

# Ration Tokens Will Be Used By Shoppers Starting On Feb. 27; To Be Used For "Change"

### Red And Blue Tokens Good For One Point; Stamps Change Value

Beginning February 27th, ration book holders will use a new plan for shopping. Tokens will be used to make change for the red and blue stamps in book 4.

Under the new plan, red stamps and red tokens will be used for canned fruits and vegetables and other processed foods. Regardless of how the stamps in book 4 are marked, each will be good for ten points and each token is worth one point.

Becoming effective on February 27th are five blue stamps worth a total of fifty points. Three red stamps worth thirty points become effective at the same time and for each two weeks thereafter three more become valid.

The red and blue stamps will be good for approximately twelve weeks, while the tokens will last indefinitely. The tokens to be used are slightly smaller than a dime and have been made light for the convenience of those holding them. Tokens should be used and not hoarded, say OPA officials.

By using the token system and making stamps in book 4 good for more points than had been previously planned for, there will be a great saving in paper, transportation and man hours. Also the new plan will be easier for book holders because they will deal with only stamps worth ten points.

To tie up the new rationing plan with an old saying, it may be referred to as "something old, something new, something red, something blue."

Local merchants will get their supply of tokens from the bankers sometime between February 3 and February 15, and will have them ready to put into circulation on the 27th.

## BIRTHDAY GIFT

FROM PAGE ONE

Mr. Straus served as chairman of the hospital finance and building committees and has been chairman of the board of trustees for the past two years.

The beautiful new \$100,000 hospital building was completed in June, 1942, and has been in operation since that time. The hospital is debt-free and is filling a great need in this county.

Money in the "Harry Straus Fund" is to be used for some hospital purpose and the donors will designate this use, it is explained. It is also anticipated that the fund will be increased.

In the near future another wing to the institution will be needed and a nurses' home will be erected after the war.

## RED CROSS PLANS

home service department. Filing of papers for allotments, checking family status, and seeing that medical care and emergency needs are taken care of in absence of the family service man, with hundreds of miles driven each month in cars, and two to three days actual time given each week, are some of the things which are done free by the home service department.

In addition to the home service work, schools in home nursing

have been conducted, and thousands of pieces of material have been made up for soldiers and refugees by ladies in the county—materials being furnished through funds of the local chapter and room, lights, and heat furnished by various donors.

"The Red Cross is serving in the true sense of the word 'service' in Transylvania," Chapter Chairman Jerry Jerome stated in announcing the forthcoming drive, "and it will continue to serve if the people will back it with their money."

## EIGHT INCHES OF SNOW FELL HERE LAST WEEK

King winter really visited Brevard and this section last week end when about 8 inches of snow fell here.

Traffic was interrupted and the opening of schools was again delayed, but town and state highway forces did an excellent job of cleaning off the streets, sidewalks, and highways in record time.

Strange as it might seem, no serious accidents were reported and traffic was quickly restored to normal. The snowfall was rather general all over the state.
