

Mrs. Moore's Room Has An Outstanding Attendance Record

A remarkable record of attendance was noted in Mrs. Charles Moore's first and second grade sections of the Brevard elementary school for the second month. The enrollment was 40 pupils with about an equal number of boys and girls. There were no absences for girls, giving them a clear 100 percent while the boys had only four absences.

Due to colds, sore throats and some other causes, the average attendance of the whole school for the second month was 92.5% for the first month. More care on the part of everybody concerned would make a better showing in attendance, it was stated.
