## FOOTBALL TEAMS WILL PLAY HERE ON SCHOOL FIELD

Large Crowd Of Fans Expected. High School Tied Franklin Thursday

### THANKSGIVING DAY

Brevard college and Brevard high school football teams will clash here this afternoon on the high school field in a Thanksgiving Day gridiron classic.

A large crowd is expected to see the game and since the high school eleven has shown a considerable amount of improvement since these two teams met, it is anticipated that the Turkey day contest will be a close and exciting one.

A heart-breaking fumble on the two-yard line last Thursday afternoon interrupted Brevard high's last-minute drive to victory against Franklin high.

With the score 7 and 7, Coach Bullock's boys marched down the field in the closing moments of the thrilling game and were in the shadow of the goal when Franklin recovered an untimely Brevard fumble and kicked out of danger.

The fast-charging local team scored in the first quarter on a 30-yard pass from Newbury to Barton and in the second period, Dick Angel went across after his Franklin teammates had charged 70 yards with line drives and end runs. Extra points were made by Summey, of Brevard, and Myers for Franklin.

The two teams were about equally matched. Brevard made 7 first downs and Franklin 6.

The line-up was as follows:  
**BREVARD** Pst. FRANKLIN  
B. Barton RE H. Angel  
Fanning RT A. Angel

Letters of interest are always welcomed in this department, but opinions expressed therein are not necessarily shared by The Times.

### God Bless America?

Editor The Times:  
What a song of the hour today! Everybody sings it. But will God bless America when she fails to serve Him; when church pews are vacant; when people are indifferent to the Word of God and Bibles are forgotten?

God Bless America? When the principles on which she was founded are becoming out of style; when it's smart to serve the Devil seven days a week?

God Bless America? When its mothers and future mothers can smoke and drink and be "nice about it." When happiness is found under the influence of drink, foul jokes and jazz music.

God Bless America? When she's allowed to creep into our public schools, and few of her teachers can repeat the Lord's Prayer or the Ten Commandments from memory.

God Bless America? When fathers must work three Sundays out of four and mothers bear all the responsibility of the family's training. When men fail as men, to worship and pray. When God's money and possessions aren't contributed to His cause?

God Bless America? When she needs the services of men in churches instead of trenches. When prayer meetings are placed aside for the pool halls and gambling joints. When Sunday is a picnic, a party, or golf tournament.

God Bless America? When homes make mockery of "Returning Thanks" and are ashamed to mention Christ. When Christmas is a celebration with no thought of its origin and Easter is a fashion parade.

God Bless America? When the blood of Christ is trampled and few care to bear his cross. When the gift of salvation is rejected and the Kingdom of God is never sought.

God Bless America? When she's pleasure mad, politically crazy and men set their own standards of living.

God Bless America? "No, God have mercy," I say.  
A Christian Mother.

If you are selling eggs, just divide the number of eggs you sold this year by 365, because soldiers average about one egg a day. Every time you sell a case of eggs, you are sending another soldier, sailor, marine or airman enough eggs for 1944.

## FARM QUESTIONS AND ANSWERS

QUESTION: Will feeding on turnip salad stop my chickens from laying?

ANSWERS: When turnip salad is fed in unlimited amounts, the chickens consume less mash and this, in turn, will cause the flock to slump in egg production, answers C. F. Parish, Extension poultry specialist at State College. He recommends that not over four pounds of turnip salad be fed a flock of 100 birds in a day. Any feed that causes a decrease in the consumption of mash by the flock is likely to cause a slump in egg production.

QUESTION: Will the feeding of tankage to my hogs cause an off flavor in the cured meat?

ANSWER: Properly processed tankage, when fed to hogs, will in no way cause an off flavor of the meat, says Dr. D. E. Brady, Extension animal husbandry specialist at State College. The same is true for properly processed fish meal. Brady pointed out, however, that in the case of feeding fish, where there is a high oil content, that this will cause a development of an off or rancid flavor in the meat.

QUESTION: Would you advise the feeding of beef calves while they are nursing their dams?  
ANSWERS: Many cattle growers are doing this successfully,

says L. I. Case, Extension animal husbandman at State College. He points out that there are two ways of doing this feeding. One is to allow the calves to run continually with the cows, feeding them grain in a creep. The other is to separate the calves from the cows when they are six

weeks to two months old, allowing them to nurse twice daily, and keeping feed before them in a barn or open shed connected with a separate pasture that is used exclusively by the calves.

# DO YOUR CHRISTMAS SHOPPING EARLY!

★

Plans have been made for an impressive celebration of Christmas in Brevard this year. There will be a Santa Claus (in person), decorations, good fellowship . . . and a wide variety of Christmas merchandise offered by our enterprising merchants. This year it is patriotic to trade at home . . . and so conserve tires, gas, time and strain on nerves.

We join local businessmen in extending to Transylvania county people a cordial invitation to shop in Brevard this Yule season. W. C. Austin

## Don't Waste Electricity

Electricity itself cannot be saved or stored away. But any reduction you can safely make in your use of it, will cut the amount of fuel burned to make it. That will mean fewer freight cars to haul it and fewer man hours to handle it.

Each little bit that you save, multiplied by thousands, will be a contribution to the Voluntary Conservation Program being sponsored by the Government.

"There is no shortage of electric power . . . and there will be none . . . for war and essential civilian requirements."
