REPORTS INDICATE

Senator Otto Alexander Is Chairman; \$200 Is Quota For County

Transylvania county citizens are being given opportunity to contribute to the "Old North State Fund" with which an ambulance airplane will be purchased by North Carolinians for use among British civilians who are undergoing bombings and death-dealing from the German luffwafte.

The ambulance will be used by England exclusively for citizens-aged men, women, and children, and will cost \$75,-000 completely equipped and delivered in London.

Due to the fact that some people have an abhorrence of contributing to a fund which will be used in purchasing materials for warfare, agreement has been reached with the British that the plane will be used exclusively for evacuation of wounded civilians, but will, however, displace an airplane ambulance for use by the army.

Transylvania's quota, as set up by Governor J. M. Broughton and Fred O. Bowman, is \$200, and the committee in charge here expects to have this amount in hand within a week or ten days through voluntary contributions.

Otto Alexander has been named chairman of the Transylvania fund, with C. M. Douglas, S. G. Fisher, Jason Huggins, Ralph R. Fisher, Mrs. Joseph Silversteen, of Brevard; Mrs. Joe E. Osborne of Rosman, and Postmaster Dewey Edwards, of Pisgah Forest, as members, Miss Alma Trowbridge has been named treasurer. Contributions may be left with any member of the committee, or with the treasurer at The Times office.

At the initial meeting of the committee held last Friday night, \$30 was contributed, and amounts ranging from 10-cents up are asked for by the com-

SCOUTS HERE WILL COLLECT ALUMINUM

August 1, 2, Days Set Aside To Make Canvass In Brevard

Details are being worked out here this week and next, according to Dr. E. O. Roland, scoutmaster for Brevard Boy Scout Troop No. 1, for the staging of a drive on August 1 and 2 for old aluminum ware to be collected in the interest of national defense-specifically to garner aluminum for the building of planes. The Boy Scouts in Brevard will make a house to house canvass and ask housewives to donate used aluminum ware which can be spared without replacement. Used pots, pans, and other aluminum utensils will be accepted, but it is emphasized that no pieces be given which will have to be replaced.

The drive here for aluminum is a part | open to the free use of visitors and resiof a nationwide collection in which it is estimated enough old aluminum will be obtained to build at least 2,000 planes. However, the drive here is being staged later than others throughout this state and the nation. The days of July 24 and 25 had been set aside as the time for the drive, but Dr. Roland said it would be inconvenient for the local scouts to

make the canvass on those days. Further information on the drive will

be given next week.
