## CHARLOTTE CONCERN LOW BIDDER ON P.O.

### Plans for Building Call for County Agent Office and Revenue Collector Space

WASHINGTON, March 27 — The names of the three lowest bidders for the construction of the proposed Post Office for Brevard, (North Carolina), were reported to Federal Works Administrator John M. Carmody by W. E. Reynolds, Commissioner of Public Buildings as follows:

Boyd & Goforth, Inc., Charlotte, North Carolina, \$44,900.00

Hurley Company, Pittsburgh, Pennsylvania, \$48,364.00

Grover H. Ashbrook, Hyattsville, Maryland, \$49,976.000.

Award of contract will be made in the very near future after due consideration by the Board of Awards, Mr. Reynolds said.

Plans and specifications issued by the Public Buildings Administration call for a one story building of contemporary design with an expression of the Colonial to be erected on the northeast corner of Broad and Morgan Streets.

An allotment of \$75,000.00 was made under the Federal Public Buildings Appropriation Act of 1938 to include the purchase of the site, construction and administrative costs.

The design for the new building originated in the Office of the Supervising Architect of the Public Buildings Administration. Exterior walls will be faced with face brick, with stone and wood trim. Cornice, windows, etc., will be of wood.

In keeping with the Colonial elements in the design, the pitched slate roof covering the front portion of the building will be surmounted with a cupola. A flat composition roof with inset skylight will cover work room in the rear.

The graceful approach will be marked with stone steps and platform, metal railings and lamp standards. The charm of the entrance way will be enhanced by the use of wood columns and cornice.

The ample public lobby will be fourteen feet wide and will provide space for five service windows and more than 400 lock boxes. The postmaster's office and work room occupy the balance of the first floor.

On the ground floor postal storage space is provided, as well as office rooms tentatively assigned to the Department of Agriculture Extension Service and the Internal Revenue.

In commenting on the design of the Brevard Post Office, Commissioner Reynolds said, "It is apparent that here is no casual assembly of walls, windows, doors and roof to accord with someone's haphazard opinion of what the building should look like. Rather it is the inevitable product of many controlling factors, chief among which are the practical requirements of the Post Office Department, the convenience of the public, the size and shape of the building site, and the character and tastes of the community."

## FRED JOHNSON HEADS BOARD OF ELECTIONS

### Dates For Filing and Primary Given—No New Registration Be Held In County

Fred Johnson was named chairman of the Transylvania County board of elections Saturday, and C. Y. Patton was named secretary.

The board, comprised of Judge D. L. English and the two above named was sworn in by Clerk of Court Spalding McIntosh.

The board voted to call for a re-listing of the voters in the county instead of a re-registration. The general assembly of 1939 had ordered that one of the methods be used. Transylvania county had set up a registration similar to the one the new law calls for four years ago, it was pointed out by Chairman Johnson.

The board will meet on April 6 to name registrars and judges for the several precincts.

Filing date has been ordered closed by the state board of elections on April 13 for county and township officers. The registration books will open on April 27, and close on May 11.
