### TRY THE TIMES WANT ADS

An examination may reveal that your tires need recapping. In this event, we are prepared to have the work done for you in a first class manner.

There is danger in delay. Tires which have been run until the tread is worn away frequently sustain damage to the carcass that makes it impossible to recap them in a satisfactory manner. On the other hand if the casing is good, a first class recapping job will add to the life of a tire months of trouble-free service. Conserve your tires; they cannot be replaced.
