

"NAVY INTELLIGENCE"

- Q. What happens if a sailor in the U. S. Navy gets sick?
- A. There is a dispensary at every station manned by Medical Officers who give complete and efficient aid to anyone who is feeling ill.
- Q. Is there any insurance available to sailors in the United States Navy?
- A. Yes, Government insurance policies up to \$10,000 are available to enlisted men.
- Q. How does the U. S. Navy and the Naval Reserve decide what type of work a recruit is best fitted for?
- A. Before being assigned to duties, recruits are given the O'Rourke Classification Test which reveals their individual talents.
- Q. Who are the Staff Officers in the U. S. Navy?
- A. There are four staff officer corps in the Navy. They are: Medical Officers, Dental Officers, Supply Officers and Chaplains.
- Q. Is there such a thing as shore duty in the Navy?
- A. Yes, but in most instances men are

- not assigned to shore duty unless they have been in the Service for six (6) years.
- Q. What is the "Medal of Honor" that is given to sailors in the U. S. Navy?
- A. It is the highest individual award an enlisted man can receive. It is awarded by the President of the United States to the man who, in action involving actual conflict with the enemy, distinguishes himself conspicuously by gallantry and intrepidity at the risk of his own life.
- Q. If I have some specialized training must I serve as an apprentice seaman if I enlist in the U. S. Naval Reserve?
- A. No. Any man with previous specialized training will be enlisted in the Special Naval Reserve Class and will receive petty officer's rating and pay.
- Q. Do seamen in the U. S. Naval Reserve receive the same pay as the seamen in the regular Navy?
- A. Yes, the men in the Naval Reserve receive the same pay, food, entertainment, free medical and dental care, have the same opportunities for advancement and for training in skilled jobs as the seamen in the regular Navy.
- Q. Does the sailor in the U. S. Naval Reserve wear a different uniform from that worn by regular Navy sailors?
- A. No, there is no difference in the uniform worn by the Naval Reservists and that worn by the regular Navy seamen.
- Q. What are P. T. boats?
- A. P. T. designates the new type motor torpedo boats built in three experimental sizes, 59 feet, 81 feet, and 110 feet. These boats are capable of speeds in excess of 50 miles per hour and carry two or more torpedo tubes, depth charges, smoke-screen apparatus, and rapid fire anti-aircraft guns. These boats have not yet been incorporated into the fighting fleet in any great number.

RADIOS NEED INSPECTION TOO!

EVERY SIX MONTHS

Poor radio reception may be caused by a tube that has passed its peak... a loose wire... a dusty socket. Whatever it may be, only complete, experienced inspection will find the trouble. If six months have passed since your radio was serviced, it should be thoroughly inspected at once. The results will surprise you. Phone us today.

Defense Stamp Sales Advance In September

WASHINGTON. — Sales of defense savings stamps set a record of \$4,978,000 in September when they were placed on sale generally, for the first time in retail stores.

The treasury said the sales were \$500,000 more than in August. This represented, in stamps, an increase of 2,942,000 over August, since the bulk of the sales are in 10 and 25-cent denominations.

As in previous months 25-cent stamps led in sales with 11,840,000 stamps. Dime stamps were next with 3,951,000, 50-cent stamps numbered 1,264,000, dollar stamps were 659,000, and five-dollar stamps sold numbered 66,000.

Altogether, since the stamps were first placed on sale on May 1, sales through the end of September totaled 61,855,000 costing \$18,998,000.

The September increase in stamps sales, attributed to the new retail drive, contrasted with a slight decline in September sales of defense savings bonds, which are sold almost exclusively thru banks and postoffices.

DEFENSE BOND QUIZ

- Q. Just what is inflation and how can it be minimized?
- A. Inflation is a decrease in the buying power of the dollar caused by a rising cost of living. This, in turn, is brought about by a heavy public demand, resulting from a rapid increase in the national income, for things which cannot be produced in large enough quantities. Every citizen can help minimize inflation by buying Defense Bonds and Stamps.
- Q. How can I get cash for my Defense Savings Stamps if I should need to redeem them?
- A. Go to any post office.

NOTE.—To buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the Treasurer of the United States, Washington, D. C. Also Stamps now are on sale at retail stores.

FARM QUESTIONS AND ANSWERS

- Q. What are recommended rates of fertilizer application for small grains?
- A. W. H. Rankin, Experiment Station agronomist, points out that fertilizers are just as much a part of small grain production as for cotton and tobacco, although applications are not as heavy. Complete fertilizers such as a 4-10-6 on the average soil following row crops and 2-10-6 or 2-12-6 for soils where a good legume sod has been returned are recommended. Fertilization will depend somewhat upon local conditions, but 200 to 400 pounds of the above mixtures give desired results.
- Q. What economies can the poultryman make in the face of rising feed prices?
- A. Roy S. Dearstyne, head of the State College Poultry Department, says there is a solution to this problem in careful culling. The lazy hens will consume about 7 1/2 pounds of feed each month and give little in return. These birds are "boarders" and a walking deficit to the industry. Eliminating them from a flock is one of the most profitable things a poultryman can do.
- Q. Is it true that certain winter cover crop seed are no longer available through the AAA grant-of-aid plan?
- A. E. Y. Floyd, AAA executive assistant, says no more Austrian winter pea, hairy vetch, or Italian rye grass seed will be available under the 1941 AAA program as grant-of-aid materials. In explaining, he points out that weather conditions in producing areas were such that when these seed were harvested, the crop was considerably below what has been expected. The Government is now making plans to avoid a similar shortage in 1942.

Radio Beacons Guide Interceptor Planes

Across the continent from Newfoundland to Alaska the Canadian government is building an aerial military "highway", a chain of radio beacons 250 miles apart to guide bombers or fighters or interceptor planes crossing America in an emergency.

The senior class of Brevard high school held its first meeting of the year on Thursday, October 9, during activity period. The following officers were elected for the 1941-42 school term: Richard Franklin, president; Frankie Moore, vice-president; Betty Aycock, secretary; Carl Scruggs, treasurer.

ASSEMBLY PROGRAMS FEATURE AMATEUR HOURS

On Monday, Oct. 13, the 9th grade boys under the direction of Mr. Wike, gave an amateur hour for their program. The devotional was read by Gene Franklin, who also announced the program. The first numbers on the program were solos by Henry McDonald and Bobby Norwood on piano and cornet. Then a string band composed of A. J.

Parker, John Bradley, and Frank Rhodes played several numbers with vocals by Frank. A Harlem swing quartet composed of Franklin Kerber, Bruce Glazener, George Simpson, and Buddy Melton pretended to play and sing while the music came from a phonograph record.—Irma Rahn.

On Wednesday Mrs. Wike's 8th grade girls gave a program similar to an amateur hour. Betty Cray and Patricia Austin gave piano solos; Catherine Auville gave a violin solo; Ruby Byas and Vera Lee Dellinger sang "Juanita"; and Jane Hill and Ruby Byas tap-danced. Dot Galloway acted the part of four different students giving recitations.—Ben Thomason.

[B.H.S.] HERE AND THERE

By Frances Walker
Everybody's wondering what is the matter with the home ec girls' eyes. I think I have solved the problem. It's Miss Duckett's diamond that she's flashing around on the third finger of her left hand.

Too bad that nice new romance had such a short life. I'm speaking of the rush Ted M. gave Connie P., but matters have been so bad that no one has been able to get the particulars.

The newest of new romances seems to be Ruby E. and Doug W. Notes seem to be as far as they have gotten, yet—just give 'em time.

Several years ago the existence of a "man hater" was not at all unusual. But today they are as hard to find as gentlemen. But I've discovered one—Corrie L. Garren. Can you imagine????

Verena L. seems to definitely need a little help in telling Jack F. something. When she tries to tell him it just won't come out. Maybe by the time you read this she has succeeded. At least we hope so.

It seems the reason for "Nita" G.'s disliking Bill E. so much is because of something he said. Shame on you, Bill. Some of the "quaziest" people around here. Have you heard any that were better than "Rolo" and "Witchie"? Those are Ruby E.'s and Betty A.'s. Gorsh!!

I feel sorry for "Dick" Franklin. He has a time since he's manager of the "Hole in the Wall". During the last few weeks the store has been a loafing place for scads and scads of students. If you're looking for some one and can't find him (or her) they're bound to be at the store.

"Marg" G. really has got a problem on her hands. The reason is that Lonnie J. seems to take to the younger girls that—well, anyway, "Marg" would have to cut her dresses off a few inches.

Blind dates aren't so bad after all, are they, Eleanor? Especially when they are in a Clemson uniform. How about it, Poodee?

I wonder if David D. has received any more fourteen word letters from that Georgia "cracker". Yes, I did say "cracker". Things do get around, don't they, especially mail—

Jean H. either doesn't have the patience or what it takes. About the time she gets a boy where she wants him she decided it isn't worth it. Could I be referring to a certain senior? Could be!
