

Lions Club Thanks Times For Its Efforts To Keep Greyhound Lines

Several Talks Were Made. New Year Resolutions Suggested

By unanimous vote members of the Brevard Lions' club, at their regular meeting last Thurs. evening, thanked The Transylvania Times for an editorial in the December 30 issue, expressing opposition to the leasing by the Greyhound lines of the franchise to maintain bus service between Brevard and Hendersonville to the City Bus lines of Hendersonville. The motion was made by Lion Ralph Fisher after Lion Ed McMahan had urged that the club be well represented at the hearing on the question in Hendersonville this morning.

The program for the evening was in charge of Lion Tom Varner and related to the New Year. Lion B. W. Thomason spoke on new year resolutions and said that people who felt that they had been remiss in some respect should rather make "new day" resolutions and adhere to them.

Lion Ed McMahan enumerated and discussed briefly his conception of Lion goals for the new year, listing first participation in every effort to strengthen and facilitate the war effort. Post-war planning was mentioned next. Civic improvement, moral uplift, curbing vice and immorality, were

Kudzu Good Legume For North Carolina

Kudzu is an excellent legume for reclaiming gullied lands, for grazing, for hay or soil improvement in North Carolina, says Enos C. Blair, Extension agronomist at N. C. State College.

Kudzu is usually started by setting two or three year old crowns, or rooted sections of the vines. Seedlings may also be grown in a nursery. The crowns should be set in late winter, before the plants start growing.

"On gullied land, growers dig holes about 20 feet apart, 18 inches square, and 15 inches deep. These holes are filled with a mixture of soil, manure, and one pound of superphosphate or complete fertilizer. Two plants are set in each hole," Blair says.

On cultivated land, he recommends that furrows be run about 15 feet apart, and that manure or fertilizer be applied in the furrow. The land is then ridged as for cotton and the plants set 5 to 6 feet apart, with about 500 plants per acre.

Row crops are grown between the rows of kudzu for two or three years, dropping back with cultivation as the kudzu spreads. This cultivation enables the plants to root properly in the freshly cultivated soil.

goals cited. "As individuals, be a Lion," Mr. McMahan said, "and you will be a good citizen."

Lion Burt Loomis gave a cautious and thoughtful analysis of the war outlook. He observed that General Eisenhower, in predicting victory over the Nazis in 1924, qualified it by the proviso that every citizen do his part. Dr. Loomis compared the position of the Allies now with their plight a year ago, when Egypt was menaced and the Germans had laid siege to Stalingrad. Dr. Loomis said we had arrived at the point where a desperate struggle was impending and said we "might be too hopeful of the immediate outcome." He then cited evidences of friction among the Allies, mentioning the incipient controversy over the eastern frontier of Poland, and said that others would develop as countries were liberated from the Nazi yoke.

In the Pacific, Dr. Loomis reminded his hearers, we are still 3,000 miles from Tokyo. The Japs moreover, have at their command the vast resources of the lands they conquered at the outset of the war. After formal resistance by the Japanese had been crushed, Dr. Loomis said it was likely that the remnants of their armies would flee to the hills and there continue to fight. "But," Dr. Loomis continued, "we have Allies and the strength that comes from a righteous purpose. The task before us will require the fullest measure of devotion and all of our energy."

Keys for having gotten two new members for the club during the past year were presented Lion Frank Kerber and Lion President Jack Trantham. They were presented by Lion McMahan.

Great oaks from little acorns grow—and charred stumps from the little mach we throw.—Wall Street Journal.

Gets Appointment

Edward Glazener, of Brevard, who made an outstanding record at State College, was recently appointed as a poultry specialist of the North Carolina Extension Service and assigned to work in Chatham county. He is the son of J. A. Glazener, Transylvania county agent.

Timely Hints For Farm Homemakers

BY RUTH CURRENT
Keep the medicine chest out of children's reach, or keep it locked. Label all medicines plainly. No patent medicines. Read directions carefully. When measuring medicines, remove the cork, wipe the neck of the bottle, measure the medicine, and wipe the neck of the bottle again before replacing the cork. Pour medicine from the side of bottle opposite the label to keep the label clean.

Write on the label the date you bought the medicine and how it is to be used.

Keep poisons in dark bottles, specially shaped, and use stoppers different from ordinary ones.

"Spring clean" your medicine chest twice a year and throw away old medicines. Liquid drugs evaporate. Pills and tablets deteriorate with age.

Prescriptions which have been used during an illness should not be kept indefinitely.

Save all metal jar tops this winter, the War Food Administration advises housewives. Wartime scarcities make every jar and lid valuable either for canning or keeping food. Many one-piece screw tops on jars of coffee, peanut butter, pickles, and mayonnaise should be saved for next year's canning. Other lids and jars, not suitable for canning, can be useful for jelly or marmalade, refrigerator dishes, or dry foods. For future conveniences save each jar with its lid on.

Especially worth saving are the small metal screw caps from coffee and other food jars known as "size 63". More commercial food products are being put up in "63" jars, because the small opening means a saving of metal, rubber

BLANTYRE NEWS

BY MRS. ADA REED
(Intended For Last Week)
Mr. and Mrs. Raymond Reed and family, of Charleston, S. C., arrived on Christmas day for a short visit with the former's parents, Mr. and Mrs. John Reed and family.

Mr. and Mrs. Fred Johnson, of Brevard, visited their son, Louis Johnson, and Mrs. Johnson, here during the holidays.

Mr. and Mrs. John Reed had as their guests during Christmas Mr. and Mrs. Raymond Reed and children, Ann, Claude and Gloria, of Charleston, S. C., Mr. and Mrs. H. L. Setzer and son, Howard, Jr., and Miss Belle Reed, of Candler, Mr. and Mrs. Earl Gray and daughter, of Etowah.

Little Joe, small son of Mr. and Mrs. Selwin Hamilton, put a grain of corn into his nose last Wednesday. He was taken to a physician and the corn removed. Wednesday night another son, Wayne, put an orange seed into his nose. He was taken to the hospital and the seed was removed.

Mr. and Mrs. James Maxwell have moved from the Hawkins farm at Blantyre to the place just back of Blantyre church.

J. T. Justus is able to be up again after being ill with a cold. The families of Mr. and Mrs. William Westall and Mr. and Mrs. Holland Orr, also the children of Mr. and Mrs. Claude Davis are others who are ill in our community.

and glass. Most coffee jars are now coming on the market with paper caps, but these jars can be used for hot-water canning with caps saved from other jars.

Duke Power Employees Are On Their Toes TO SERVE YOU AND THEIR NATION

They have to be—their task is to continue indispensable services to regular civilian customers while at the same time extending efficient electric, gas, and transportation services to war plants and war workers. They have to do this with an additional handicap — a handicap they are proud to have — that of having more than 900 of their fellow workers in uniform.

"Electricity is Vital in War—Don't Waste It!"
