Better Bus Service To Hendersonville Being Sought

COMMITTEE IS NAMED TO SEE GREYHOUND LINE

Chamber Of Commerce Office To Be Opened June 1. Airport Is Needed

Reports submitted at the monthly meeting of the Chamber of Commerce here Tuesday night indicated that the tourist season this year will be good in Brevard and Transylvania county despite war conditions.

It was pointed out, however, that most of the tourists will have to come here by bus this season and that the bus service to Hendersonville in particular should be improved. At the present time there are only two arrivals and departures daily from here to Hendersonville and the directors were firm in their belief that at least one or two more round trips daily should be added, especially during the spring and summer season. Most of the people from the south come to Hendersonville by train and a better service should be provided.

A committee composed of Bryan Shiflet, S. E. Varner and Ed Anderson, was appointed to contact Greyhound officials and urge that an improved schedule be worked out immediately.

The Chamber of Commerce office will be opened here at the city hall the first of June with Mrs. Ralph Fisher, secretary, in charge.

It was further noted that a large quantity of literature would be mailed out to all prospective persons.

At the suggestion of Ralph Fisher, a committee was named to investigate the possibilities of establishing an airport near Brevard. Such an airport would help the college with its aviation program and would also assure future.

CHURCHILL IS IN WASHINGTON

May Be Mapping Plans For Invasion Of Europe. Win In Africa

Arrival in Washington Tuesday night of Prime Minister Winston Churchill, accompanied by a staff of military and naval experts, immediately after the sweeping allied victories in Africa caused conjecture that the British statesman and President Roosevelt would formulate without delay plans for an invasion of Europe, where, according to reports emanating from Denmark, revolt against the Axis is soaring.

The White House withheld specific details regarding the purpose of Mr. Churchill's visit which will make possible his fourth conference with Mr. Roosevelt since the United States entered the war. At their own conference in Casablanca last January the President and Mr. Churchill charted plans for invading Europe and announced their determination to force "unconditional surrender" on the Axis. The current parley was expected to reinforce that resolve.

Classified Ads In Times Get Results

The classified advertising columns of The Times not only get results, but they also accomplish the impossible, according to F. Henderson, well known Transylvania man.

"I needed a washing machine and everybody told me that it would be impossible to find one in the county," Mr. Henderson explained.

"I had about given up all hope when I decided to run an ad in The Times. A few days after the ad appeared, I bought a machine that was just what I wanted and a few days later the ad brought another offer.

"So I can say with knowledge, it really pays to advertise in The Times," he declared.

Legionnaires Give Kits To Service Men

One of the finest projects sponsored by the Monroe Wilson post of the American Legion is the "kits-to-men-leaving-for-service" project. Shown above are members of the Post's special committee, Chief Freeman, Dr. Carl Hardin and Howard Wyatt, giving kits to a group of young men who left a short time ago. The Women's Civic club co-operates with the Legion in this project by making the kits. Commander William Wallis states that funds for this worthy project are about exhausted and requests all Legionnaires to make contributions at once. The kits contain several useful articles. Approximately \$160.00 have been contributed to date toward the Easter seal sale for crippled children, it was announced yesterday by Donald Lee Moore, treasurer of the drive for Transylvania county.

The county's quota of \$300 for this cause was not reached, but it is expected that additional donations of one dollar or more for the little seals mailed out will continue to be sent in to the treasurer or to the chairman, Jerry Jerome, since there is still time for the receipt of more money before the final amount is sent in to headquarters, Mr. Moore stated.
