne.

## Golf Course Probably Be Operated By Town as Municipal Undertaking

Brevard Municipal Golf Course is much nearer being a reality.

The Board of Aldermen and citizens of the community are co-operating in an effort to make the course what it ought to be—an asset to the community, and if plans which are being worked out by the town board materialize, the community will be given an opportunity to prove the contentions which they set out in petitions presented to the board in its meeting Monday night.

Over three hundred taxpayers signed the petitions requesting the town to take over and operate the Brevard Golf course, and the paper, along with

pledges in excess of \$500 for maintenance work was presented by Jerry Jerome at the Monday session of the council.

Definite action could not be taken by the board Monday night, but members expressed themselves as being both personally and officially interested, and promised to work out plans if possible whereby the town could own the property.

Consensus of opinion as expressed by the board was that the town would be willing to take the course over if there were assurance that the movement would be given proper support of the citizens.

## Large "Guest" List at Jail In February

Transylvania county jail is seemingly a popular place, judging from the number of individuals who were "guests" registered there during the month of February.

Only one man came back for a second visit during the month, the record which Jailer Buck McCall turned in to the commissioners Monday showed, and he has since departed to the prison camp down at Hendersonville.

All sections of the county are represented in the guest list, and checking down the row of names, some of them were young men, middle-aged, and some few in the old man class.

## Food Sale At Pisgah Forest

A food sale for benefit of the Pisgah Forest school will be held at the school house Friday night, beginning at 7:30 o'clock. A special feature of entertainment will be string music furnished by boys of P-66 CCC camp. The public is invited to attend.

The meeting will start at 7:30 o'clock, and will be presided over by J. E. Ruffy as chairman. Dinner will be served by ladies of the Brevard Methodist church, and tickets already sold indicate that 125 will be present.

An outstanding speaker is expected for the occasion, and in addition, brief talks will be made by Democratic leaders of the county.

## Bonds Will Be Accepted on 1935 and Prior Year Taxes by County

Bonds will be accepted on debt service portion of county taxes for 1935 and prior years, until November 1, under an agreement which has been reached with principal bondholders of Transylvania.

After reaching agreement with the bondholders, Representative Pat Kimzey introduced a bill in the legislature, which is now law, and allows the taking of bonds on practically the same basis that has been effective here for the past two months, with the exception of 1936 taxes, which must be paid in cash.

Coupons, however, will not be accepted for more than 25 cents on the dollar in settlement of taxes, as this is the par value which the bond holders have agreed to settle for interest coupons.

The acceptance of bonds on taxes, will be in effect, the board of commissioners point out, only so long as there are no legal steps taken by any of the bondholders who were not contacted before the bill was passed. Therefore, the board stresses the fact that while the bill passed by Mr. Kimzey sets November first as date when acceptance of bonds will be stopped, that any bond or noteholder would be able to stop this method of collection by entering a mandamus suit.

The tax collector was barred for nearly three months by a mandamus court order last fall, from taking bonds on taxes, and the board points out that this is entirely possible again, hence the urge that tax payers take advantage of the saving at once.

In connection with passage of the bill, Representative Kimzey sent the following statement to The Times for publication:

(Continued on Back Page)

"Realizing that there are a considerable number of people in Transylvania county who desired to pay their taxes by using bonds prior to March 1, but were unable to do so on account of the lack of funds, the board of commissioners, the county accountant and myself, as county attorney, have been making a persistent effort to get the bond holders to agree that the tax collector may accept bonds in the payment of the debt service portion of the 1935 and prior years' taxes until November 1, 1937. By this extension of time, taxpayers of the county will have an opportunity to obtain funds during the summer months and pay their taxes on practically the same basis as heretofore.

"The bond holders have finally agreed to this plan. Under the tentative agreement of the settlement of the interest on bonds now owned by Transylvania county, 75 per cent of said interest is to be cancelled and 25 per cent of said interest refunded on the same basis as the bonds. Therefore, I have passed an act repealing all former acts in connection with the payment of taxes with bonds, notes and coupons and providing in said act for the payment of 1935 and prior years' taxes with bonds on the same basis as they have been used in the past, and allowing the use of coupons at 25 cents on the dollar instead of at par value in the payment of taxes. The bond holders under no circumstances would agree for the use of bonds in the payment of 1936 and future years' taxes after March 1, 1937. Therefore, the 1936 taxes and all future taxes will have to be paid in cash in order that we may consummate the settlement.

## Aged Balsam Grove Man Buried Monday

Funeral services were held Monday afternoon from Shoal Creek Baptist church for Jesse Miles McCall, 89-year-old farmer of the upper Gloucester section.

Mr. McCall died Sunday afternoon at the home of his daughter, Mrs. Harriet Owen, at Easley, S. C., where the aged man spent his winters for the past several years. Heart trouble was given as cause of his death.

## Livestock Meeting To Be Held On Saturday

Improvement in Transylvania county work stock will be a special order of business to be taken up at a meeting of farmers and stock raisers which is called at the county agents' office for Saturday afternoon.

Statistics show that there is a vast shortage of work animals in the county, and plans will be discussed at the meeting for bringing at least one good jack into the county. The meeting will start at 2 o'clock.

The county agent's office reports that a total of \$5,534 in soil conservation payments has been received in this county, with two batches of checks having been received this week.

The amount was paid on 241 applications, and there are still a number of applications for payments that have not been checked over and paid by the Federal offices at Washington.

New soil conservation blanks will be ready for signing at an early date.

The organization is enjoying one of its best years from point of membership and constructive work done.

## Absentee Bill Passed By Assembly Applying to Democratic Primary

The voting law which precludes use of absentee ballots in the Democratic primary in Transylvania county has been ratified by the legislature and is now effective.

A statement by Representative Pat Kimzey which is carried on the editorial page of this issue sets forth reasons for his introduction of the measure.

Mr. Kimzey has withdrawn his measure which would have caused the Democrats to use the convention system instead of the primaries. This bill was introduced before the absentee measure, but met with considerable opposition in the county, and was withdrawn by the representative.

## Duke Range Campaign

Annual range campaign is being started this week by the Duke Power company of Brevard, and special announcement in regard to the event will be found in the advertising columns of this week's Times.

## Fine Exhibitions Seen at School Art Display

The Transylvania county school art contest drew to a close last week-end, with an excellent exhibit held at the elementary building Saturday.

The entries were all unusually good and the judges chose the winners with difficulty. The blue ribbon winners have been sent to Asheville to compete in the district contest. Where there was only one entry, the red ribbon was automatically awarded, according to the usual custom.

Considering the limited classifications of the contest this year, those in charge felt that the response by both teachers and students was indeed praiseworthy.

The winners in both elementary and high school divisions follow:

Elementary—Posters—First prize, Frances Walker, Brevard; second prize, Maude Alexander, Pisgah Forest; third prize, Bruce Glazener, Brevard; honorable mention, Gladys Wilson, Penrose. Drawing—First prize, Billy Surret, Penrose; second prize, Roy McCall, Brevard; third prize, Lucille Cox, Penrose. Sculpture—First prize, Patricia Austin, Brevard; second prize, Elizabeth Burlingame, Brevard; third prize, Harold Rickman, Penrose. Architectural model—Fred Glazener, Brevard.

High School—Posters—First prize, Jane Yonque; second prize, Mildred Henderson; third prize, Clifton Moore.

Drawing—First prize, Opal McCall; second prize, W. C. Austin; third prize, Robert Huggins; honorable mention, Hale Chamberlain.

Sculpture—St. Clair Austin.

Architectural design—Hale Chamberlain.

The Mathatasian club wishes to express at this time its sincere appreciation to those without whose kind cooperation the event could not have been a success... especially to Mrs. J. B. Jones, J. E. Ruffy, Miss Edna Mae Hines and to the teachers and students of the schools who entered the contest.

## Box Supper at Selica School Friday Night

A box supper will be held at the Selica school Friday night at 7:30 o'clock. The event is sponsored by the recreation committee of the community and is for the benefit of the recreational work among the school children and people of the community.

The public is invited to attend and bring a box of eatables to be auctioned off.

The committee in charge of the event includes: Mrs. Harry Blake, Mrs. Hansel Bentley, Mrs. Ruth Edwards and Miss Marion Henderson.

## MICKIE SAYS—

DON'T BE A BIZNESS "WITCH-HIKER!" DON'T LET TH' OTHER MERCHANTS DO ALL TH' ADVERTISING TO BRING TH' FOLKS T' TOWN—DO SOME ADVERTISING YERS'ELF

## PRIVATE SALE BILL IS NOW EFFECTIVE

Town of Brevard Allowed To Sell Foreclosed Property Without Advertising

A bill has been passed by the legislature whereby the Town of Brevard may sell at private sale without advertisement, properties acquired through tax foreclosure proceedings.

The bill provides—that the Board of Aldermen of the Town of Brevard are hereby authorized and empowered to sell at private sale without notice property acquired by the said Town of Brevard through tax foreclosure proceedings, provided, that no such property shall be sold at private sale for less than the total amount of taxes and special assessments and accrued interest thereon levied and assessed by the said Town of Brevard against such property and due the said town thereon.

Introduced two weeks ago by Representative Kimzey at the request of the town officials, the bill was passed by the house, and later given an unfavorable report by the senate committee. However, former Senator Ralph H. Ramsey, Jr., went to Raleigh and explained the measure to the committee which then gave it a favorable report, and it passed the upper house last week.

The property will not be sold by the town to other than the original owner for a period of 45 days, and notice to this effect is being carried in this week's Times. However, after the 45-day period ends and the original owner has not redeemed the property, the town officials plan to sell either at private or public auction as they deem best, in order to realize tax money and other assessments from the property which has been foreclosed.

## French Broad River Would Be Opened To Fishing License Free

No license will be required for fishing in the French Broad river between Rosman and the Henderson county line, if a bill is enacted into law which Representative Kimzey introduced Wednesday.

The measure provides that "fishing with plain hook and line or plugs will be allowed in the French Broad river between the Pickens Highway bridge in Rosman and the Henderson county line, without license."

A bill similar, but allowing for more freedom of use of the river, and other unlicensed fishing and hunting, was introduced in 1933 by Representative Wallace Galloway, but was defeated through work of interested parties here and at Raleigh. The Galloway bill would have allowed setting of nets and traps in the French Broad, and would also have allowed hunting or fishing on property without the necessity of a license provided written permission had been first obtained from the owner of the property.

Considerable interest was shown in the 1933 Galloway act, with over a thousand petitioners asking that the bill be allowed to pass, with a smaller group on the other side having backing of the state game department.

## Flowers In Louisiana

As Brevard residents waded through the snow Sunday morning, a brief note was received by The Times from Harold V. Smedberg, who has been in New Orleans for some time, saying that last fall's flowers are "still in bloom." No frost has fallen in New Orleans, Mr. Smedberg said, during the winter months.

## BASEBALL OUTLOOK GOOD FOR BREVARD

Three Teams Expected To Begin Work—Tanners, Hi School and College

There is evidence on every hand that Brevard will enjoy good baseball—"just as soon as the weather warms up a little," to use the vernacular of the several managers.

Coach Ernest Tilson's high school squad has already been looking with longing eyes toward the field, and Coach Tilson says that he expects his Blue Devils to be better than par this year.

Coach Arthur Ranson at Brevard College is just a mite handicapped for practice ground account of the fact that work is being done on the college athletic field, but he says that play ball he will, and he has a very likely looking aggregation lined up for this season. Games will probably be played on the high school field this spring.

Al Kyles is looking for his banner year in the Western Carolina Industrial League, and expects to get started shortly on practice. The local nine won the first half of the industrial league season last year, but lost to Enka in the play-off.
