

### Jail-Breaker Caught Sleeping In His Barn

Law sometimes takes a funny quirk . . . first it puts a man in jail for breaking in, and then they put him back in jail for breaking out.

At least that's what happened in the case of Charlie Pearson. Charged with breaking and entering, Pearson was put in jail. He didn't like it, so with the aid of a hacksaw and file he left the county bastille.

Tuesday night the sheriff and his deputies went to the man's barn, woke him out of his slumber and placed him back in jail . . . this time in a cell where there is no window looking out into the open, and where there will not be such a strong pull for him to get outside.

### Courtesy Arranged In New York By Times

Woodward Associates, Inc., 247 Park Avenue, New York, N. Y., has advised The Times that anyone desiring reasonably priced hotel accommodations during their visit to the New York World's Fair may obtain them by simply telephoning Plaza 8-0020 from 9 a. m. to 5 p. m. (or Chelsea 2-4780 after 5 p. m. and on Saturdays, Sundays and holidays) and giving their name as a subscriber to this paper.

This service is offered solely as a convenience to out-of-towners planning a visit to the Fair, who do not wish to pay the extremely high prices of the larger hotels. There is no charge for this service.

For the most part, accommodations can be had for \$1.50 per day per person. However, if more spacious accommodations are desired, they can be had at slightly higher rates. Children under 12 are provided for at half rates.

If anyone wishes to make reservations in advance, simply write Woodward Associates, giving the price you wish to pay, as well as the date, duration of your planned visit, and the number of persons to be accommodated. Reservations made in this way carry no obligation, but should not be made until plans are definite.

These apartment hotels are located on or near the Hudson River, in excellent residential sections within easy drive or subway distance from the Fair grounds.

### FLY KILLER REALLY DOES THE JOB INTENDED

Bz-z-z pip! B-z-z pip! And modern electrical appliance or machine, or whatever it may be called, snuffed out the lives of two flies, two hundred flies, two thousand, and countless numbers of flies.

The "thing" referred to is an electric fly-killer, and it works. Saw one down at the B&B feed store Tuesday, and the killer machine was taking all sorts of advantages of unsuspecting flies, and killing every one that came its way.

The manufacturers of the new death-machine figured out that live flies are attracted by dead flies, and to add to the massacre they added a place to put sugar syrup or molasses, either of which are surefire attractions for the pests that have been giving people trouble since way back in the days when a horde of the nuisances pestered the Egyptians who wouldn't let Moses and his followers leave bondage.

The Britains didn't know off-hand how much current the machine would use in a month, and they didn't know whether it would eventually kill every fly in town, but they did know, and I could see the fact, that it would kill every fly that came a-flying by.

There have been all kinds of contraptions manufactured ever since there was a man with an inventive mind, some of which killed a few flies, and some of which were to sell to unsuspecting people who knew they were tormented with flies and were willing to try most anything.

Back in the "good old days" when screens were practically unknown, people planted "fly bushes" which did some good; they bought funnel-shaped contraptions that lured the flies inside a wire enclosure, and then singed the whole passel; they tried this and that, with more or less luck . . . but the crowning achievement since folk learned to use screens is the new "electric chair" apparatus.

### Week-End Services

### Woodmen Softballers Take Lead In League With Two Straights

In the local league this week the WOW softball team has taken the lead with two victories against no defeats. Second was the Lions Club with one win to their credit while the College was third with one game in each column. CCC teams P-66 and F-28 have both failed to win games but each has lost one and two games respectively.

Last Thursday's opening game of the second half was forfeited by the College to the Woodmen.

Friday's game, one of the best of the whole year ended a three to one victory for the Lions Club over F-28.

Monday the P-66 team put up a grand fight before succumbing to the superior College hitting power by a score of eight to four. The P-66 team playing their first league game impressed the local fans as having the best infield in the league so far as fielding is concerned this season.

Tuesday the Woodmen downed the F-28 team in a tight six to five game. Three errors in one inning by the CCC team gave the victory to the WOW team.

Batting averages for the first ten men will be published next week as well as the complete schedule.

The schedule through next Thursday is July 13, Lions Club vs College; July 14, P-66 vs WOW; July 17, College vs F-28; July 18, WOW vs Lions Club; July 19, F-28 vs P-66; July 20, College vs WOW.

### Traffic Now Allowed To Use Highway To Hendersonville-Ashe

Traffic is being allowed on the Hendersonville road, Pisgah Forest to Blantyre, although motorists are cautioned to drive slowly.

Ernest Webb, district engineer, said Wednesday that traffic would have to be held up occasionally for as long as 10 to 20 minutes while the matting of stone is being placed over fresh treated spaces. However, he is hoping to be through with the job and out of the way completely within another week.

Detours via Blantyre road and Eto-wah brick mill are still usable, but the heavy rains Sunday morning put these cross-country roads in bad shape while wet, and motorists are advised to use the main U.S. 64 in case there is rainfall.
