**YOUR DRUG STORE BACKS UP YOUR DOCTOR**

Nothing; no one, can take a Doctor's place! For the very reason that his services are so valuable, you want to avoid calling him unnecessarily in time of war.

That's where we feel we can perform our most important war-time service: as your source for the first aid supplies and simple medications you should have—on hand—in order to be able to avoid calling the doctor to perform simple measures you can manage without him, if you are properly equipped.

With so few physicians left at home, the time, knowledge and skill of each becomes something all of us must conserve for serious illness, emergencies, surgery, and bringing new babies into our community.

When you do find it essential to call the doctor, and he prescribes the aids to getting well, we are equipped and staffed to fill his prescriptions "to the letter" with fresh drugs guaranteed to have potency.

By keeping well you help keep the home front strong to produce every need of the fighting front for a victorious termination of this war. Your doctor is doing his part: it's up to us and you to do ours!
