# Brevard College May Get 200-Man Army Aviation Training Unit

### **APPLICATION MAY** RECEIVE FINAL APPROVAL SOON

If Approved 200 Men Will Be Sent In April For Five Months Training

WENT TO WASHINGTON

Serious consideration is now being given to Brevard College's application for a 200-man army flight training unit and if a favorable report is made following an inspection, the students will probably arrive here on Monday, April

President E. J. Coltrane and Publisher Ed M. Anderson went to Washington last Thursday and placed the 'institution's application before the joint committee for the selection of non-federal educational institutions for utilization by the War and Navy depart-

Congressmen Zeb Weaver and Bob (Farmer) Doughton and Senator Reynolds assisted them in giving the committee vital information concerning the college's facilities and in urging approval of the application.

It was pointed out that since It was pointed out that since Brevard College is a co-educational RED CROSS WAR institution, a large number of the men students have been drafted and that its facilities are adequate to give specialized training to at least 200 army or navy men.

Those interested in the college's application also stressed the fact that Brevard College is one of the largest junior colleges in the south, that it is the only college owned and operated by the Western North Carolina Methodist conference and that to date none of the 10 schools in Western North Transylvania chapter was \$365.58 Carolina have been approved for short of the goal set for the counspecialized training

County Has 925 Farmers. To Have Over 16,000 Acres In Croplands

FIGURES ARE GIVEN

In answer to Uncle Sam's call for food and feed for Victory, the farmers of Transylvania county, 925 in all, are going to increase production this year and break all former records in spite of labor, material and other difficulties, a summary of 1943 farm surveys made in the county recently by members of the AAA committees, reveals.

A total of 16,052 acres of cropland in the county, an increase over last year of nearly 1,500 acres, will be the battleground.

443 Acres of Soybeans The survey shows that 443 acres will be planted in soybeans and 89 acres in potatoes for marketing. A total of 1,264 acres will be

planted in oats, barley, rye and

other small grains. Figures indi-

cate that the farmers intend to double their production of rye. The intended hay crop acreage is 2,508, non-commercial corn, 6,-570 acres and 171 acres in non-

commercial potatoes. To Double Chicken Raising It is significant to note that the farmers expressed intentions of nearly doubling the raising of chickens this year. Around 52-600 Vere raised in 1942 and the

estimate for this year is 82,383. Under livestock the farmer's intend to raise more cattle and calves, more cows, more sheep and more hens.

Estimates for various crops, as gathered in the survey, include: Oats, 117 acres; barley, 75 acres; rye, 906 acres; alfalfa and clover, 807 acres, lespedeza, 372; Summer legumes 406; other tame hay, 923; sorghum 7; wheat 15, etc.
