BUYS AUTO TAGS WITH \$2.00 BILLS

Purchase Made By Mrs. Allen Brittain. Tags Sales Are Lagging

Two dollar bills, with their corners good, are good. In fact Mrs. Allen Brittain, of Brevard, says two dollar bills are good even when the corners are missing.

Mrs. Brittain, whose husband was for a number of years a partner in the B&B Feed and Seed store here but is now with Uncle Sam's naval forces, bought her auto license tag last week with two-dollar bills, three of which had the corners as nice and square as you please.

"This is the eighth year that Mr. and Mrs. Brittain have bought their auto license with bills of the \$2 denomination. They save each bill of the \$2 class until license buying time, and are always among the first to purchase tags.

Manager C. M. Douglas, of the local branch Carolina Motor Club, says that tag sales are lagging, and that some people fail to understand just how to secure the new plates. The 1944 registration or long white card is all that is necessary. In event the white card has not been received, the 1943 pocket card or title is evidence sufficient to secure the new plate which is to be attached to rear of the car or truck.
