raised in this county for any one undertaking," the co-drive chairman told The Times Wednesday, "but we believe it will go over the top in spite of the magnitude," they added.

Special committees are working at each of the industrial plants at Rosman, beginning Tuesday, and the same is true of the plants of Transylvania Tanning company at Brevard, the Wheeler Hosiery Mill and the Pisgah Cotton Mills. Special arrangements are being made by management of Ecusta Paper corporation and Carr Lumber company at Pisgah Forest, with management of both concerns making heavy donations in the name of their employees. In addition, employees of both concerns are making individual contributions through other channels.

Employees of business concerns in Brevard who were contacted Tuesday willingly assented to give one day's salary each to the War Fund, and in most instances management of the business houses are matching or more than matching that given by the employees. Signs denoting 100% participation are being given those concerns where every employee contributes to the extent of a day's salary.

The Association has an authorized capital of \$50,000, together with a substantial surplus and reserve. It has more than 400 loans outstanding aggregating over \$800,000.
