Big Egg Sent In

An egg that measured six and one-quarter by seven and three-quarters was brought down from Rosman Saturday night by Tom Stroup. The large piece of breakfast food (I know exactly what meal it was) was laid by a white leghorn, which proves that the "banty egg" notion some people have about white leghorns is all the bash. The egg weighed four ounces.

WHEREAS, only 1-2 per cent of the total state-collected highway funds are now being used on streets within the towns and cities of North Carolina, the balance of the tremendous cost of street maintenance and construction being paid by property taxes for the benefit of motor vehicle owners, now therefore

BE IT RESOLVED, by the Aldermen of the Town of Brevard, N. C., in meeting assembled this 6th day of February, 1939, that this body unanimously favors and strongly recommends that not less than \$1,000,000 annually of state highway funds be appropriated by the 1939 General Assembly for use in maintaining, reconstructing or widening of streets in towns and cities that are used as connecting links for state and county roads, and

BE IT FURTHER RESOLVED, that in our opinion this request reflects the sentiment of an overwhelming majority of the taxpayers of this community and that copies of this resolution are hereby ordered to be sent by the clerk of this body to the State Representative from this county and the State Senators from this district, to the Governor of North Carolina, and to the newspaper.

Brevard High Wins First Double Bill of 1939 Basketball Year

Brevard high's basketball teams turned in their first double win of the season here Tuesday night with the girls a vastly improved and still improving outfit, taking the Rosman sextet 16-15 and the boys duplicating that win in the final taking their game 19-14.

The Brevard girls with Hayes leading the way with 9 points were successful in winning their first game of the year at the expense of a Rosman team that had previously defeated them three times. The only other Brevard player to connect with a shot was Gray. The Brevard defense was another outstanding feature of the game. Osteen and Israel with four tallies apiece were Rosman standouts.

The Blue Devils still seemed jittery over their Friday night loss and were held to the closest score of the season by Rosman's rejuvenated Hawks. Although they won the game the Brevard boys were far away from the form that carried them to early season heights. However, they showed improvement over their loss of last Friday and gave promise of more wins. Carland and Teague led the scoring with 7 and 6 points respectively. Single tary led Rosman with three field goals.

DELINQUENT TAXES WILL BE COLLECTED

Commissioners Appoint Lem Brooks To Post—Say "Get The Taxes"

Order was made by the board of commissioners in their meeting here Monday to the effect that all back taxes including 1938 and prior years be collected at once.

The commissioners have made like orders heretofore, but this time they went a step farther, and hired a man to do nothing but collect the delinquent taxes, and clothed him with the power to use such methods as he finds necessary for collection.

Lem Brooks, former tax collector, was named to the delinquent tax collecting post, and will receive 20 per cent of all monies collected as his fees. His duties will include going to every delinquent tax payer in the county, whether the tax be for poll or personal property, and making collections. Instructions were given Mr. Brooks by the commissioners to collect small and large accounts, irrespective of amounts.

It was pointed out by the board in making the order, that around \$100,000 in back taxes is due the county, and taxpayers who have taken care of their obligations are urging that others be made to pay. Added to this, is the fact that the funds are needed by the county.

Mr. Brooks said that he hoped to do the collecting without resorting to levying on personal property and garnishing wages, but that his orders were "Collect the taxes"

Hogs Paid Pat Allison \$1.33 Per Bushel For Corn Used For Feed

(By J. A. Glazener, County Agent)
Pat Allison of the Dunns Rock section has just completed a hog feeding demonstration in which 90 bushels of corn was fed to 10 hogs and brought \$1.33 1-3 per bushel.

Mr. Allison bought 10 shoats for \$42.00, paid \$1.00 to have them hauled home, fed them \$8.00 worth of supplement feed and paid \$5.00 to have them hauled to market. The shoats at the age of 6 months and 19 days weighed 2200 pounds and sold for 8 cents per pound or a total of \$176.00. Total expenses other than corn was \$56.00, leaving \$120.00 for his 90 bushels of Corn or \$1.33 1-3 cents per bushel.

If 40 per cent of the average corn crop produced in Transylvania county were fed to hogs, allowing 15 bushels to produce a 200 pound hog along with supplement feed, and 60 of these 200-pounders were placed in a car this county could produce on the average of 90 cars of hogs annually. A wonderful possibility not developed.
