16 Transylvania Men And Women Arrested In Liquor Raids To Be Tried In Nov.

Big "Round-Up" Made by Federal Men Last Wednesday Night

NOW OUT ON BONDS

The sixteen Transylvania county men and women who were arrested during an all-night "round-up" last Wednesday night by federal tax men and revenue department representatives from Asheville and Charlotte on charges of retailing non-tax-paid liquor are slated for trial in the federal court at Asheville the second week in November, it was learned yesterday.

Practically all of the defendants have raised bonds and are now out of jail awaiting trial, it is reported.

While the federal officers, with the aid of local forces, "rounded up" the defendants last Wednesday night, U. S. Commissioner Alex Kizer kept his office open all night to hold hearings and fix the amounts of bonds. All of those who appeared before him on Wednesday night and Thursday morning waived hearings. The bonds ranged in amounts from \$100 to \$1000.

Hearings for four more defendants were held here Monday afternoon. Miss Effie Butler and Mrs. Ola Cantrell, of near Rosman, were placed under \$300 bonds and bonds for Mr. and Mrs. Edmond Chapman, of near Cedar Mountain, were fixed at the same amounts.

All sections of the county were visited by the federal men and local officers who gave full co-operation. Approximately 15 gallons of non-tax paid moonshine liquor were brought in along with the alleged retail salesmen and saleswomen.

The prior investigations were made during the past two weeks by representatives of the alcohol tax unit and warrants were sworn out by deputies from the U. S.

Brevard College Opens With An Enrollment Around 300; Classes Start This Morning

Faculty Meeting Held Last Saturday. Plans Are Made For Year

Early this week saw the opening of the ninth year of Brevard College when approximately 175 freshmen and nearly 100 sophomores came on the campus to begin their studies for the 1942-43 college term. The first three days of the week have been spent in carrying out an orientation program for the freshmen and in registering and classifying returning sophomores.

Exact figures on this year's enrollment were not available late Wednesday, but Dr. E. J. Coltrane, president of the college, said that as many, if not more, students would be registered this year than there were last year.

"We anticipated a reduction in male enrollment," Dr. Coltrane said, "but with 39 C. P. T. students now at the college, we have about the same number of boys as we do girls. Over half the 100 counties in the state are represented here at the college as well as several adjoining states."

Classes are scheduled to begin this morning. Nineteen of the CPT students are now completing their work and twenty new students have already begun their courses, Grady W. Campbell, head of the industrial department announced.

Davidson River Day To Be Held Sunday

The annual observance of Davidson River day will be held at the Old Davidson River church near Pisgah Forest, Sunday, September 27th. The services, with usual picnic dinner, have been a custom for generations.

The Old Davidson River church was organized in 1800, some 142 years ago. For years it had previously been a preaching point of the Swannanoa church, then known as Piney Grove church.

The Brevard church was cut off from Davidson River in 1891, and forty years later the two churches were merged under the name of Brevard-Davidson River. The clerk has the sessional records since June 1828, and there are fragmentary records, in Presbyterian and Synodical reports dating back to 1800. Transportation will be provided for those who will be the the Brevard church Sunday morning at 10:40.

PATROL TO REPORT MOTORISTS DRIVING OVER 40 PER HOUR

List To Be Sent To APO And Will Be Used By All Rationing Boards

All motor vehicles traveling over 40 miles an hour will be reported to the OPA, Patrolman Morrow announced this week following the receipt of instructions from Raleigh.

The order applies to buses, trucks and automobiles alike, he said. The Patrolmen have been instructed to take the license numbers of all motorists driving over 40 miles an hour and send them to the OPA.

The Office of Price Administration in Washington is studying a plan to take away gasoline ration cards of speeders.

A story out of Raleigh yesterday stated that "more than 300 reports of tire abuse by high speed and otherwise have already been received by the state OPA rationing chief from highway patrolmen. "Patrolmen literally flooded OPA with reports, Morrow said today. He added that the violations were all of a "serious nature" and that persons who were reported by the patrol would be reported to local ration boards and the information would be used to enforce better care of tires as well as prohibit the releasing of new tires or recaps to those caught abusing them."

EVERY PERSON IN COUNTY IS URGED TO AID IN DRIVE

All Small Quantities Of Scrap To Be Brought To Brevard. Three Centers

NEED IS VERY GREAT

Brevard and Transylvania county Junk Rally Day will be held this Saturday at the request of the War Production Board and every person in the county is urged to cooperate, members of the county salvage committee state.

Every man, woman and child is asked to gather up scrap metal and rubber and if the quantities are too small to warrant having a WPA truck sent to make collection, the individuals are requested to bring the junk to one of the collection centers here Saturday.

These collection centers are: McCrary's Auto service, Tinsley's and Gibb's service stations.

Those who have large quantities and want a WPA truck to pick up the scrap are asked to notify the farm agent's office or the Chairman Howard Wyatt at the city hall.

All junk that is brought in Saturday can be sold or contributed by the various individuals. If contributed, the money received from the sale will be turned over to some charitable organization.

A total of 350,000 pounds of scrap have been collected in the county since the renewed drive was launched in July. The present goal is 400,000 pounds and the co-operation of all persons, as well as organizations, is urgently sought.

"There seems to be no question but that the length of the war may be determined by the quantity of scrap which is collected within the next few weeks or months," it is stated. "Already our war production mills are closing down because of lack of scrap."
