For both of these picnics the students brought ration stamps and money. The transportation was furnished by cars. Both were strictly war time picnics.

Electric insulating tape made of woven cellulose acetate has demonstrated marked superiority over some tapes previously used.

### FAREWELL

By Vivian Smith  
Now the year is over,  
The end is drawing nigh,  
Memories of the by-gone years,  
Twinkle in the eye.

Pupil, teachers, everyone dear,  
Are leaving school without a tear.  
Some are glad, some have sorrow,  
Some look forward to tomorrow.

Farewell, schoolmates, until next year,  
And to the seniors, we'll say good-bye.  
Farewell to all you teachers dear (?)  
Hoping to see you again next year.

### UNTIL WE MEET AGAIN

We, the staff of this column, as the school year, '42-'43, draws to a close, wish to express to all our student readers and alumnus readers, the world over, our enjoyment in the past year of gathering and reporting B.H.S. news and of commenting on current topics. By wading through our faulty composition, corny attempts at humor, and rumored gossip, you have perhaps been able to get a general idea of the year's school activities. But, until there's more news to report and gossip to rumormongers at Brevard high, farewell, from the staff, and thanks to The Times for the space given.

### HOME ECONOMICS LUNCHEON AND TEA SUCCESSFUL

The Home Economics girls, under direction of Miss Whitesides, entertained at a tea Thursday afternoon for several members of the faculty. The tea was voted a great success by those present.

Friday at 12:15, the girls gave a luncheon, which was an equal success. The guests present were several members of the faculty, including Mr. and Mrs. Kimzey, also several senior boys were entertained at a similar luncheon given by the girls. These luncheons and the tea are just examples of the progress these girls have made since the beginning of the year.

### HERE AND THERE

Here's to all the Seniors and we Juniors wish them all the luck in their future years.

We hope that Scruggs-Patton romance will last forever. May they keep up their good work and much success to both of them in their future years.

Although the McGuire-Misenheimer romance was a little late in the year getting started, everyone thinks it will last.

"Flash" H. seems to be the big-

gest sucker after all. It seems that he has been falling down on the job and letting a certain boy beat his time with that Asheville girl. "Flash," why don't you wake up and find out these things. Is he from Brevard or Asheville???

That is the question!!!!  
We just can't figure out how Bob K. will get along next year without "Rosie" D. Oh, well, Bob you might find someone else anyway. At least, that's the way things look.

"Boozie" T. will be leaving B. H. S. this year and everyone is wondering who Dot G. will take under her "wing" next year!!!

We all hope that Bob B. will actually forget his bashfulness by next year. Not mentioning any

names concerning who does all of this hoping, but everyone wonders what the Redden sisters have their frequent fights about?

And now to all those in love, and all who are trying to hook somebody we wish them all the luck in the world. Of course every year there is always a group of students who graduate and won't be back, but the dear (?) old Here and There is everlasting—at least we hope so!!!!

### CARD OF THANKS

We wish to thank each and every one of our many friends for their kindness and sympathy shown during the illness and death of our precious little one.

# SHOES ARE RATIONED!

MAKE 'EM LAST

Remember...

Be sure your match is out

Crush out your cigarette

Never burn brush on a windy day

...and we must  
MAKE OUR FORESTS LAST, TOO!

Wood is necessary for war weapons. In war and in peace we must have forest products. We cannot afford to waste our timber. A burning match, a glowing cigarette, a smoldering campfire can be as disastrous to our forests as an incendiary bomb.

Our country is in greater danger today than ever before. So are our Forests. Keeping fire out of the woods is vital to Victory.

DO YOUR PART—HELP PREVENT FOREST FIRES

Today our Industries are working day and night making leather and cutting and sawing lumber for the war effort. Never before have our products been needed so badly by our government. We urge that you be careful and prevent forest fires from getting started. Remember the catastrophies of last spring, in fact a year ago. Our nation's life is at stake. Do your part!
