We had a delightful visit both at Troutman and Enka with our children, grandchildren and great-grandchildren, to say nothing of the newly made and old friends we saw on the trip. Nevertheless we are glad to be home and take over our old job of gathering news for the home paper.

Keep Weeds Out of Lespedeza Fields For Better Harvest

(W. C. Mancuss, Asst. Agent)
The lespedeza seeded this spring is growing now and in order to keep it growing we must keep the weeds clipped with the mowing machine.

The lespedeza is more valuable as a soil builder than the weeds and it might prove to be a way of getting a little cash from the seed.

A small investment for the parts to make a seed pan to attach to the mower, when the lespedeza reaches maturity, will save lots of seed for the small farmer. It will mean another way of making a little money and will save our spending for seed next spring. A combine can be engaged for the larger farmer in this county by either contacting J. B. Jones, E. Carl Allison or H. H. Patton.
