DEADLINE NEARS FOR FILING AN AMENDED RETURN

Farmers Also Have To Make Declarations By December 15th.

Commissioner of Internal Revenue Robert E. Hannegan today urged all taxpayers to determine if they are required to file either original or amended "Declarations of Estimated Income and Victory Tax" on or before December 15.

Explaining that only a limited percentage of taxpayers need make any filing at this time, Mr. Hannegan suggested that everyone ascertain for himself whether he is affected. By far the largest percentage of taxpayers have no further filings to make until the annual income and Victory tax return is due not later than March 15, 1944. However, some taxpayers who filed "declarations" in September have an installment to pay December 15, for which they will be sent bills by their local Collectors of Internal Revenue.

In general, the filing of a declaration on or before December 15, will be required of the following:

1. Farmers who have sufficient income to require filing and have postponed filing under the special provisions of law which permit farmers to wait as late as December 15.

2. Persons who did file in September but underestimated their tax by more than 20 percent and who should, therefore, file "amended declarations" to avoid penalties.

3. Persons who did not file in September because their estimated income at that time was insufficient to require filing, but now come within any one of the following classes:

a. Anyone who expects to have during the calendar year 1943 more than \$100 gross income from a source outside of wages which are subject to withholding and who also expects sufficient gross income to require filing an income tax return (\$500 for a single person, \$1,200 for a married couple, or \$624 for an individual married person).

b. Any single person expecting wages of more than \$2,700 during the year.

c. Any married person or any married couple expecting individually or together more than \$3,500 from wages during the year.

d. Any person who was required to file an income tax return for 1942 and who expects his wages in 1943 to be less than in 1942.
