

Fathers Will Not Be Drafted Before October First; Total Of 9,300,000 In Uniforms

Nation To Have An Army Of 11,000,000,000 By First Of Year

Washington—Fathers living with and supporting children born before last September 15 have gotten their first official and positive assurance that there will be no need to issue a general draft call for them before October at the very earliest.

Classes 1-4 and 1-A-0 (men who can be used for non-combatant military service) already contain enough men who will actually get into uniform to fill draft calls for July, August and September, Major Emmet Solomon of the selective manpower division told reporters.

Reclassification
That will be true, he said, although some of the 1,566,000 men in these classes will be reclassified on appeal and many more will be rejected by physicians and psychiatrists, who are currently turning back 40 per cent of those examined.

Solomon declined to comment directly on the induction of fathers of children conceived before Pearl Harbor or predict when it would begin, but data he presented indicated that, generally speaking the drafting of their class might be delayed well past October 1.

month can be counted upon for induction, he said, adding 150,000 to the pool of men who can be taken through September.

Furthermore, this number will be swelled by "recoveries" from the 2,976,000 men who were in class 4-F on July 1 because of disqualification for physical, mental, educational or moral reasons.

On the darker side of the picture, Solomon pointed out that of the total of 22,184,000 men aged 18 through 37, more than half already have either been taken into military service or rejected and placed in 4-F.

9,300,000 In Uniform
War manpower commission officials said there are now 9,300,000 men and women in uniform and this number will grow to 10,800,000 by January 1 as the navy expands by some 500,000 in the first half of 1944 while the army holds to a strength of 8,200,000.

Solomon's discussion of the draft situation was highlighted by statements that:

This month's draft call was larger than any of the four preceding months. The August and September quotas will be somewhat smaller, with September "slightly larger than August and just under July."

Local boards are rejecting and reclassifying to 4-F 6.5 per cent of the men they examine, while induction stations are rejecting about 33.5 per cent.

"In isolated cases" men over 38 actually have been drafted after they refused to leave a non-deferred job for essential work. Waivers on their age were obtained from the army.

Nazi War Prisoner

PVT. ARTHUR E. GRAVLEY, above, is a prisoner of war in Germany, according to notification received from the war department by his parents, Mr. and Mrs. S. E. Gravley, of the Connecticut section. They were first notified on March 10 that he was missing in action, then on July 8 a notice was received that he is a German prisoner. He has been in overseas duty about a year, and was in North Africa about seven months.

PROGRAM PLANNED REVIVE INTEREST

Members Of Boy Scout Troop 1 May See Industrial Plants Operate

Plans for reviving interest and increasing attendance will be discussed tomorrow night at a meeting of Boy Scout Troop No. 1 with members of the troop committee, consisting of Charles Moore, chairman, J. M. Gaines and Mayor Verne Clement. At this meeting there will also be a demonstration of the use of the snake bite first aid kit. Scout leaders feel that at this time of the year it is advantageous for Scouts to refresh their knowledge of the proper procedure to cope with injury of this kind. Jim Hatley is Scoutmaster of this troop, which is sponsored by the Kiwanis club.

It has been suggested that interest might be stimulated by taking the boys on tours of industrial plants to enable them to see how such plants operate. Interesting programs are being planned, which will consist of instruction in fly casting, use of wood turning lathe boys. Hikes to points of interest nearby will also be taken. What the troop committee has in mind is a varied and instructive program of activities that will capture and hold the interest of all members of the troop.

Members of the troop are: Alex Kizer, Jr., Jim Newbury, George Poor, Bobby Patton, Paul Lance, Bryon Green, Bob Kappers, Henry Summey, Eugene Franklin, Richard Harrison, Stanley Kappers, Spalding McIntosh, Allen Eberle, Earle Hatley, Bill Shamblin, Buddy Tankersley, Walter McIntosh, Cullen Bryant, Johnny Summey, George Wheeler, Jr., Tom Lipsey, Charlie Pickelsimer and Charles Fuller.

Maternity Care Is Provided For Wives Of Men In US Army

Announcement has been made by the Red Cross Home Service department that maternity care will be provided by the state health department and the federal government for care of wives and infants of men in service of 4th, 5th, 6th and 7th grades.

The provision of the two co-operating agencies takes care of the doctor bill if the baby is to be born in the home or in a hospital, and also includes pre-natal and post-natal care of the mother and baby.

Provision has also been made to pay for ward-room service in approved hospitals, and the Transylvania Community hospital has applied for this approval, but at this time has not received final papers. However, doctor's fees will be paid for at the local hospital, or such other place as the mother may be at the time of birth of child, and medical care is also provided for by the state and federal departments.

Rates paid for by the departments are for ward only, and no private room may be used with the mother or other parties paying a part of the bill, it being a ruling of the departments that if the party is able to pay additional that the government should not pay a part of it. However, it is stressed that the fees are available for each and every wife and infant of any service man who is below rank of technical sergeant or petty officer in the navy or similar rating in other branches of the service.

This is not to be confused with "charity or public welfare" service, a letter from National Red Cross headquarters states, but is available for wives of all service men, rich and poor alike, and only applications to be made are through the attending physician and the public health service, in which instances for Transylvania the agency is the County Health Office with Mrs. Paul Lollis the agency head, and nurse.

All doctors in the county have been provided with proper blanks, and expectant mothers are requested to see their physician at least one month or two prior to expected birth of infant so that proper pre-natal care may be started and the approval for expenses given by the cooperating agencies.

The plan, it is stressed by letter from National Headquarters of the Red Cross is on the same basis as dependent allotment, and is available for any mother and infant of service men. Families may secure additional information from their physician, through the Public Health Office, or the local Chapter of American Red Cross.

is situated at No. N. Caldwell Street, in the Town of Brevard County of Transylvania State of North Carolina (Walter A. Weilt being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 22, Consolidated Statutes, entitled "Corporations" preliminary to the issuing of this Certificate of Dissolution.

Now Therefore, I, Thad Eure, Secretary of the State of North Carolina, do hereby certify that the said corporation did, on the 30th day of June, 1943, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In Testimony Whereof, I have hereto set my hand and affixed my official seal at Raleigh, this 30th day of June, A. D. 1943.

Enough to Go Around

Now, for the first time in years, both farmers and manufacturers can work for the biggest possible yield without thinking about the market. This year they can sell all they can produce.

As things look now, this condition is due to keep up for some time, but we can't count on its lasting forever. Certainly nobody wants a prosperity built on war! So it's high time that everybody concerned—and that is everybody—gave some thought to keeping things running after the war.

You're busy, we know. So are we. The important thing right now is seeing that there's enough of everything to go around. But we've been devoting a little attention to the problems of the future, too. We feel that the people who have the producing job to do can contribute a lot to the solution of those problems.

And we hope that you, too, busy as you are with growing more food than this country's ever produced, will be turning these problems over in your mind. For if America's farmers and manufacturers, working together, can't find a way to keep the richest country on earth producing enough for everybody, and let the producers make a living in the process—if they can't, why then, who can?
