BREVARD NOW HAS RED CROSS WORKER IN NORTH AFRICA

Miss Emma M. Deavor Arrived Safely And Will Work In Area

Emma M. Deavor, American Red Cross staff assistant whose safe arrival in North Africa was announced today, is a former resident of Brevard. She graduated from Brevard high school and Brevard College. Subsequently she became a teacher at Hoyle's secretarial school, Raleigh, N. C. She worked also as a secretary in the home office of the Durham Life Insurance Company and prior to going overseas she was assistant supervisor of correspondence in the promotion section, Officers Branch, Adjutant Generals Bureau, Washington, D. C.

Two other North Carolinians and several from the nation also arrived in North Africa with Miss Deavor. They will work in hospitals and in metropolitan centers of the war area. The Red Cross already has a large staff there. She is the daughter of the late Mr. and Mrs. J. P. Deavor, of Brevard.

Brevard Girl Scouts Enjoy Week At Camp

Forty-three Girl Scouts returned to their homes in Brevard last Sunday afternoon, after a week spent at Camp Illahee in a varied program of enjoyable activities.

Among the camp activities of the week were included: swimming twice daily, canoeing in the evenings, horseback riding every other day, arts and crafts, games and singing, square dance Saturday night, mid-summer festival with Indian and Norwegian folk dances, stories, songs and games, campfire one evening, picnic supper and hike, movies at Illahee one evening, Scout service Sunday, and a talk by Mrs. Frank Frost.

The week's camp was made possible for the girls through a recent drive for funds made by the Girl Scout council, and through part payment of camp fees by each girl. Mrs. Nathan McMinn, leader of the Brownies, accompanied the girls to Illahee for the week.

Three Ecusta Victory Gardeners Are Hard At Work

Following Uncle Sam's timely suggestion of "Weed 'Em and Reap," shown above are three of the star gardeners patriotically working like real farmers. The man with the hoe is Bob Kappers. Pushing with the plow in the center is Walter Straus and pulling up weeds with his hands the left is Dr. Ward Harrison. This trio has one of the finest gardens at Ecusta and they really deserve to have this honor. Their firm is known as the Straus-Kappers-Harrison Garden Syndicate, Inc., and none of the officers are "bosses"—they are all workers!—(Cut Courtesy of Echo.)

Edna Earle Nanney Elected President Of Ecusta's Chorus

Edna Earle Nanney was elected president of Ecusta Chorus at an organization meeting held during rehearsal of the Chorus, Wednesday night, June 23rd. Other officers elected were as follows, Leon English, vice president, and Lucille Roberts, secretary-treasurer.

An executive committee was set up which included in addition to the newly elected officers, Howard Wilkie, Odell Scott, Gerald Gosse and Mary Sue Thorne, committee members and John Eversman, director and Mary Glass accompanist.

It was decided at this meeting that regular rehearsals would be held each week on Wednesday evenings. All employees of Ecusta are welcome.

Some Fathers Will Be Called For Service Before Supply Of Single & Childless Married Men Is Used

Fathers In Non-Deferrable Or Non-Essential Jobs May Be Called

RALEIGH, June 30 — While it is true that fathers generally will not be called for military service until the supply of single and childless married men is exhausted, there are three exceptions to that policy, it was pointed out today by General J. Van B. Metts, state director of selective service.

The exceptions are:

1. Men who have become fathers since September 14, 1942.
2. Registrants engaged in non-deferrable activities or occupations. The War Manpower Commission has designated certain activities and occupations as non-deferrable, General Metts explained, and fathers in these non-deferrable activities and occupations may be classified as 1-A and selected for service.
3. Registrants who have been classified as essential farmers, but who have left the farms on which they were found to be essential without first obtaining permission of their local boards to do so.

Men in the last two groups are subject to selection for service, regardless of number of children or the dates of their birth, General Metts said.

HAS A SIX-PAGE SECTION IN THE STATE MAGAZINE

Features 3,000-Word Illustrated Article Written By Ed M. Anderson

Transylvania county recently received some fine state-wide publicity through THE STATE magazine.

This interesting publication, which has a large circulation, carried a six-page section on the county, featuring a 3,000 word article, pictures and advertisements.

The article was written by Ed Anderson and is being reprinted below. It was entitled "What Industry Has Done in the Development and Progress of Transylvania County." Here it is:

Transylvania county is one of the foremost industrial counties in Western North Carolina and its industries, as well as everything else in the county, have really gone to war.

For many years, Transylvania has been noted as a tourist and educational center, as a mecca for boy and girl summer camps, as a leading agricultural and lumbering section and as a paradise for hunting and fishing.

But today Transylvania is highly industrialized and these industries are contributing a great deal to the nation's total war effort.

Men in uniforms are wearing shoes manufactured from leather made in the county. They are piloting planes and ships made of lumber from its forests and sawmills. They are wearing clothes woven from thread that was spun in Transylvania. They are smoking cigarettes whose paper was made in Transylvania and pipes that were cut out of ivy and laurel burls in the county. Many of the nation's women in uniforms are wearing hose manufactured in Transylvania!

So there they are—leather, lumber, thread, cigarette paper, pipes —Turn To Page Fifteen
