TOWN'S TAX RATE EXPECTED TO BE SAME THIS YEAR **Budget Estimate Submitted**

By Alex Kizer Is **Nearly Same**

A budget estimate for the town of Brevard for the new fiscal year, as presented to the board of aldermen Tuesday night by Clerk Alex same income and expenditure as of last year, with the tax rate to remain \$1.45.

The budget estimate was tentatively approved and will be sent to Local Government officials for their okey before its final adoption here the latter part of this month. A summary of it will also be published in next week's issue of this paper.

In submitting the estimate, Mr. Kizer reported that the town had more than operated within the provisions of the budget estimate during the past year. "In fact we saved about 15 percent,' he said and emphasized the fact that the On the contrary, the nearer you town is running on an economy

FARMERS REPAIR **FARM MACHINERY** AT FREE SCHOOL

Old Equipment Restored To Use. School To Last Four More Saturdays

Several farmers have already found that it really pays to attend the free farm machinery school that is being conducted each Saturday afternoon at the vocational department of the Rosman high school, according to Supervisor R. Lawrence.

An old potato digger belonging to Ernest Paxton was repaired and has been sold. Buck Owen, of Balsam Grove, restored to active use a mower which he bought many years ago. These two pieces SGT. ROBERT L. OATES, son of farm equipment, which are now hard to get, will be used to help in the war effort.

The school will last for four more Saturdays and all farmers are invited to attend and to take old tools or machinery there for repairs.

The department is well equipped and has both electric and acetylene welding equipment and a complete blacksmith outfit.
