

Pisgah Forest Memorial Gateway Be Dedicated Here Sunday, Aug. 3rd

Noted Persons Expected To Be Present For Dedication Ceremony

Memorial Gateway to Pisgah National Forest, two miles from Brevard, will be dedicated Sunday afternoon, August 3, at 2:30 o'clock.

Noted national and state leaders of importance have signified their intention of attending the dedication ceremony, and complete arrangements are being worked out by the Chamber of Commerce this week.

Workers from the forest service and the CCC are completing the gateway this week, and arranging for the unveiling. Speakers platform, seats for those in attendance, hand stand, and sound amplifying system are being installed.

The Chamber of Commerce is issuing a general invitation to all people of this section to attend.

The original memorial was erected in 1920, soon after the close of World War I, in memory of the Transylvania soldiers who gave their lives in the 1917-18 conflict.

A bronze tablet was placed on the original archway-memorial, reading: "In loving memory of those who made the supreme sacrifice for their country—D. Monroe Wilson (for whom the local post of American Legion is named), Boyd Wiley Ross, Thomas Jose Turner, Brance Lorenzo Glazener, Ellis Freeman Barton, Scott Doggin, Buford Raines. This tablet was given by the National League for the Women's Service." It is given a prominent place on the new Memorial.

Another bronze plate honors Dr. C. W. Hunt, for years one of Brevard's outstanding physicians, and who was leader of the movement to secure funds and cause erection of the memorial. The Dr. Hunt plaque was given by Brevard Betterment Association, Dr. Hugh R. Walker, late Brevard druggist, served as chief committeeman for Dr. Hunt in the raising of funds, along with numerous other individuals throughout the county.

Drawing for the old memorial archway was made by the late W. Hume Harris, Brevard contractor, and work on the monument itself was donated by half hundred or more citizens, some gathering stone, hauling, and other labor incident to erection of the archway, a part of which went into construction of the new entrance portals.

Total cost of the structure erected in 1920, was \$3,000, and subscription list to the cost contained several thousand names. School children of the county made contributions—many of them only being able to give one penny each.

The archway was dedicated in August of 1920, and many notables from North and South Carolina were present for the event.

ABOUT COUNTRY CORRESPONDENCE

The Times Will Carry Name of Correspondents Over News In Future

Have you noticed any difference in the heading of the correspondence in The Times from the various sections and townships? Possibly, you have overlooked the news from your section because of the change.

Until recently it was the policy of The Times to run the country correspondence under the heading of "Quebec News", or whatever section it came from. But to make the news have a more universal appeal, the correspondents have been placing the most important news item in the first paragraph and a streamlined heading placed over it, giving the name of the community.

This week another change is being made in that the correspondents' names are listed above the news items. We hope this new set-up will meet with the approval of all the readers of The Times.

Miss Mary Catherine Holt, of Graham, is visiting her sister, Mrs. Roy Long, and brother, Dr. Fred Holt, and Mrs. Holt.

Plans for the drive were outlined by the Transylvania County Agricultural Workers Council at a special meeting, and to cooperate in the drive are the Agricultural Extension Service, the county Vocational Agricultural teachers, the Farm Security Administration, the Agricultural Adjustment Administration, the county Grange, and Brevard Boy Scout Troop No. 1. Dr. E. O. Roland, scoutmaster for Troop No. 1, was named chairman of the collection drive in the town of Brevard, while Edwin L. Shore, assistant county farm agent, was placed in charge of collection of the aluminum ware in the rural areas. J. A. Glazener, county farm agent, was named chairman for the entire county. GERMANS ARE ON DRIVE TO SEIZE RUSSIAN CAPITAL

Soviet Communiqué Reports Only Few Planes Get Through Defense

Scores of persons were killed and wounded, and several houses, a hospital, and a school were heavily damaged when a strong force of German bombers attacked the Soviet capital Tuesday night for the second night in succession, it was reported on Wednesday.

A Soviet communiqué said only isolated planes of the 150 taking part broke through the city's defenses. At least 15 German planes were shot down as the Russian ground batteries lifted a terrific barrage and Soviet pursuit fighters tangled with the Germans in dogfights over the Kremlin.

German shock troops charging forward with flame-throwers and hand grenades were reported to have taken key Russian defense positions at Pototsk in the drive toward Moscow, itself battered by the first mass German air raid.

The break-through on the northern wing of the central front was declared to have come after a two-day battle in which tens of thousands of Russians were killed or wounded. German accounts said it permitted an infantry advance on a broad front. The battle was reported by the official German news agency D.N.B. as Germans heard details of the Luftwaffe assault upon the Red capital, where many fires were said to have been set and important buildings destroyed.

British bombers sweeping almost unhindered over Northern France attacked shipbuilding yards near the mouth of the Seine river and their escorting Polish fighters shot down four Nazi planes. British fighter pilots said two large flights of Messerschmitts encountered over France veered away and refused to give battle.

From Vichy in unoccupied France, came reports that negotiations on French-Indo China were in progress with the Tokyo government, indicating a general belief that the latter had presented sweeping demands for economic and military concessions.
