Mrs. Wilson Does Things

Mrs. Lonard Wilson, of near Brevard, the mother of two sons in the armed forces and six other children at home, 15 years of age and under, is determined she's going to do her part in the war effort, too, by substituting for her two older sons in doing at least part of the work they did on the farm. She has proved beyond a doubt her ability to release two men for active military service. In addition to her household duties and the management of her children, tending to her chickens, her Victory garden and numerous other activities, she finds time to help her husband with the work on the 45 acre tenable farm. During the recent rush haying season, she helped to rake and shock the hay and in other ways she does a man's work on the farm. The Wilson family lives on the 65-acre farm between Brevard and Pisgah Forest, formerly owned by Mrs. Judson McCrary, who recently sold it to Dr. C. J. Goodwin, of Brevard.

Ride A Helicopter
A post-war helicopter is predicted by its inventor to be seen in every garage after the war is over. He has completed the model of the new helicopter which will hang motionless in the sky, or travel 500 miles an hour, and which can be stored in the family garage. But don't hold your breath until the time comes when you are owner of one.

Interesting Facts
Geological surveys show that the whole area about the city of London is sinking at a rate of about nine inches a century. Believe it or not, but the entire area of the United States rises and falls about nine inches daily, due to gravitational pull of the moon on the earth's crust. (The next time you feel this motion, just blame it on the moon.) The Pacific group known as the Philippines has more than 7,000 islands, of which more than half have no name, and less than 500 have an area of more than one square mile. (Maybe old Tojo did not know he was going to fall heir to so many small, nameless islands when he stole the Philippines from U. S.)

William Fixes Door Bell
The front door bell at the Baptist pastorium got out of order temporarily. Mrs. Thomason instructed William to put up some sort of notice to that effect. Now, William is better at athletic games than punctuation. He finally posted this sign below the door bell: Please knock the door bell out of order.

Mock Drumsticks
To aid your budget and ration points, too, try serving mock drumsticks. To serve four takes only one pound of meat and eight points. Maybe you'll prefer them broiled or oven baked instead of pan-fried on top of the stove. Here is how to make them: Combine one-half pound ground beef chuck, one-half pound ground veal shoulder, with pinch salt, pepper, sage
