and made the few lights in the town that were left burning very prominent. Most of these were residential lights and one or two business lights were due to owners having left lights burning during their absence with no chance for the wardens to cut them off.

NEW "PAY-AS"

keep that receipt. It is your evidence of tax paid.

Many persons have gotten the idea that starting July 1 the bill provides that 20 percent will be deducted from the total amount of wages and salaries.

This is not true. The same personal exemptions as provided in the regular Federal income tax law apply. The withholding tax also includes Victory tax deductions. In other words the two have been merged into one.

Here's how the tax will be deducted: On a weekly payroll basis, every single person will be allowed an exemption of \$12 per week; married persons claiming whole of personal exemption, \$24 and each

dependent other than wife \$6.

For example: a single person making \$20.00 per week with no dependents will have deducted 20 percent of \$8.00, or \$1.60. A married person making \$35.00 per week and having one dependent will have an exemption of \$30.00 and 20 percent of the remaining \$5.00 taxable amount of \$1.00 will be deducted.

Slips showing the family status must be filled out and turned in to the employer by each employee.

A complete schedule will be published in next week's paper. No deductions are to be made from this week's payrolls.

The Agricultural Appropriation Bill for 1944, passed by the Senate on June 11, increased the Federal Office item by \$50,000 for improving cotton quality through improved handling and ginning.
