

Success Of Food For Freedom Campaign Depends Now On **Weeding & Canning**

The More You Can—
The More Stamps Saved!

The success of the Food-for-Freedom program is certainly dependent upon CANNING.

After all it's not so much how much you eat out of your garden this summer that counts, but how much you can for winter and next spring use.

A series of canning demonstrations have been held all over the county under the direction of our Home Agent and we urge that you practice what you have learned . . . CAN . . . CAN . . . CAN!!

We've Had Lots Of Rain And
You Should
"WEED TO REAP"

As every good gardener knows, weeds and grass must be kept out of gardens, otherwise there will be Plenty of Weeds and Less Food.

Like a soldier on the battlefield, fight those weeds every day. Don't let them get a foothold. They are dangerous, just like the Japs and Germans.

Raising a successful Victory Garden or more Food on the farm is as important as winning battles on the battlefield. We must, our boys must and our allies must have food.

Push the Victory Garden Program . . . Plant other things according to schedule.
